4. FIRST AID MEASURES

First aid measures for different exposure routes

General advice Show this safety data sheet to the doctor in attendance.

Eye contact Immediately flush eye with plenty of cool, running water. Remove contact lenses if

applicable, and continue flushing for at least 15 minutes, holding eyelids apart to ensure

thorough rinsing of the entire eye. GET IMMEDIATE MEDICAL ATTENTION.

Skin contact Wash with water for 5-10 minutes. Remove any contaminated clothing and wash before

reuse. If condition persist, Consult a physician.

Inhalation If qualified give oxygen or artificial respiration as needed.

Ingestion DO NOT induce vomiting. Give large amounts of water if victim is conscious. Never give

anything by mouth to an unconscious person. Get medical attention immediately.

Protection of First-aidersDo not use mouth-to-mouth method if victim ingested or inhaled the substance; induce

artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Ensure that medical personnel are aware of the

material(s) involved, and take precautions to protect themselves.

Most important symptoms/effects, acute and delayed

Main Symptoms The most important known symptoms and effects are described in the labelling in section 2

and/or in section 11.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician Product is a corrosive material. Use of gastric lavage or emesis is contraindicated.

Possible perforation of stomach or esophagus should be investigated. Do not give chemical antidotes. Asphyxia from glottal edema may occur. Marked decrease in blood

pressure may occur with moist rales, frothy sputum, and high pulse pressure.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Carbon dioxide (CO₂). Dry chemical. Alcohol-resistant foam.

Unsuitable Extinguishing Media This product contains alcohols which will reduce the effectiveness of normal foam. Use

alcohol-resistant foam instead.

Specific hazards arising from the chemical

Runoff may pollute waterways. Flammable hydrogen gas will be liberated upon contact with various metals.

Explosion Data

Sensitivity to Mechanical Impact None.
Sensitivity to Static Discharge None.

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).

Avoid contact with skin, eyes and clothing. Use personal protective equipment. Ensure

adequate ventilation. Keep people away from and upwind of spill/leak.

Other information Common Weak Acids suitable for neutralizing caustic alkalis: acetic acid, citric acid, lemon

juice, tartaric acid, vinegar.

Environmental precautions

Environmental precautions Neutralization is normally necessary before waste water is discharged into water treatment

plants. Prevent entry into waterways, sewers, basements or confined areas. See Section 12

for additional Ecological Information.

Methods and materials for containment and cleaning up

Methods for Containment Prevent further leakage or spillage if safe to do so. Contain spill with inert material. Dike

around large spills. Do not use organic absorbents or incompatible materials. Neutralize

with mild acid.

Methods for cleaning upMop up & flush neutralized material to sewer with plenty of water.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling KEEP OUT OF REACH OF CHILDREN. Keep away from heat, sparks and open flame. No

smoking. Do not eat, drink or smoke when using this product. Use good personal hygiene practices. Wash hands before eating, drinking, smoking, or using toilet facilities. Wash

thoroughly after work using soap and water.

Conditions for safe storage, including any incompatibilities

Technical measures/Storage

conditions

Keep container in cool well ventilated area. Store away from incompatible materials. Keep out of the reach of children. Keep away from open flames, hot surfaces and sources of

ignition.
