

POISON – KEEP OUT OF REACH OF CHILDREN

FLY AX™

400g

GRANULAR FLY BAIT—Contains biological attractant that attracts and kills flies quickly! Advanced bait formula contains multiple feeding stimulants plus Tricolure* (Muscalure), fly sex attractant. Attracts and kills house flies plus other fly species.

METHOD OF USE: Place **Fly Ax™** granules in plates or trays in area to be treated at a rate of 100g **Fly Ax™** per 40m². The granules should be spread on the total surface of the plates or trays and not left in a pile. Product can also be put on solid surface such as floors.

DIRECTION FOR USE: Place **Fly Ax™** granular fly bait around the outside of compost heaps, feedlots, dairies, stables, poultry houses, pig sties, kennels, meat and poultry processing plants, canneries, supermarkets, refuse containers and dumps. Also place **Fly Ax™** granular fly bait in the walkways inside poultry and livestock buildings. Do not use in areas where exposed meat, milk or other edible products are present or used.

ACTIVE INGREDIENT: 10g/Kg Methomyl in the form of granular bait

WARNING: This product may be harmful if swallowed or absorbed through skin.

PRECAUTIONS: Store in original container, tightly closed away from foodstuffs. When mixing or applying, wear waterproof gloves and do NOT eat, drink or smoke. Remove protective clothing and wash hands and face before meals and after work. Dispose of empty container safely.

FIRST AID: If swallowed give a glass of water and cause vomiting by putting a finger down the throat. Repeat until vomit fluid is clear in appearance. Do not cause vomiting if patient is unconscious or convulsing. Take to hospital without delay.
