

Section 1. Chemical product and company identification

Chinese name : 固體洗衣清潔劑
Product name English : Homestyle Solid Laundry Detergent with Enzymes
Supplier : Ecolab Limited
 15/F, Lu Plaza
 2 Wing Yip Street, Kwun Tong, Kowloon, HONG KONG
 Tel: +852-2341 4202
Emergency telephone number : 852-2341-4202
Product type : Laundry detergent
Date of issue : 2011 . 8 . 21

Section 2. Hazards identification

Hazard classification : Not available.
Routes of entry : Skin contact, Eye contact, Ingestion
Human health hazards
Inhalation : Moderately irritating to the respiratory system.
Ingestion : No known significant effects or critical hazards.
Skin : Moderately irritating to the skin.
Eyes : Irritating to eyes.
Environmental hazards : No known significant effects or critical hazards.
Fire/explosion hazards : No specific fire or explosion hazard.

Section 3. Composition/information on ingredients

Mixture

Chemical name	Concentration	CAS No.
sodium carbonate	10 - 30	497-19-8
alcohols, c12-16, ethoxylated	10 - 30	68551-12-2
poly(oxy-1,2-ethanediyl), a-(2-propylheptyl)-w-hydroxy-	1 - 10	160875-66-1

Section 4. First-aid measures

Inhalation : If inhaled, remove to fresh air.
Ingestion : Do not induce vomiting. Never give anything by mouth to an unconscious person. If irritation persists, get medical attention.
Skin contact : Flush contaminated skin with plenty of water. Continue to rinse for at least 10 minutes. Remove contaminated clothing and shoes. Clean shoes thoroughly before reuse. Get medical attention if irritation persists. Wash clothing before reuse.
Eye contact : In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention.

Section 5. Fire-fighting measures

Extinguishing media

Suitable	: Use an extinguishing agent suitable for the surrounding fire.
Not suitable	: None known.
Hazardous combustion products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide metal oxide/oxides
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
Materials to avoid	acids

Section 6. Accidental release measures

Personal precautions	: Ventilate area of leak or spill. Do not touch damaged containers or spilled material unless wearing appropriate protective equipment (Section 8). Stop leak if without risk. Do not allow to enter drains or watercourses.
Environmental precautions	: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods for cleaning up	: Use a water rinse for final clean-up.

Section 7. Handling and storage

Handling	: Avoid contact with eyes, skin and clothing. Use only with adequate ventilation. Keep container closed. Wash thoroughly after handling.
Storage	: Keep out of reach of children. Keep container tightly closed. Keep container in a cool, well-ventilated area. Do not store above the following temperature: 40°C

Section 8. Exposure controls/personal protection

Chemical name	Exposure limits
zeolite	GBZ-2 (China, 4/2007). PC-TWA: 5 mg/m ³ 8 hour(s). Form: dust

Recommended monitoring procedures	: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.
Occupational exposure controls	: Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapour or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Personal protection

Respiratory	A respirator is not needed under normal and intended conditions of product use.
Hands	: For prolonged or repeated handling, use the following type of gloves: Impervious gloves.
Eyes	: Wear eye protection.
Skin	: No protective equipment is needed under normal use conditions.

Section 9. Physical and chemical properties

Physical state	: Solid [Cast Solid]
Colour	: white with coloured particles
Odour	: Fragrance-like
pH	: 10 to 12 [Conc. (% w/w): 1%]
Specific gravity	: 1.27 to 1.34
Solubility	: Soluble in the following materials: hot water. Partially soluble in the following materials: cold water.

Section 10. Stability and reactivity

Stability and reactivity	: The product is stable.
Conditions to avoid	: No specific data.
Materials to avoid	: acids
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Acute toxicity

Inhalation	: Moderately irritating to the respiratory system.
Ingestion	: No known significant effects or critical hazards.
Skin	: Moderately irritating to the skin.
Eyes	: Irritating to eyes.

Potential chronic health effects

Chronic effects	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
Developmental effects	: No known significant effects or critical hazards.
Fertility effects	: No known significant effects or critical hazards.

Section 12. Ecological information

Aquatic ecotoxicity

Product/ingredient name	Result	Species	Exposure
sodium carbonate	Acute EC50 347 mg/L	Daphnia	48 hours
	Acute EC50 199.82 to 298.9 mg/L Fresh water	Daphnia - Water flea - Neonate - 24 hours	48 hours
	Acute LC50 740 mg/L	Fish	96 hours
	Acute LC50 <850 mg/l	Fish	96 hours
	Acute LC50 320 mg/l	Fish	96 hours
	Acute LC50 300 mg/l	Fish	96 hours
	Acute LC50 1640000 to 2030000 ug/L Fresh water	Daphnia - Water flea - 24 hours	48 hours
	Acute LC50 1020000 to 1170000 ug/L Fresh water	Daphnia - Water flea - 24 hours	48 hours
	Acute LC50 <850000 ug/L Fresh water	Fish - Fathead minnow - 1 to 7 days	96 hours
	Acute LC50 740000 ug/L Fresh water	Fish - Western mosquitofish - Adult	96 hours
	Acute LC50 565000 ug/L Fresh water	Daphnia - Water flea	48 hours
	Acute LC50 320000 ug/L Fresh water	Fish - Bluegill	96 hours
	Acute LC50 300000 ug/L Fresh water	Fish - Bluegill - 3.88 cm - 0.96 g	96 hours

Section 12. Ecological information

Acute LC50 265000 ug/L Daphnia - Water flea 48 hours
Fresh water

Other adverse effects : No known significant effects or critical hazards.

Environmental effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Waste disposal : The generation of waste should be avoided or minimised wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Consult your local or regional authorities.

Section 14. Transport information

Package mark : Not regulated.

Packing group : -

Section 15. Regulatory information

Authored with regard to:

- "Classification and Mark for commonly used dangerous chemicals" (GB13690-1992)
- "General rules for preparation of a Chemical Safety Data Sheet" (GB16483-2000)
- "The principle of classification of transport packaging groups of dangerous goods" (GB/T15098-94)
- "Classification and code of dangerous goods" (GB6944-2005)

Section 16. Other information

Date of issue : 2011 . 8 . 21

Prepared by : Regulatory Affairs

Date of previous issue : No previous validation

☑ Indicates information that has changed from previously issued version.

Notice to reader
