

Material Safety Data Sheet according to 91/155/EEC - ISO 11014-1

Sekusept PLUS

1. Identification of the product and of the company

Identification of the product:

Sekusept PLUS

medical instrument disinfectant
Medical Devices CE 0301 class IIa

Company/undertaking identification:

Ecolab Deutschland GmbH, Postfach 130406,
40554 Düsseldorf, Tel.: 0211/9893-0

The Henkel information service also provides an around-the-clock telephone service on telephone No. ++49-(0)211/797-3350 for exceptional cases.

2. Composition/information on ingredients

Declaration according recommendation 89/542/EEC:

5 - 15 %: nonionic surfactants,
Further ingredients: Antimicrobial agents, complexing agent,
solvent, anticorrosion agent, dyestuff and fragrances

Declaration of ingredients:

50%	Glucoprotamin, 50%ig
	Symbol: C
	R-Phrases: 34-22
5-15%	Nonionic surfactant
	Symbol: Xi, N
	R-Phrases: 36-50
5-15%	Aromatic alcohol
	Symbol: Xn
	R-Phrases: 22-36
5-15%	Butyldiglycol
	Symbol: Xi
	R-Phrases: 36

Material Safety Data Sheet according to 91/155/EEC - ISO 11014-1

Sekusept PLUS

3. Hazards identification of the product

C Corrosive

R 34: Causes burns

R 22: Harmful if swallowed

Please, pay attention to:

In Germany this product is subject to the
Pharmaceutical Directive (Arzneimittelgesetz), and to
the Medical devices Directive (Medizinproduktegesetz),
see chapter 15 "National regulations".

4. First aid measures

after inhalation:

In case of correct using is an inhalation of the concentrat and
the application-solution not possible.

If the concentrat was sprayed by a mistake, then:

Fresh air, consult doctor if complaint persist.

after skin contact:

Rinse with running water and soap. Skin care. Remove
contaminated clothes.

after eye contact:

Immediately flush eyes with copious amounts of running water
(for 10 minutes), put on a bandage with sterile gauze, see an
oculist.

after ingestion:

Drink 1-2 glasses of water, do not induce vomiting but
administer an antifoaming agent (Sab Simplex), seek medical
advice.

5. Fire-fighting measures

Suitable extinguishing media:

suitable for all regular extinguishing materials

Extinguishing media which must not be used for safety reasons:

none known

Special exposure hazards arising from the product itself,
from combustion products or from resulting gases:

none known

Special protective equipment for firefighters:

Wear protective equipment.

Material Safety Data Sheet according to 91/155/EEC - ISO 11014-1

Sekusept PLUS

6. Accidental release measures

Personal precautions:

Wear protective equipment. Avoid contact with skin and eyes.

Environmental precautions:

Do not allow large amounts to be released into the sewer system.

Methods of cleaning up/of removing:

Remove mechanically wash away residue with plenty of water;

Other indications:

Dilute small quantities with large amount of water and rinse.

7. Handling and storage

Handling:

Avoid spraying/aerosol generation.

Do not spray concentrat and also solutions!

Storage:

Store only in the original container.

Do not store at temperatures above 25 °C;

Storage Class: VCI-storage class: 8A (BRD)

8. Exposure controls / personal protection

Information on the system design:

No further data, see item 7.

Components with specific control parameters:

Butyldiglykol

CAS-Nr.: 112-34-5

MAK: - ppm (100 mg/m3)

Pollution at the working place can be excluded in normal processing procedures.

Personal protection:

The German accident prevention regulations (UVV) for health service and welfare (VBG 103 and GUV 8.1) specify in their Art. 7 the protective clothing to be worn for cleaning and disinfection measures.

Respiratory protection: not necessary

Hand protection: protective gloves made of rubber

Eye protection: protective goggles

Skin protection: suitable protective clothing

Material Safety Data Sheet according to 91/155/EEC - ISO 11014-1

Sekusept PLUS

9. Physical and chemical properties

Physical state: liquid
Colour: green
Odour: little intrinsic odour
pH: (undiluted) (20°C) ca. 9,0
Cloudpoint: < -5 °C
Clarification point: > +5 °C
Flash point: No flash point up to 100 °C
Relative density: (20°C) ca. 1,02 g/cm³
Solubility: (20°C) soluble in water

10. Stability and reactivity

Conditions to avoid:
No decomposition if used according to specifications
Materials to avoid:
Reacts with Aldehyden
Hazardous decomposition products:
none if used for intended purpose

11. Toxicological information

Ingestion:
According to its acute toxicity data and its composition the product is acute moderately toxic after ingestion.
Skin contact:
The product causes corrosion on skin and mucous membranes.

12. Ecological information

Persistence and degradability:
The nonionic surfactants contained in the product oblige by the biodegradability requirements of the surfactant regulation of June 4, 1986(Germany), i.e., they are, in the mean, degradable to the extent of 90%.

Material Safety Data Sheet according to 91/155/EEC - ISO 11014-1

Sekusept PLUS

13. Disposal considerations

Waste key number according to (LAGA) (Länderarbeitsgemeinschaft
Abfall) (Germany): 53507
EWC-Code: 070601
special waste incineration with the approval of the responsible
local authority;

14. Transport information

Transport over land ADR/RID:

Class: 8 Number/Letter: 56c
1st numbering of tanks panel: 80
2nd numbering of tanks panel: 3267
Designation of goods:
3267 Ätzender basischer organischer flüssiger
Stoff, n.a.g. (enthält Glucoprotamin)

Exemption from the dangerous goods regulation of the above
mentioned class due to application of the a-marginal number
(limited quantities regulation). It is valid for the following
products which are transported in the complete original
packaging: SA 4

Transport over inland waterways ADN/ADNR:

Class: 8 Number/Letter: 56c
Designation of goods:
Ätzender basischer organischer flüssiger Stoff,
n.a.g. (enthält Glucoprotamin)

Transport over sea IMDG:

Class: 8 UN-Nr.: 3267 PG: III
EmS: 8-15
MFAG: 760
Proper shipping name:
Corrosive liquid, basic, organic, n.o.s.
(contains Glucoprotamine)

Transport by air ICAO/IATA:

Class: 8 UN/ID-Nr.: 3267 PG: III
Pkg-Instr. (passengerair.): 818
Pkg-Instr. (cargo air. only): 820
Proper shipping name:
Corrosive liquid, basic, organic, n.o.s.
(contains Glucoprotamine)

15. Regulatory information

Classification and labelling according to GefStoffV:

Symbols of danger:
C Corrosive

Material Safety Data Sheet according to 91/155/EEC - ISO 11014-1

Sekusept PLUS

Ingredients:

Glucoprotamin

R-phrases:

R 22: Harmful if swallowed

R 34: Causes burns

S-phrases:

S 26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice

S 27: Take off immediately all contaminated clothing

S 28: After contact with skin, wash immediately with plenty of water

S 36/37/39: Wear suitable protective clothing, gloves and eye/face protection

S 45: In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible)

S 2: Keep out of reach of children

National prescriptions:

Not a combustible liquid according to the regulations governing combustible liquids (VbF) in Germany.

WGK = 3, highly water-endangering product (manufacturer classification in conformity with the German VwVWS of May 17, 1999).

According to §2, para. 2 of the Hazardous Material Directive ("GefStoffV") of 01.11.93, the third section of the Hazardous Material Directive (identification and material safety data sheet) is not required for components or preparations listed in §2, para. 1 of the Chemicals Directive ("ChemG") of 25.07.94; these are:

- pharmaceuticals according to §2, para. 1 of the Pharmaceutical Directive of 24.08.76 (pharmaceuticals for human contact, i.e. all hand- and skin disinfectants.)
- other pharmaceuticals given to consumers in specific packing (e.g. pharmaceuticals without direct human contact as e.g. surface disinfectants)
- medical products according to §3, no.1, 2, 6, 7 and of the Medical Product Directive of 02.08.94 as e.g. disinfectants for medical instruments.

Although there is no requirement by law to identify or create material safety data sheets for pharmaceuticals or medical products we have decided to do so in accordance with the Hazardous Material Directive.

16. Other information

This information is based on our current level of knowledge and relates to the product in the state in which it is delivered. It is intended to describe our products from the point of view of safety requirements and is not intended to guarantee any particular properties.
