MAXIMISE PASTURE SURVIVAL & GROWTH**

CAUTION KEEP OUT OF REACH OF CHILDREN

Active ingredient: Contains 15g/kg Malathion 95 in the form of a ready-to-use wheat bait

Warning:

'CRICKOFF PRO' shall not be used for human or animal consumption.
Product May be harmful if swallowed, inhaled or absorbed through skin.

HSNO Classification: 6.8B, 6.9B, 9.1A, 9.4B Maldisol

First Aid:

If poisoning is suspected **DO NOT** induce vomiting. Call a doctor or emergency physician at your nearest hospital or National Poisons Centre **0600 POISONS**

Direction for use:

Remove all stock and domestic animals from the control area.
Apply onto pasture through hand or mechanical means when crickets first appear. Repeat as required. It is an offence to use this product on animals.

Application rate:

Apply to pasture at a rate of 11kg/hectare when crickets first appear. Repeat treatment at same application rate for effective control of crickets as required.
ECOTOXIC - 'CRICKOFF PRO' shall not be applied onto or into water.

It is an offence for users of this product to cause residues exceeding the relevant MRL in the New Zealand (Maximum Residue Limits of Agricultural Compounds) Food Standards.

Withholding period: Stock (or domestic pets) must not graze treated areas within 7 days of application.

Storage:

Store in original bag so that product remains air-tight in a dry, cool, frost-free and well-ventilated area away from direct sunlight and from feed or foodstuffs.

Shelf life:

When stored appropriately, 'CRICKOFF PRO' will show no significant degradation for 12 months from the date of manufacture.
