

Section 1. Chemical product and company identification

Chinese name : 地毯清潔粉劑
Product name English : SAPUR POWDER
Supplier : Ecolab Limited
15/F, Lu Plaza
2 Wing Yip Street, Kwun Tong, Kowloon, HONG KONG
+852-2372 7768
Emergency telephone number : +852-2372 7768
Product type : Cleaning product
Date of issue : 2012 . 4 . 11

Section 2. Hazards identification

Hazard classification : Not regulated.
Routes of entry : Skin contact, Eye contact, Ingestion
Human health hazards
Inhalation : No known significant effects or critical hazards.
Ingestion : No known significant effects or critical hazards.
Skin : No known significant effects or critical hazards.
Eyes : No known significant effects or critical hazards.
Environmental hazards : No known significant effects or critical hazards.
Fire/explosion hazards : Fine dust clouds may form explosive mixtures with air.

Section 3. Composition/information on ingredients

Within the present knowledge of the supplier, this product does not contain any hazardous ingredients in quantities requiring reporting, in accordance with local regulations.

Section 4. First-aid measures

Inhalation : If inhaled, remove to fresh air.
Ingestion : Do not induce vomiting. Never give anything by mouth to an unconscious person. If irritation persists, get medical attention.
Skin contact : Flush contaminated skin with plenty of water. Wash clothing before reuse.
Eye contact : In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention if irritation occurs.

Section 5. Fire-fighting measures

Extinguishing media

Suitable : Use dry chemical powder.
Not suitable : Do not use water jet.
Hazardous combustion products : No specific data.
Special protective equipment for fire-fighters : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
Materials to avoid : None identified.

Section 6. Accidental release measures

- Personal precautions** : Ventilate area of leak or spill. Do not touch damaged containers or spilled material unless wearing appropriate protective equipment (Section 8). Stop leak if without risk. Do not allow to enter drains or watercourses.
- Environmental precautions** : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Methods for cleaning up** : Use a water rinse for final clean-up.

Section 7. Handling and storage

- Handling** : Wash thoroughly after handling.
- Storage** : Keep out of reach of children. Keep container tightly closed. Keep container in a cool, well-ventilated area.
Store between the following temperatures: -5 and 40°C

Section 8. Exposure controls/personal protection

- Exposure limit values** : Not available.
- Recommended monitoring procedures** : Not applicable.
- Occupational exposure controls** : Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapour or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapour or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.
- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

Personal protection

- Respiratory** : A respirator is not needed under normal and intended conditions of product use.
- Hands** : No protective equipment is needed under normal use conditions.
- Eyes** : No protective equipment is needed under normal use conditions.
- Skin** : No protective equipment is needed under normal use conditions.

Section 9. Physical and chemical properties

- Physical state** : Solid [Powder]
- Colour** : Yellowish
- Odour** : Fragrance-like
- pH** : 5.5 to 6.5 [Conc. (% w/w): 1%]
- Solubility** : Insoluble in the following materials: cold water and hot water.

Section 10. Stability and reactivity

- Stability and reactivity** : The product is stable.
- Conditions to avoid** : Avoid the creation of dust when handling and avoid all possible sources of ignition (spark or flame). Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by earthing and bonding containers and equipment before transferring material. Prevent dust accumulation.
- Materials to avoid** : None identified.
- Hazardous decomposition products** : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Acute toxicity

Inhalation : No known significant effects or critical hazards.
Ingestion : No known significant effects or critical hazards.
Skin : No known significant effects or critical hazards.
Eyes : No known significant effects or critical hazards.

Potential chronic health effects

Chronic effects : No known significant effects or critical hazards.
Carcinogenicity : No known significant effects or critical hazards.
Mutagenicity : No known significant effects or critical hazards.
Teratogenicity : No known significant effects or critical hazards.
Developmental effects : No known significant effects or critical hazards.
Fertility effects : No known significant effects or critical hazards.

Section 12. Ecological information

Other adverse effects : No known significant effects or critical hazards.
Environmental effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Waste disposal : The generation of waste should be avoided or minimised wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Consult your local or regional authorities.

Section 14. Transport information

UN number : Not regulated.
Proper shipping name : -
Package mark : Not regulated.
Packing group : -

Section 15. Regulatory information

Authored with regard to:

- "Classification and Mark for commonly used dangerous chemicals" (GB13690-1992)
- "General rules for preparation of a Chemical Safety Data Sheet" (GB16483-2000)
- "The principle of classification of transport packaging groups of dangerous goods" (GB/T15098-94)
- "Classification and code of dangerous goods" (GB6944-2005)

Section 16. Other information

Date of issue : 2012 . 4 . 11
Prepared by : Regulatory Affairs
Date of previous issue : No previous validation
☑ Indicates information that has changed from previously issued version.

Notice to reader

Section 16. Other information

The above information is believed to be correct with respect to the formula used to manufacture the product in the country of origin. As data, standards, and regulations change, and conditions of use and handling are beyond our control, NO WARRANTY, EXPRESS OR IMPLIED, IS MADE AS TO THE COMPLETENESS OR CONTINUING ACCURACY OF THIS INFORMATION.
