

## SAFETY DATA SHEET

### PREMIUM SEATING CLEANER & CONDITIONER

#### Section: 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : PREMIUM SEATING CLEANER & CONDITIONER

Other means of identification : Not applicable.

Recommended use : Cleaning product

Restrictions on use : Reserved for industrial and professional use.

Product dilution information : Product is sold ready to use.

Company : PT. Ecolab International Indonesia  
Jl. Jababeka XII.B Kav V-37  
Kawasan Industri Jababeka, Cikarang Indonesia 17530  
(62-21) 8983 4891

Emergency telephone number : 007-803-011-0364

Issuing date : 29.08.2019

#### Section: 2. HAZARDS IDENTIFICATION

##### GHS Classification

Serious eye damage/eye irritation : Category 2B

##### GHS Label element

Signal Word : Warning

Hazard Statements : Causes eye irritation.

Precautionary Statements : **Prevention:**  
Wash skin thoroughly after handling.  
**Response:**  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/ attention.

Other hazards : None known.

#### Section: 3. COMPOSITION/INFORMATION ON INGREDIENTS

Pure substance/mixture : Mixture

| Chemical Name                                              | CAS-No.    | Concentration: (%) |
|------------------------------------------------------------|------------|--------------------|
| poly(oxy-1,2-ethanediyl), .alpha.-undecyl-.omega.-hydroxy- | 34398-01-1 | 1 - 5              |
| terpenes and terpenoids, sweet orange-oil                  | 68647-72-3 | 0.1 - 1            |

#### Section: 4. FIRST AID MEASURES

In case of eye contact : Rinse with plenty of water.

In case of skin contact : Rinse with plenty of water.

## SAFETY DATA SHEET

### PREMIUM SEATING CLEANER & CONDITIONER

|                                                             |                                                                                                   |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------|
| If swallowed                                                | : Rinse mouth. Get medical attention if symptoms occur.                                           |
| If inhaled                                                  | : Get medical attention if symptoms occur.                                                        |
| Protection of first-aiders                                  | : If potential for exposure exists refer to Section 8 for specific personal protective equipment. |
| Notes to physician                                          | : Treat symptomatically.                                                                          |
| Most important symptoms and effects, both acute and delayed | : See Section 11 for more detailed information on health effects and symptoms.                    |

#### Section: 5. FIREFIGHTING MEASURES

|                                               |                                                                                                                                                                                 |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                  | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.                                                                       |
| Unsuitable extinguishing media                | : None known.                                                                                                                                                                   |
| Specific hazards during firefighting          | : Not flammable or combustible.                                                                                                                                                 |
| Hazardous combustion products                 | : Decomposition products may include the following materials:<br>Carbon oxides                                                                                                  |
| Special protective equipment for firefighters | : Use personal protective equipment.                                                                                                                                            |
| Specific extinguishing methods                | : Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes. |

#### Section: 6. ACCIDENTAL RELEASE MEASURES

|                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|---------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in sections 7 and 8.                                                                                                                                                                                                                                                                                                                        |
| Environmental precautions                                           | : Do not allow contact with soil, surface or ground water.                                                                                                                                                                                                                                                                                                                                                                                |
| Methods and materials for containment and cleaning up               | : Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Do not flush into surface water or sanitary sewer system. |

#### Section: 7. HANDLING AND STORAGE

|                             |                                                                                                                                                                                                                |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on safe handling     | : Avoid contact with skin and eyes. Wash hands thoroughly after handling. In case of mechanical malfunction, or if in contact with unknown dilution of product, wear full Personal Protective Equipment (PPE). |
| Conditions for safe storage | : Keep out of reach of children. Keep container tightly closed. Store in                                                                                                                                       |

## SAFETY DATA SHEET

### PREMIUM SEATING CLEANER & CONDITIONER

suitable labeled containers.

Storage temperature : 0 °C to 50 °C

#### Section: 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

##### Components with workplace control parameters

Contains no substances with occupational exposure limit values.

Engineering measures : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

##### Personal protective equipment

Eye protection : No special protective equipment required.

Hand protection : No special protective equipment required.

Skin protection : No special protective equipment required.

Respiratory protection : No personal respiratory protective equipment normally required.

Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. Wash face, hands and any exposed skin thoroughly after handling.

#### Section: 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                         |                        |
|-----------------------------------------|------------------------|
| Appearance                              | : Emulsion             |
| Colour                                  | : opaque, white        |
| Odour                                   | : citrus               |
| pH                                      | : 5.16 - 9.55, (100 %) |
| Flash point                             | : Not applicable.      |
| Odour Threshold                         | : no data available    |
| Melting point/freezing point            | : no data available    |
| Initial boiling point and boiling range | : > 100 °C             |
| Evaporation rate                        | : no data available    |
| Flammability (solid, gas)               | : no data available    |
| Upper explosion limit                   | : no data available    |
| Lower explosion limit                   | : no data available    |
| Vapour pressure                         | : no data available    |
| Relative vapour density                 | : no data available    |
| Relative density                        | : 0.9442 - 1.0443      |
| Water solubility                        | : insoluble            |
| Solubility in other solvents            | : no data available    |
| Partition coefficient: n-octanol/water  | : no data available    |

## SAFETY DATA SHEET

### PREMIUM SEATING CLEANER & CONDITIONER

|                           |                                                            |
|---------------------------|------------------------------------------------------------|
| Auto-ignition temperature | : no data available                                        |
| Thermal decomposition     | : no data available                                        |
| Viscosity, kinematic      | : no data available                                        |
| Explosive properties      | : no data available                                        |
| Oxidizing properties      | : The substance or mixture is not classified as oxidizing. |
| Molecular weight          | : no data available                                        |
| VOC                       | : no data available                                        |

#### Section: 10. STABILITY AND REACTIVITY

|                                    |                                                                                              |
|------------------------------------|----------------------------------------------------------------------------------------------|
| Reactivity                         | : No dangerous reaction known under conditions of normal use.                                |
| Chemical stability                 | : Stable under normal conditions.                                                            |
| Possibility of hazardous reactions | : No dangerous reaction known under conditions of normal use.                                |
| Conditions to avoid                | : None known.                                                                                |
| Incompatible materials             | : Acids<br>Bases                                                                             |
| Hazardous decomposition products   | : In case of fire hazardous decomposition products may be produced such as:<br>Carbon oxides |

#### Section: 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure : Inhalation, Eye contact, Skin contact

##### Potential Health Effects

|                  |                                                               |
|------------------|---------------------------------------------------------------|
| Eyes             | : Causes eye irritation.                                      |
| Skin             | : Health injuries are not known or expected under normal use. |
| Ingestion        | : Health injuries are not known or expected under normal use. |
| Inhalation       | : Health injuries are not known or expected under normal use. |
| Chronic Exposure | : Health injuries are not known or expected under normal use. |

##### Experience with human exposure

|              |                                  |
|--------------|----------------------------------|
| Eye contact  | : Redness, Irritation            |
| Skin contact | : No symptoms known or expected. |
| Ingestion    | : No symptoms known or expected. |
| Inhalation   | : No symptoms known or expected. |

##### Toxicity

##### Product

## SAFETY DATA SHEET

### PREMIUM SEATING CLEANER & CONDITIONER

|                                   |                                                                         |
|-----------------------------------|-------------------------------------------------------------------------|
| Acute oral toxicity               | : Acute toxicity estimate : > 5,000 mg/kg                               |
| Acute inhalation toxicity         | : 4 h Acute toxicity estimate : > 10 mg/l<br>Test atmosphere: dust/mist |
| Acute dermal toxicity             | : Acute toxicity estimate : > 5,000 mg/kg                               |
| Skin corrosion/irritation         | : no data available                                                     |
| Serious eye damage/eye irritation | : Mild eye irritation                                                   |
| Respiratory or skin sensitization | : no data available                                                     |
| Carcinogenicity                   | : no data available                                                     |
| Reproductive effects              | : no data available                                                     |
| Germ cell mutagenicity            | : no data available                                                     |
| Teratogenicity                    | : no data available                                                     |
| STOT - single exposure            | : no data available                                                     |
| STOT - repeated exposure          | : no data available                                                     |
| Aspiration toxicity               | : no data available                                                     |

### Section: 12. ECOLOGICAL INFORMATION

#### Ecotoxicity

Environmental Effects : Harmful to aquatic life.

#### Product

Toxicity to fish : no data available

Toxicity to daphnia and other aquatic invertebrates : no data available

Toxicity to algae : no data available

#### Components

Toxicity to fish : poly(oxy-1,2-ethanediyl), .alpha.-undecyl-.omega.-hydroxy-96 h LC50 Pimephales promelas (fathead minnow): 5.5 mg/l

#### Components

Toxicity to daphnia and other aquatic invertebrates : poly(oxy-1,2-ethanediyl), .alpha.-undecyl-.omega.-hydroxy-48 h EC50 Daphnia magna (Water flea): 5.5 mg/l

#### Components

Toxicity to algae : poly(oxy-1,2-ethanediyl), .alpha.-undecyl-.omega.-hydroxy-96 h EC50: 5.5 mg/l

#### Persistence and degradability

Poorly biodegradable

#### Bioaccumulative potential

no data available

#### Mobility in soil

no data available

## SAFETY DATA SHEET

### PREMIUM SEATING CLEANER & CONDITIONER

#### Other adverse effects

no data available

#### Section: 13. DISPOSAL CONSIDERATIONS

- Disposal methods : The product should not be allowed to enter drains, water courses or the soil. Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility.
- Disposal considerations : Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers. Dispose of in accordance with local, state, and federal regulations.
