

DIRECTIONS FOR USE

Clear areas of people and animals before treatment. Areas to be treated should be made as airtight as possible.
Following application the area should be shut up for at least 2 hours to allow PESTIGAS to act.

APPLICATION RATE

The table is intended as a guide to PESTIGAS application rates for use in factories, warehouses, offices, homes and shops.

Application	Insects	Application Rate
Flying Insects	Flies, Moths, Mosquitos and most other Flying Insects	3 second spray (17 grams) per 100 cubic metres. Spray into Air
Crawling Insects	Silverfish, Cockroaches, Ants, and most other Crawling Insects	9 second spray (50 grams) per 100 cubic metres. Use the extended nozzle to spray into insect hiding places
Glasshouse Use	Aphids and Whitefly	12 second spray (70 grams) per 100 cubic metres. Repeat applications will be necessary as new generations emerge. For best results spray in the evening.

Withholding Period: Fruit and Vegetables, 1 day.
Avoid use in direct sunlight.
Use with caution on tender foliage, young growth.

APPROVALS

- 1 Chemical Authorisation Ref 15/4/13/2 Type A.
PESTIGAS is authorised (by MAF Qual) for use in meat, fish, game and game meat premises.
- 2 Dairy Approval. PESTIGAS is approved by MAF Qual 21 November 1989, for use in licensed dairy factories. Category A.

PENETRATING GASEOUS SPRAY FOR THE CONTROL OF MOST FLYING AND CRAWLING INSECTS

Active Ingredients	Propellant
4.0 g/kg pyrethrins 20.0 g/kg piperonyl butoxide in the form of an aerosol	carbon dioxide

Registered pursuant to the ACVM Act 1997, No. P2929
See www.nzfsa.govt.nz/acvm/ for registration conditions

WHAT IS PESTIGAS?

PESTIGAS is a broad spectrum insecticide based on natural pyrethrins in an aerosol formulation propelled by ozone friendly carbon dioxide.

IMPORTANT

- 1. Remove or cover all foodstuffs and food utensils before application.
- 2. Do not use near air vents or ducts in food stores or processing plants while they are in operation.
- 3. Do not use while exposed edible products or packaging material are present.
- 4. Wash food contact surfaces thoroughly before reintroducing edible products.

PRECAUTIONS

- 1. Store PESTIGAS cylinders in a cool place out of reach of direct sunlight with the cylinder valve firmly shut.
- 2. Avoid contact with skin and eyes. Avoid breathing spray or vapour.
- 3. Immediately on entering treated rooms or buildings, fully open windows, doors and ventilators etc, and thoroughly ventilate the area to ensure the atmosphere has been cleared of the insecticide.
- 4. Wash thoroughly with soap and water after use and before eating, drinking or smoking.
- 5. Wash contaminated clothing before re-use.
- 6. Return all cylinders to BOC Limited after use.
- 7. PESTIGAS is toxic to fish. Remove or cover fish tanks before use.
- 8. Avoid contamination of any water supply with chemical or empty containers.
- 9. Additional Product information is available on the Pestigas Material Safty Data Sheet 0007.

STORAGE

When stored appropriately, this product should show no significant degradation for 2 years from the date of manufacture. Contact your supplier for further information about the use of any product that is older than this. See cylinder batch tag.
Store all containers in a cool place out of the sun. Return empty containers to your nearest BOC Limited Gas & Gear branch or gas agent.

All containers are the property of BOC Limited.
