

SAFETY DATA SHEET

ECO-STAR SOFT XTRA

1. Chemical product and company identification

Chinese name : 柔軟劑
Product name : ECO-STAR SOFT XTRA
Other names : None.
Product code : 902652-01
Recommended use and restrictions : Laundry softener
Use only for the purpose on the product label.
Manufacturer/Supplier : Ecolab Limited
Address/Telephone : 6F, No. 13, Sec. 2, Peitou Rd., Peitou Dist.,
Taipei, 112, Taiwan, R.O.C.
(02) 2898-4800
Emergency telephone number : 1-651-222-5352 (in USA)

2. Hazards identification

GHS Classification : Not classified.

GHS label elements

Signal word : No signal word.
Hazard statements : No known significant effects or critical hazards.
Precautionary statements
Prevention : Not applicable.
Response : Not applicable.
Other hazards : None known.

3. Composition/information on ingredients

Nature of material : Mixture
Chemical properties : Laundry softener

Hazardous ingredients	Concentration Range (%)	CAS number
quaternary ammonium compounds, bis(hydrogenated tallow alkyl)dimethyl, chlorides	1 - 5	61789-80-8

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

4. First aid measures

First aid measures

Eye contact : No known effect after eye contact. Rinse with water for a few minutes.
Skin contact : No known effect after skin contact. Rinse with water for a few minutes.
Inhalation : No special measures required. Treat symptomatically.
Ingestion : Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Eye contact : No known significant effects or critical hazards.
Skin contact : No known significant effects or critical hazards.

4. First aid measures

Inhalation : Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

Ingestion : No known significant effects or critical hazards.

Protection of first-aiders : No action shall be taken involving any personal risk or without suitable training.

Notes to physician : In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

See toxicological information (Section 11)

5. Fire-fighting measures

Suitable fire extinguishing media : Use water spray, fog or foam.

Specific hazards arising from the chemical : In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition products : Decomposition products may include the following materials:
carbon dioxide
carbon monoxide
nitrogen oxides
halogenated compounds

Specific fire-fighting methods : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. Accidental release measures

Personal precautions : Use personal protective equipment as required. Do not touch or walk through spilled material.

Environmental precautions : Avoid contact of large amounts of spilled material and runoff with soil and surface waterways.

Methods for cleaning up : Absorb with an inert material. Use a water rinse for final clean-up.

7. Handling and storage

Handling : Wash thoroughly after handling.

Storage : Keep out of reach of children. Keep container tightly closed. Keep container in a cool, well-ventilated area.

Do not store below the following temperature: 0°C

8. Exposure controls/personal protection

Control parameters

Ingredient name	Exposure limits
None.	

Biological indicator : Not available.

Appropriate engineering controls : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Personal protection

Hygiene measures : Wash hands before eating, drinking or smoking.

Eye protection : No protective equipment is needed under normal use conditions.

Hand protection : No protective equipment is needed under normal use conditions.

8. Exposure controls/personal protection

- Skin protection** : No protective equipment is needed under normal use conditions.
Respiratory protection : A respirator is not needed under normal and intended conditions of product use.

9. Physical and chemical properties

Appearance

- Physical state** : Liquid.
Color : Blue [Light]
Odor : Fragrance-like
pH : 6 to 9 (100%)
Melting point : Not available.
Boiling point : Not available.
Flash point : > 100°C
Evaporation rate (butyl acetate = 1) : Not available.
Flammability (solid, gas) : Not available.
Explosion limits : Not available.

Vapor pressure : Not available.
Vapor density : Not available.
Relative density : 0.95 to 1 (Water = 1)
Solubility : Easily soluble in the following materials: cold water and hot water.
Partition coefficient: n-octanol/water : Not available.
Auto-ignition temperature : Not available.

10. Stability and reactivity

- Stability** : The product is stable.
Possibility of hazardous reactions : Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid : No specific data.
Materials to avoid : Not available.
Hazardous decomposition products : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. Toxicological information

- Route of exposure** : Skin contact, Eye contact, Inhalation, Ingestion

Symptoms

- Eye contact** : No specific data.
Skin contact : No specific data.
Inhalation : No specific data.
Ingestion : No specific data.

Acute toxicity

- Eye contact** : No known significant effects or critical hazards.
Skin contact : No known significant effects or critical hazards.
Inhalation : Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
Ingestion : No known significant effects or critical hazards.

Toxicity data

11. Toxicological information

Product/ingredient name	Result	Species	Dose	Exposure
quaternary ammonium compounds, bis(hydrogenated tallow alkyl)dimethyl, chlorides	LD50 Dermal	Rat	>2000 mg/kg	-
	LD50 Oral	Rat	>2000 mg/kg	-
	LC50 Inhalation	Rat	>45 mg/l	4 hours
	Dusts and mists			

Chronic toxicity

Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
Developmental effects	: No known significant effects or critical hazards.
Fertility effects	: No known significant effects or critical hazards.

12. Ecological information

Ecotoxicity : No known significant effects or critical hazards.

Aquatic and terrestrial toxicity

Product/ingredient name	Test	Result	Species	Exposure
quaternary ammonium compounds, bis(hydrogenated tallow alkyl)dimethyl, chlorides	-	Chronic EC50 0.32 mg/l	Daphnia	48 hours

Persistence and degradability

Product/ingredient name	Test	Result	Dose	Inoculum
Not available.				

<u>Product/ingredient name</u>	<u>Aquatic half-life</u>	<u>Photolysis</u>	<u>Biodegradability</u>
Not available.			

Bioaccumulative potential

Product/ingredient name	LogP _{ow}	BCF	Potential
quaternary ammonium compounds, bis(hydrogenated tallow alkyl)dimethyl, chlorides	3.8	-	low

Mobility in soil : Not available.

Other adverse effects : No known significant effects or critical hazards.

13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

14. Transport information

Certain shipping modes or package sizes may have exceptions from the transport regulations. The classification provided may not reflect those exceptions and may not apply to all shipping modes or package sizes.

UN Classification : Not regulated.

Marine pollutant (Yes / No) : Not a pollutant.

Specific precautionary
transport measures and
conditions : -

See shipping documents for specific transportation information.

15. Regulatory information

TCSCA List of toxic chemicals

<u>Listed no.</u>	<u>Series no.</u>	<u>Product name</u>	<u>RQ</u>	<u>Class</u>
Not available.				
List of chemicals for which manufacturing or handling is defined as "work specially hazardous to health" : Not available.				
List of chemicals reputed to be a "threat of imminent danger" : not available				
LSHL Article 21 : Not available.				
Safety, health and environmental regulations specific for the product : Not available.				
References : -Regulation of Labeling and Hazard Communication of Dangerous and Harmful Materials. -Labor Safety and Health Act.				

16. Other information

History

Date of issue : 2012 . 11 . 23

Date of previous issue : 2012 . 11 . 23

Organization that prepared
the SDS : ECOLAB
