

Eurofleur Fly Attractant / Garrards Own

The Jumbo Eco-Bait Bulk Pack x 18 is the most cost-effective way to reuse your existing EnviroSafe Jumbo Fly Trap – over and over again! Once your trap is full, simply empty its contents, rinse and rebait – Easy. Charge the fly trap with warm water and allow it to brew for a few days.

- Uniquely formulated EnviroSafe Eco-Bait
- Highly effective at catching a broad range of flies
- Non-toxic
- Environmentally friendly
- Harmless to pets
- Effective area over 300m²
- Cost-effective

Step 1:
Remove the label and
bait sachet from trap.

Step 2:
Add contents from
sachet into trap.

Step 3:
Fill 1/3 with water and
swirl to mix. Lukewarm
water will speed up the
activation process.

Step 4:
Set the trap outdoors, in a
sunny position sheltered
from wind.

Step 5:
Empty trap every 2-3
weeks, or when it gets full.

Step 6:
Wash trap thoroughly
with warm soapy water
and dry thoroughly. To
re-bait, follow steps 2-5.

GARRARDS

FLY CATCHER

Instructions for use

- 1 Please remove this label from container.
- 2 Empty contents of one sachet (fly attractant) into this container.
- 3 Add 600ml luke-warm water (NOT HOT) and swirl for about one minute.
- 4 Place container in sunlight, out of wind and no more than 45cm from the ground, in the 'fly zone'.
- 5 Attractant will take 24-48 hours before it becomes fully effective.
Note: warmer weather will activate the attractant faster.
- 6 See back of this insert for further instructions.

NET CONTENTS: 1 TRAP & 1 ATTRACTANT

Environmentally friendly, reusable container, pesticide free 🦋 Natural fly attractants used ... flies can't resist! 🦋 Economical to use - just add WARM (NOT HOT) water!

Garrards Fly Catcher

Congratulations on purchasing this Fly Catcher. This system is very economical and environmentally friendly, as you can re-use this container again and again ...

This catcher works because of the simple and natural fly attractants. Flies go crazy for these! Our special formulation will attract house flies, blow flies and other species of flying insects making it ideal in areas with big fly problems!

Re-use and Maintenance of Garrards Fly Catcher

To get the best value from this system, we recommend you re-use this container. It is also important to maintain your Fly Catcher.

- 🦋 Check level of water-top up regularly and do not allow it to dry out.
- 🦋 Discard dead flies as necessary, or at least every 3 weeks and recharge with fresh attractant.
- 🦋 Use only replacement attractant sachets provided with the Garrards Fly Catcher.
- 🦋 For optimum hygiene, please wash hands after use.

Note: Not to be used for any purpose or in any manner contrary to this label unless authorised.

CAUTION: KEEP OUT OF REACH OF CHILDREN

FLY FACTS

- 🦋 One fly can carry 6 million bacteria on the outside and even more than 25 million bacteria on the inside.
- 🦋 Flies can have 'population explosions' during periods of hot, humid conditions.
- 🦋 The adult fly can live from 2-6 weeks and can begin to lay eggs within 2 days of maturity.
- 🦋 Female houseflies can lay about 100 eggs per batch and up to 12-14 batches during its lifespan.
- 🦋 Flies like heat, light and low wind.

Environmentally friendly, reusable container, pesticide free 🦋 Natural fly attractants used ... flies can't resist! 🦋 Economical to use - just add WARM (NOT HOT) water!
