

Technical Data Sheet

Product: Xlure RTU Combo 4

Code: CAT-NLURE-COMBO4

Product Function: Monitoring pest populations.

Description: A ready-to-use prebaited diamond trap containing nature identical pheromones for attracting stored product insects for monitoring purposes.

Active Ingredients: Insect pheromones for Plodia, Ephestia, Trogoderma and Lasioderma spp.

Packaging: 6 pre-baited diamond traps with hanger.

Longevity: 6 - 8 weeks.

Trap Application:

Open the aluminium foil bag and remove the diamond trap. Pinch the sides together and fold in the ends to create trap sides. Thread the hanger through the top of the trap and suspend in suitable location.

When to Use:

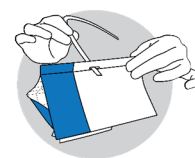

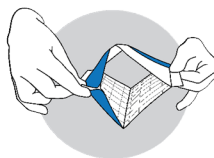

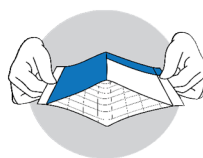

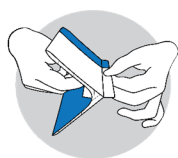

This trap can be used for monitoring purposes before the pest becomes a problem or used to combat pest populations.

Trap Density:

Traps should be placed in a grid formation approximately 10-20m apart. Placing traps at shorter intervals may help to pinpoint an infestation. Always take into consideration the site of use e.g. structure of building and air flow.

Replacement:

Replace the trap every 6 - 8 weeks and/or once full with insects and dispose away from monitoring area.

Storage

Store in a cool, dry place out of direct sunlight.

Precautions

- Do not eat or drink while handling this product.
- Wear gloves when handling any pheromone lures.
