

Safety Data Sheet

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II (453/2010) - Europe

Issue 1
Revision 21 September 2016

Thistle AR90 Concentrated Traffic Wax Remover

1 Identification of the substance/mixture and of the company undertaking

1.1 Product Identifier	Product Name	Thistle AR90
	Product Codes	700114
1.2 Relevant identified uses of the substance or mixture and uses advised against		
Identified Uses of the substance/mixture	Vehicle Cleaner. Professional Use.	
Uses advised against	None Identified	
1.3 Details of the supplier of the safety data sheet		
Manufacturer/Distributor	Ecolab Gulf FZE P.O. Box 17063 Jebel Ali Free Zone Area, Near Container Terminal 3 - North Zone, Dubai, UAE	Customer Services 00971 4 8014444 Reception phone numbers 00971 48146800 00971 4 8014000
1.4 Emergency Telephone Number		
	+32-(0)3-575-5555	

2 Hazards Identification

2.1 Classification of Substance or mixture

Product Definition Mixture

Classification according to Regulation (EC) No. 1272/2008

Physical Hazards None
Human Health Hazards Skin Corr 1 – H314
Environmental Hazards None

2.2 Label Elements

Label Elements (In Accordance With (EC) No. 1272/2008)

Pictogram(s)

Signal Word

Danger

Contains Monoethanolamine and Alcohols, C12-15, ethoxylated

Hazard Statements	H314	Causes severe skin burns and eye damage.
Precautionary statements	Prevention	P280 Wear protective gloves, protective clothing, and eye or face protection
	Response	P303 + P361 + P353 IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310 Immediately call a POISON CENTRE or doctor

2.3 Other hazards

Other hazards which do not result in classification Not applicable

3 Composition/Information on Ingredients

3.2 Mixtures

Product/Ingredient Name	Identifiers Index No/CAS/EC No	%	Classification Regulation (EC) No. 1272/2008 [CLP]	Type
-------------------------	-----------------------------------	---	---	------

Safety Data Sheet

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section

- Type
- 1 Substance classified with a health or environmental hazard
 - 2 Substance with a workplace exposure limit
 - 3 Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII
 - 4 Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

Occupational exposure limits, if available, are listed in Section 8.

4 First aid measures

4.1 Description of first aid measures

Eye Contact	Rinse immediately with copious amounts of water for at least 10 minutes, holding the eyelids open. If irritation occurs obtain medical advice.
Inhalation	Remove from source of exposure. Seek medical advice if symptoms persist. Exposure by inhalation is unlikely in normal use.
Skin Contact	Flush contaminated area with running water for 10 minutes, remove any contaminated clothing and laundry before re-use. If irritation persists or there is any sign of skin damage seek medical advice.
Ingestion	If conscious, remove product from mouth, give casualty a small quantity of water or milk to drink and seek medical advice. Do not induce vomiting
Protection of First Aider	Wear PPE if appropriate (Refer to section 8.2)

4.2 Most important symptoms and effects, both acute and delayed

Symptoms

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11. Severe burns and irritation are most likely symptoms when there is exposure to skin, eyes and respiratory system. Not considered to cause sensitization. Further important symptoms and effects are so far not known.

4.3 Indication of any immediate medical attention and special treatment needed

Treatment

Treat according to symptoms (decontamination, vital functions). Toxicological information on components, where available, is given in section 11.

5 Fire fighting measures

5.1 Extinguishing media

Extinguishing media	Extinguish with foam, carbon dioxide, dry powder or water fog
Unsuitable extinguishing media	None known

5.2 Special hazards arising from the substance or mixture

Hazards from the substance or mixture	In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous combustion products	During fire toxic gases, CO and CO ₂ are formed

5.3 Advice for fire-fighters

Special precautions for fire-fighters	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Issue 1

Revision 21 September 2016

Thistle AR 90

Special protective equipment for fire-fighters	Fire-fighters should wear self-contained breathing apparatus and suitable personal protective equipment as appropriate to the surrounding fire.
6 Accidental release measures	
6.1 Personal precautions, protective equipment and emergency procedures	
Do not breathe vapour/spray/mist. Avoid contact with the skin, eyes and clothing. Use personal protective clothing. Information regarding personal protective measures see, section 8.	
6.2 Environmental precautions	
Do not discharge into drains/surface waters/groundwater. Contain contaminated water/fire fighting water.	
6.3 Methods and material for containment and cleaning up	
Small spill:	Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container.
Large spill	Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. dry sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13).
6.4 Reference to other sections	
See Section 1 for emergency contact information.	
See Section 8 for information on appropriate personal protective equipment.	
See Section 13 for additional waste treatment information.	
7 Handling and storage	
7.1 Precautions for safe handling	
Keep container tightly closed. Provide good ventilation of working area (local exhaust ventilation if necessary). Avoid contact with the skin, eyes and clothing. Contaminated surfaces may be extremely slippery. Clean up spillages. Do not allow to dry. Do not eat, drink or smoke in area where material is used or stored.	
7.2 Conditions for safe storage, including any incompatibilities	
Protect against heat. Store in original labelled containers. Keep container tightly closed, upright and in a cool place. Keep away from acids. Protect from freezing.	
7.3 Specific end use(s)	
Recommendations	Not specific advice available.
Industrial sector specific solutions	Not applicable.
8 Exposure controls/personal protection	
8.1 Control parameters	
Occupational exposure limits	
Product/ingredient name	Exposure limit values
Monoethanolamine	WEL (Skin Contact) TWA - 8 hrs 1ppm 2.5 mgm ⁻³ STEL – 15 min 8 hrs 1ppm 2.5 mgm ⁻³
Butylglycol	WEL TWA (8hr) 25ppm STEL (15min) 50ppm
Derived effect levels	
No DNELs available for the mixture	
Predicted effect concentrations	
No PNECs available for the mixture.	
8.2 Exposure controls	
Process conditions	Provide eye-wash stations
Engineering Measures	Where possible this product should be used via a dispenser to avoid splashes and contact with the skin. Wear appropriate PPE if contact is possible when changing flasks. If airborne vapours or mists are generated provide adequate general and local exhaust ventilation to keep exposure below any statutory limits.
Personal Protective Equipment	
Respiratory protection:	Not needed in normal use. If vapour/aerosol is created use particle filter with medium efficiency for solid and liquid particles (e.g. EN 143 or 14387)
Hand protection	Wear chemical resistant protective gloves (EN 374) Review condition of gloves when in use, especially for wear, cuts and breakthrough after prolonged contact.
Eye protection	Not needed in normal use. Wear tightly fitting safety goggles (splash goggles) (e.g. EN 166)

Safety Data Sheet

Page 4 of 6

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II (453/2010) - Europe

Issue 1

Revision 21 September 2016

Thistle AR 90

Body protection:

if splashing is likely to occur

Wear chemical resistant clothing and boots if exposure/splashing may occur. Other body protection may be suitable depending on activity and possible exposure, e.g. apron, chemical-protection suit (meeting EN 14605).

General safety and hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing.

9 Physical & chemical properties

9.1 Information on basic physical and chemical properties

Physical state

Colour

Odour

Odour threshold

pH value 20 Deg C

Melting point/Freezing point

Initial boiling point and boiling range

Flash point

Evaporation rate

Flammability (solid, gas)

Burning time

Burning rate

Upper/lower flammability or explosive limits

Vapour pressure

Relative density

Solubility(ies)

Partition coefficient: n-octanol/water

Auto ignition temperature

Decomposition temperature

Viscosity

Explosive properties

Oxidising properties

9.2 Other Information

No further relevant information available

10 Stability and Reactivity

10.1 Reactivity

No specific test data related to reactivity available for this product or its ingredients.

10.2 Chemical Stability

Stable mixture under normal conditions or storage and use.

10.3 Possibility of hazardous reactions

Hazardous reactions will not occur in normal storage conditions.

10.4 Conditions to avoid

None known in normal storage conditions.

10.5 Incompatible materials

Will react with acids.

10.6 Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11 Toxicology

11.1 Information on toxicological effects

Toxicological data for this mixture is not available as animal toxicity studies have not been carried out. Toxicological data for the raw materials is, where provided by the manufacturer, available on request.

12 Ecological information

12.1 Toxicity

Ecological Toxicity data for this mixture is not available as ecological toxicity studies have not been carried out. Ecological Toxicity data for the raw materials is, where provided by the manufacturer, available on request.

12.2 Persistence and degradability

Conclusion/Summary

Any surfactants contained in the product are biodegradable according to the requirements of the detergent regulation 648/2004/EC

12.3 Bioaccumulative potential

Safety Data Sheet

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II (453/2010) - Europe

Issue 1

Revision 21 September 2016

Thistle AR 90

Conclusion/Summary	Not determined for the mixture.			
12.4 Mobility in soil				
Soil/water partition coefficient (KOC)	Not determined for the mixture.			
Mobility	Not determined for the mixture.			
12.5 Results of PBT and vPvB assessment				
PBT	Not applicable.			
vPvB	Not applicable.			
12.6 Other adverse effects	No known significant effects or critical hazards.			
13: Disposal considerations				
13.1 Waste treatment methods				
Waste from residues / unused products	Dispose of in compliance with all Federal, state, provincial, and local laws and regulations. EWC Code20 01 29* - detergents containing dangerous substances			
Empty packaging recommendation:	Dispose of observing national or local regulations. (Can be cleaned with water) EWC Code 20 01 39			
14: Transport information				
	ADR/RID	ADN/ADNR	IMDG	IATA
14.1 UN number			UN 3266	
14.2 UN proper shipping name	Corrosive liquid, basic, inorganic, n.o.s. (monoethanolamine)			
14.3 Transport hazard class(es):				
14.4 Packing group	III			
14.5 Environmental hazards	None			
14.6 Special precautions for user	None known			
14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBCCode	Not Applicable			
Other relevant information (ADR)				
15: Regulatory information				
15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture				
Ingredients according to EC Detergents Regulation 648/2004				
<5%	Anionic Surfactants NTA (nitriloacetic acid) and salts			
15.2 Chemical safety assessment				
A chemical safety assessment has not been carried out on the mixture				
16: Other information				
The information in this document is based on our best present knowledge. However, it does not constitute a guarantee for any specific product features and does not establish a legally binding contract				
Reason for revision:	Overall design adjusted in accordance with Regulation (EC) No 1907/2006, Annex II * Indicates section(s) where changes have been made			
Full text of the H and EUH phrases mentioned in section 3				
H314	Causes severe skin burns and eye damage			
H351	Suspected of causing cancer			
H302	Harmful if swallowed			
H312	Harmful in contact with skin			
H332	Harmful if inhaled			
H319	Causes serious eye irritation			
H315	Causes skin irritation			
H400	Very toxic to aquatic life			
H412	Harmful to aquatic life with long lasting effects
