

## SAFETY DATA SHEET

### KAY STAINLESS CLEANER & POLISH

#### Section: 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : KAY STAINLESS CLEANER & POLISH

Other means of identification : Not applicable.

Recommended use : Cleaning product

Restrictions on use : Reserved for industrial and professional use.

Product dilution information : Product is sold ready to use.

Company : Ecolab Philippines, Inc.  
113 North Main Ave.  
Laguna Technopark, Inc.  
Binan City, Laguna Philippines 4024  
Tel: +632 8548-9500 Fax: +632 8548-9501  
customer.service.ph@ecolab.com

Emergency telephone number : +632-85489503

Issuing date : 21.11.2019

#### Section: 2. HAZARDS IDENTIFICATION

##### GHS Classification

Not a hazardous substance or mixture.

##### GHS Label element

Precautionary Statements : **Prevention:**  
Wash hands thoroughly after handling.  
**Response:**  
Get medical advice/ attention if you feel unwell.  
**Storage:**  
Store in accordance with local regulations.

Other hazards : None known.

#### Section: 3. COMPOSITION/INFORMATION ON INGREDIENTS

Pure substance/mixture : Mixture

| Chemical Name                                          | CAS-No.    | Concentration: (%) |
|--------------------------------------------------------|------------|--------------------|
| distillates (petroleum), hydrotreated heavy paraffinic | 64742-54-7 | 30 - 60            |
| triethanolamine                                        | 102-71-6   | 0.1 - 1            |

#### Section: 4. FIRST AID MEASURES

In case of eye contact : Rinse with plenty of water.

In case of skin contact : Rinse with plenty of water.

If swallowed : Rinse mouth. Get medical attention if symptoms occur.

If inhaled : Get medical attention if symptoms occur.

## SAFETY DATA SHEET

### KAY STAINLESS CLEANER & POLISH

|                                                             |                                                                                |
|-------------------------------------------------------------|--------------------------------------------------------------------------------|
| Protection of first-aiders                                  | : No special precautions are necessary for first aid responders.               |
| Notes to physician                                          | : Treat symptomatically.                                                       |
| Most important symptoms and effects, both acute and delayed | : See Section 11 for more detailed information on health effects and symptoms. |

#### Section: 5. FIREFIGHTING MEASURES

|                                               |                                                                                                                                                                                 |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                  | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.                                                                       |
| Unsuitable extinguishing media                | : None known.                                                                                                                                                                   |
| Specific hazards during firefighting          | : Not flammable or combustible.                                                                                                                                                 |
| Hazardous combustion products                 | : Decomposition products may include the following materials:<br>Carbon oxides<br>nitrogen oxides (NOx)                                                                         |
| Special protective equipment for firefighters | : Use personal protective equipment.                                                                                                                                            |
| Specific extinguishing methods                | : Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes. |

#### Section: 6. ACCIDENTAL RELEASE MEASURES

|                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in sections 7 and 8.                                                                                                                                                                                                                                                                                            |
| Environmental precautions                                           | : Do not allow contact with soil, surface or ground water.                                                                                                                                                                                                                                                                                                                                                    |
| Methods and materials for containment and cleaning up               | : Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Flush away traces with water. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. |

#### Section: 7. HANDLING AND STORAGE

|                             |                                                                                                                                                                              |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on safe handling     | : Wash hands thoroughly after handling. In case of mechanical malfunction, or if in contact with unknown dilution of product, wear full Personal Protective Equipment (PPE). |
| Conditions for safe storage | : Keep out of reach of children. Keep container tightly closed. Store in suitable labeled containers.                                                                        |
| Storage temperature         | : 0 °C to 50 °C                                                                                                                                                              |

## SAFETY DATA SHEET

### KAY STAINLESS CLEANER & POLISH

#### Section: 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

##### Components with workplace control parameters

| Components                                             | CAS-No.    | Form of exposure | Permissible concentration | Basis  |
|--------------------------------------------------------|------------|------------------|---------------------------|--------|
| distillates (petroleum), hydrotreated heavy paraffinic | 64742-54-7 | TWA (Mist)       | 5 mg/m <sup>3</sup>       | PH OEL |

Engineering measures : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

##### Personal protective equipment

Eye protection : No special protective equipment required.

Hand protection : No special protective equipment required.

Skin protection : No special protective equipment required.

Respiratory protection : No personal respiratory protective equipment normally required.

Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. Wash face, hands and any exposed skin thoroughly after handling.

#### Section: 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                         |                      |
|-----------------------------------------|----------------------|
| Appearance                              | : Emulsion           |
| Colour                                  | : opaque, light blue |
| Odour                                   | : odourless          |
| pH                                      | : 9.2 - 9.6          |
| Flash point                             | : no data available  |
| Odour Threshold                         | : no data available  |
| Melting point/freezing point            | : no data available  |
| Initial boiling point and boiling range | : no data available  |
| Evaporation rate                        | : no data available  |
| Flammability (solid, gas)               | : Not applicable.    |
| Upper explosion limit                   | : no data available  |
| Lower explosion limit                   | : no data available  |
| Vapour pressure                         | : no data available  |
| Relative vapour density                 | : no data available  |
| Relative density                        | : 0.95 - 0.96        |
| Water solubility                        | : soluble            |
| Solubility in other solvents            | : no data available  |
| Partition coefficient: n-octanol/water  | : no data available  |

## SAFETY DATA SHEET

### KAY STAINLESS CLEANER & POLISH

|                           |                                                            |
|---------------------------|------------------------------------------------------------|
| Auto-ignition temperature | : no data available                                        |
| Thermal decomposition     | : no data available                                        |
| Viscosity, kinematic      | : no data available                                        |
| Explosive properties      | : no data available                                        |
| Oxidizing properties      | : The substance or mixture is not classified as oxidizing. |
| Molecular weight          | : no data available                                        |
| VOC                       | : no data available                                        |

#### Section: 10. STABILITY AND REACTIVITY

|                                    |                                                                                                                       |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | : No dangerous reaction known under conditions of normal use.                                                         |
| Chemical stability                 | : Stable under normal conditions.                                                                                     |
| Possibility of hazardous reactions | : No dangerous reaction known under conditions of normal use.                                                         |
| Conditions to avoid                | : None known.                                                                                                         |
| Incompatible materials             | : None known.                                                                                                         |
| Hazardous decomposition products   | : In case of fire hazardous decomposition products may be produced such as:<br>Carbon oxides<br>nitrogen oxides (NOx) |

#### Section: 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure : Inhalation, Eye contact, Skin contact

##### Potential Health Effects

|                  |                                                               |
|------------------|---------------------------------------------------------------|
| Eyes             | : Health injuries are not known or expected under normal use. |
| Skin             | : Health injuries are not known or expected under normal use. |
| Ingestion        | : Health injuries are not known or expected under normal use. |
| Inhalation       | : Health injuries are not known or expected under normal use. |
| Chronic Exposure | : Health injuries are not known or expected under normal use. |

##### Experience with human exposure

|              |                                  |
|--------------|----------------------------------|
| Eye contact  | : No symptoms known or expected. |
| Skin contact | : No symptoms known or expected. |
| Ingestion    | : No symptoms known or expected. |
| Inhalation   | : No symptoms known or expected. |

### Section: 12. ECOLOGICAL INFORMATION

#### Ecotoxicity

|                       |                                                      |
|-----------------------|------------------------------------------------------|
| Environmental Effects | : Harmful to aquatic life with long lasting effects. |
|-----------------------|------------------------------------------------------|

#### Product

|                                                     |                     |
|-----------------------------------------------------|---------------------|
| Toxicity to fish                                    | : no data available |
| Toxicity to daphnia and other aquatic invertebrates | : no data available |
| Toxicity to algae                                   | : no data available |

#### Components

|                  |                                                                                                                                         |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Toxicity to fish | : distillates (petroleum), hydrotreated heavy paraffinic<br>96 h LC50 Fish: > 100 mg/l<br><br>triethanolamine<br>96 h LC50: 11,800 mg/l |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------|

#### Components

## SAFETY DATA SHEET

### KAY STAINLESS CLEANER & POLISH

Toxicity to daphnia and other aquatic invertebrates : triethanolamine  
48 h EC50: 609.88 mg/l

#### Components

Toxicity to algae : triethanolamine  
72 h EC50: > 100 mg/l

#### Persistence and degradability

Poorly biodegradable

#### Bioaccumulative potential

no data available

#### Mobility in soil

no data available

#### Other adverse effects

no data available

### Section: 13. DISPOSAL CONSIDERATIONS

Disposal methods : The product should not be allowed to enter drains, water courses or the soil. Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility.

Disposal considerations : Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers. Dispose of in accordance with local, state, and federal regulations.

### Section: 14. TRANSPORT INFORMATION

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

#### Land transport

Not dangerous goods

#### Sea transport (IMDG/IMO)

Not dangerous goods

### Section: 15. REGULATORY INFORMATION

The components of this product are reported in the following inventories:

**Switzerland. New notified substances and declared preparations :**  
not determined

**United States TSCA Inventory :**  
All substances listed as active on the TSCA inventory

**Canadian Domestic Substances List (DSL) :**  
All components of this product are on the Canadian DSL.

## SAFETY DATA SHEET

### KAY STAINLESS CLEANER & POLISH

**Australia. Industrial Chemical (Notification and Assessment) Act :**

On the inventory, or in compliance with the inventory

**New Zealand. Inventory of Chemicals (NZIoC), as published by ERMA New Zealand :**

not determined

**Japan. ENCS - Existing and New Chemical Substances Inventory :**

On the inventory, or in compliance with the inventory

**Korea. Korean Existing Chemicals Inventory (KECI) :**

On the inventory, or in compliance with the inventory

**Philippines Inventory of Chemicals and Chemical Substances (PICCS) :**

On the inventory, or in compliance with the inventory

**China Inventory of Existing Chemical Substances :**

On the inventory, or in compliance with the inventory

**Taiwan Chemical Substance Inventory :**

On the inventory, or in compliance with the inventory

### Section: 16. OTHER INFORMATION

Sources of key data used to compile the Safety Data Sheet

Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

IARC: (International Agency for Research on Cancer)

US. National Toxicology Program (NTP) Report on Carcinogens

ECHA List of Publishable Substances Registered

EU HPVCs (High Production Volume Chemicals)

Issuing date : 21.11.2019

Date of first issue : 18.09.2009

Version : 1.1

Prepared by : Regulatory Affairs

REVISED INFORMATION: Significant changes to regulatory or health information for this revision is indicated by a bar in the left-hand margin of the SDS.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
