

## SAFETY DATA SHEET

### SUPERIOR BARRIER DIP

#### SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : SUPERIOR BARRIER DIP

Other means of identification : Not applicable

Recommended use : Teat dip

Restrictions on use : Reserved for industrial and professional use.

Product dilution information : Product is sold ready to use.

Company : Aspen Veterinary Resources  
3155 Heartland Drive  
Liberty, Missouri USA 64068  
1-800-203-5620

Emergency health information : 1-800-424-9300

Issuing date : 12/31/2019

#### SECTION 2. HAZARDS IDENTIFICATION

##### GHS Classification

Eye irritation : Category 2B

##### GHS label elements

Signal Word : Warning

Hazard Statements : Causes eye irritation.

Precautionary Statements : **Prevention:**  
Wash skin thoroughly after handling.  
**Response:**  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/ attention.

Other hazards : None known.

#### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Pure substance/mixture : Mixture

| Chemical name                                                  | CAS-No.   | Concentration (%) |
|----------------------------------------------------------------|-----------|-------------------|
| poly(oxy-1,2-ethanediyl), .alpha.-isotridecyl-.omega.-hydroxy- | 9043-30-5 | 5 - 10            |
| Propylene glycol                                               | 57-55-6   | 5 - 10            |
| iodine                                                         | 7553-56-2 | 1 - 5             |

#### SECTION 4. FIRST AID MEASURES

In case of eye contact : Rinse with plenty of water.

In case of skin contact : Rinse with water.

## SAFETY DATA SHEET

### SUPERIOR BARRIER DIP

|                                                             |                                                                                |
|-------------------------------------------------------------|--------------------------------------------------------------------------------|
| If swallowed                                                | : Rinse mouth. Get medical attention if symptoms occur.                        |
| If inhaled                                                  | : Get medical attention if symptoms occur.                                     |
| Protection of first-aiders                                  | : No special precautions are necessary for first aid responders.               |
| Notes to physician                                          | : Treat symptomatically.                                                       |
| Most important symptoms and effects, both acute and delayed | : See Section 11 for more detailed information on health effects and symptoms. |

### SECTION 5. FIRE-FIGHTING MEASURES

|                                                |                                                                                                                                                                                 |
|------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                   | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.                                                                       |
| Unsuitable extinguishing media                 | : None known.                                                                                                                                                                   |
| Specific hazards during fire fighting          | : Not flammable or combustible.                                                                                                                                                 |
| Hazardous combustion products                  | : Decomposition products may include the following materials:<br>Carbon oxides                                                                                                  |
| Special protective equipment for fire-fighters | : Use personal protective equipment.                                                                                                                                            |
| Specific extinguishing methods                 | : Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes. |

### SECTION 6. ACCIDENTAL RELEASE MEASURES

|                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : Refer to protective measures listed in sections 7 and 8.                                                                                                                                                                                                                                                                                                                                                    |
| Environmental precautions                                           | : Do not allow contact with soil, surface or ground water.                                                                                                                                                                                                                                                                                                                                                    |
| Methods and materials for containment and cleaning up               | : Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Flush away traces with water. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. |

### SECTION 7. HANDLING AND STORAGE

|                             |                                                                                                                                                                              |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on safe handling     | : Wash hands thoroughly after handling. In case of mechanical malfunction, or if in contact with unknown dilution of product, wear full Personal Protective Equipment (PPE). |
| Conditions for safe storage | : Keep out of reach of children. Store in suitable labeled containers.                                                                                                       |
| Storage temperature         | : 0 °C to 50 °C                                                                                                                                                              |

## SAFETY DATA SHEET

### SUPERIOR BARRIER DIP

#### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

##### Ingredients with workplace control parameters

| Components       | CAS-No.   | Form of exposure                      | Permissible concentration      | Basis     |
|------------------|-----------|---------------------------------------|--------------------------------|-----------|
| Propylene glycol | 57-55-6   | TWA                                   | 10 mg/m <sup>3</sup>           | AIHA WEEL |
| iodine           | 7553-56-2 | TWA<br>(Inhalable fraction and vapor) | 0.01 ppm                       | ACGIH     |
|                  |           | Ceiling                               | 0.1 ppm<br>1 mg/m <sup>3</sup> | NIOSH REL |
|                  |           | C                                     | 0.1 ppm<br>1 mg/m <sup>3</sup> | OSHA Z1   |
|                  |           | STEL<br>(Vapour.)                     | 0.1 ppm                        | ACGIH     |

Engineering measures : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

##### Personal protective equipment

Eye protection : No special protective equipment required.

Hand protection : No special protective equipment required.

Skin protection : No special protective equipment required.

Respiratory protection : No personal respiratory protective equipment normally required.

Hygiene measures : Handle in accordance with good industrial hygiene and safety practice.

#### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                         |                                                |
|-----------------------------------------|------------------------------------------------|
| Appearance                              | : viscous                                      |
| Color                                   | : translucent, dark brown                      |
| Odor                                    | : iodine                                       |
| pH                                      | : 4.1 - 5.1, (100 %)                           |
| Flash point                             | : Not applicable, Does not sustain combustion. |
| Odor Threshold                          | : No data available                            |
| Melting point/freezing point            | : No data available                            |
| Initial boiling point and boiling range | : 100 °C                                       |
| Evaporation rate                        | : No data available                            |
| Flammability (solid, gas)               | : Not applicable                               |
| Upper explosion limit                   | : No data available                            |
| Lower explosion limit                   | : No data available                            |
| Vapor pressure                          | : No data available                            |

## SAFETY DATA SHEET

### SUPERIOR BARRIER DIP

|                                        |                                    |
|----------------------------------------|------------------------------------|
| Relative vapor density                 | : No data available                |
| Relative density                       | : 1.041                            |
| Water solubility                       | : soluble                          |
| Solubility in other solvents           | : No data available                |
| Partition coefficient: n-octanol/water | : No data available                |
| Autoignition temperature               | : No data available                |
| Thermal decomposition                  | : No data available                |
| Viscosity, kinematic                   | : 1.441 mm <sup>2</sup> /s (40 °C) |
| Explosive properties                   | : No data available                |
| Oxidizing properties                   | : No data available                |
| Molecular weight                       | : No data available                |
| VOC                                    | : No data available                |

### SECTION 10. STABILITY AND REACTIVITY

|                                    |                                                                                              |
|------------------------------------|----------------------------------------------------------------------------------------------|
| Reactivity                         | : No dangerous reaction known under conditions of normal use.                                |
| Chemical stability                 | : Stable under normal conditions.                                                            |
| Possibility of hazardous reactions | : No dangerous reaction known under conditions of normal use.                                |
| Conditions to avoid                | : None known.                                                                                |
| Incompatible materials             | : Oxidizing agents                                                                           |
| Hazardous decomposition products   | : In case of fire hazardous decomposition products may be produced such as:<br>Carbon oxides |

### SECTION 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure : Inhalation, Eye contact, Skin contact

#### Potential Health Effects

|                  |                                                               |
|------------------|---------------------------------------------------------------|
| Eyes             | : Causes eye irritation.                                      |
| Skin             | : Health injuries are not known or expected under normal use. |
| Ingestion        | : Health injuries are not known or expected under normal use. |
| Inhalation       | : Health injuries are not known or expected under normal use. |
| Chronic Exposure | : Health injuries are not known or expected under normal use. |

#### Experience with human exposure

|             |                       |
|-------------|-----------------------|
| Eye contact | : Redness, Irritation |
|-------------|-----------------------|

## SAFETY DATA SHEET

### SUPERIOR BARRIER DIP

Skin contact : No symptoms known or expected.

Ingestion : No symptoms known or expected.

Inhalation : No symptoms known or expected.

#### Toxicity

##### Product

Acute oral toxicity : Acute toxicity estimate : > 5,000 mg/kg

Acute inhalation toxicity : 4 h Acute toxicity estimate : > 200 mg/l  
Test atmosphere: dust/mist

Acute dermal toxicity : Acute toxicity estimate : > 5,000 mg/kg

Skin corrosion/irritation : No data available

Serious eye damage/eye irritation : No data available

Respiratory or skin sensitization : No data available

Carcinogenicity : No data available

Reproductive effects : No data available

Germ cell mutagenicity : No data available

Teratogenicity : No data available

STOT-single exposure : No data available

STOT-repeated exposure : No data available

Aspiration toxicity : No data available

### SECTION 12. ECOLOGICAL INFORMATION

#### Ecotoxicity

Environmental Effects : Toxic to aquatic life.

##### Product

Toxicity to fish : No data available

Toxicity to daphnia and other aquatic invertebrates : No data available

Toxicity to algae : No data available

##### Components

Toxicity to fish : poly(oxy-1,2-ethanediyl), .alpha.-isotridecyl-.omega.-hydroxy-  
96 h LC50 Fish: 0.25 mg/l

Propylene glycol  
96 h LC50: > 10,000 mg/l

##### Components

Toxicity to daphnia and other aquatic invertebrates : Propylene glycol  
48 h EC50: 18,340 mg/l

##### Components

Toxicity to algae : Propylene glycol

## SAFETY DATA SHEET

### SUPERIOR BARRIER DIP

96 h EC50: 19,000 mg/l

iodine  
72 h EC50: 0.13 mg/l

#### Persistence and degradability

Biodegradable

#### Bioaccumulative potential

No data available

#### Mobility in soil

No data available

#### Other adverse effects

No data available

### SECTION 13. DISPOSAL CONSIDERATIONS

- Disposal methods : Do not contaminate ponds, waterways or ditches with chemical or used container. Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility.
- Disposal considerations : Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers. Dispose of in accordance with local, state, and federal regulations.

### SECTION 14. TRANSPORT INFORMATION

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

#### Land transport (DOT)

Not dangerous goods

#### Sea transport (IMDG/IMO)

Not dangerous goods

### SECTION 15. REGULATORY INFORMATION

#### EPCRA - Emergency Planning and Community Right-to-Know

##### CERCLA Reportable Quantity
