

## SAFETY DATA SHEET

### EXPERIMENTAL CREME CLEANSER

#### SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : EXPERIMENTAL CREME CLEANSER

Other means of identification : Not applicable

Recommended use : Surface cleaner

Restrictions on use : Reserved for industrial and professional use.

Product dilution information : Product is sold ready to use.

Company : Ecolab Inc.  
1 Ecolab Place  
St. Paul, Minnesota USA 55102  
1-800-352-5326

Emergency health information : 1-800-328-0026 (US/Canada), 1-651-222-5352 (outside US)

Issuing date : 08/25/2021

#### SECTION 2. HAZARDS IDENTIFICATION

##### GHS Classification

Not a hazardous substance or mixture.

##### GHS label elements

Precautionary Statements : **Prevention:**  
Wash hands thoroughly after handling.  
**Response:**  
Get medical advice/ attention if you feel unwell.  
**Storage:**  
Store in accordance with local regulations.

Other hazards : None known.

#### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Pure substance/mixture : Mixture

| Chemical name               | CAS-No.   | Concentration (%) |
|-----------------------------|-----------|-------------------|
| Tetrasodium EDTA            | 64-02-8   | 1 - 5             |
| Anatase (TiO <sub>2</sub> ) | 1317-70-0 | 0.1 - 1           |

#### SECTION 4. FIRST AID MEASURES

In case of eye contact : Rinse with plenty of water.

In case of skin contact : Rinse with plenty of water.

If swallowed : Rinse mouth. Get medical attention if symptoms occur.

If inhaled : Get medical attention if symptoms occur.

Protection of first-aiders : No special precautions are necessary for first aid responders.

## SAFETY DATA SHEET

### EXPERIMENTAL CREME CLEANSER

|                                                             |                                                                                |
|-------------------------------------------------------------|--------------------------------------------------------------------------------|
| Notes to physician                                          | : No specific measures identified.                                             |
| Most important symptoms and effects, both acute and delayed | : See Section 11 for more detailed information on health effects and symptoms. |

#### SECTION 5. FIRE-FIGHTING MEASURES

|                                                |                                                                                                                     |
|------------------------------------------------|---------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                   | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.           |
| Unsuitable extinguishing media                 | : None known.                                                                                                       |
| Specific hazards during fire fighting          | : Not flammable or combustible.                                                                                     |
| Hazardous combustion products                  | : Decomposition products may include the following materials:<br>Carbon oxides<br>Nitrogen oxides (NOx)             |
| Special protective equipment for fire-fighters | : Use personal protective equipment.                                                                                |
| Specific extinguishing methods                 | : Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. |

#### SECTION 6. ACCIDENTAL RELEASE MEASURES

|                                                                     |                                                                                                                                                                                                                                                                                                                                                                                 |
|---------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : Refer to protective measures listed in sections 7 and 8.                                                                                                                                                                                                                                                                                                                      |
| Environmental precautions                                           | : No special environmental precautions required.                                                                                                                                                                                                                                                                                                                                |
| Methods and materials for containment and cleaning up               | : Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. |

#### SECTION 7. HANDLING AND STORAGE

|                             |                                                                                                                                                                                                          |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on safe handling     | : Wash hands after handling. In case of mechanical malfunction, or if in contact with unknown dilution of product, wear full Personal Protective Equipment (PPE). For personal protection see section 8. |
| Conditions for safe storage | : Keep out of reach of children. Store in suitable labeled containers.                                                                                                                                   |
| Storage temperature         | : 0 °C to 50 °C                                                                                                                                                                                          |

#### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

## SAFETY DATA SHEET

### EXPERIMENTAL CREME CLEANSER

| Components                  | CAS-No.   | Form of exposure | Permissible concentration                  | Basis |
|-----------------------------|-----------|------------------|--------------------------------------------|-------|
| Anatase (TiO <sub>2</sub> ) | 1317-70-0 | TWA              | 10 mg/m <sup>3</sup><br>(Titanium dioxide) | ACGIH |

Engineering measures : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

#### Personal protective equipment

Eye protection : No special protective equipment required.

Hand protection : No special protective equipment required.

Skin protection : No special protective equipment required.

Respiratory protection : No personal respiratory protective equipment normally required.

Hygiene measures : Wash hands before breaks and immediately after handling the product.

### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                         |                                                |
|-----------------------------------------|------------------------------------------------|
| Appearance                              | : slurry                                       |
| Color                                   | : opaque, gray                                 |
| Odor                                    | : pleasant                                     |
| pH                                      | : 7.5 - 9.5, (100 %)                           |
| Flash point                             | : Not applicable, Does not sustain combustion. |
| Odor Threshold                          | : No data available                            |
| Melting point/freezing point            | : No data available                            |
| Initial boiling point and boiling range | : > 100 °C                                     |
| Evaporation rate                        | : No data available                            |
| Flammability (solid, gas)               | : Not applicable                               |
| Upper explosion limit                   | : No data available                            |
| Lower explosion limit                   | : No data available                            |
| Vapor pressure                          | : No data available                            |
| Relative vapor density                  | : No data available                            |
| Relative density                        | : 1.15 - 1.47                                  |
| Water solubility                        | : No data available                            |
| Solubility in other solvents            | : No data available                            |
| Partition coefficient: n-octanol/water  | : No data available                            |
| Autoignition temperature                | : No data available                            |
| Thermal decomposition                   | : No data available                            |
| Viscosity, kinematic                    | : No data available                            |

## SAFETY DATA SHEET

### EXPERIMENTAL CREME CLEANSER

|                      |                     |
|----------------------|---------------------|
| Explosive properties | : No data available |
| Oxidizing properties | : No data available |
| Molecular weight     | : No data available |
| VOC                  | : No data available |

### SECTION 10. STABILITY AND REACTIVITY

|                                    |                                                                                                                       |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | : No dangerous reaction known under conditions of normal use.                                                         |
| Chemical stability                 | : Stable under normal conditions.                                                                                     |
| Possibility of hazardous reactions | : No dangerous reaction known under conditions of normal use.                                                         |
| Conditions to avoid                | : None known.                                                                                                         |
| Incompatible materials             | : Copper alloys                                                                                                       |
| Hazardous decomposition products   | : In case of fire hazardous decomposition products may be produced such as:<br>Carbon oxides<br>Nitrogen oxides (NOx) |

### SECTION 11. TOXICOLOGICAL INFORMATION

|                                          |                                         |
|------------------------------------------|-----------------------------------------|
| Information on likely routes of exposure | : Inhalation, Eye contact, Skin contact |
|------------------------------------------|-----------------------------------------|

#### Potential Health Effects

|                  |                                                               |
|------------------|---------------------------------------------------------------|
| Eyes             | : Health injuries are not known or expected under normal use. |
| Skin             | : Health injuries are not known or expected under normal use. |
| Ingestion        | : Health injuries are not known or expected under normal use. |
| Inhalation       | : Health injuries are not known or expected under normal use. |
| Chronic Exposure | : Health injuries are not known or expected under normal use. |

#### Experience with human exposure

|              |                                  |
|--------------|----------------------------------|
| Eye contact  | : No symptoms known or expected. |
| Skin contact | : No symptoms known or expected. |
| Ingestion    | : No symptoms known or expected. |
| Inhalation   | : No symptoms known or expected. |

#### Toxicity

##### Product

|                           |                                           |
|---------------------------|-------------------------------------------|
| Acute oral toxicity       | : Acute toxicity estimate : > 5,000 mg/kg |
| Acute inhalation toxicity | : No data available                       |
| Acute dermal toxicity     | : Acute toxicity estimate : > 5,000 mg/kg |

## SAFETY DATA SHEET

### EXPERIMENTAL CREME CLEANSER

|                                   |                     |
|-----------------------------------|---------------------|
| Skin corrosion/irritation         | : No data available |
| Serious eye damage/eye irritation | : No data available |
| Respiratory or skin sensitization | : No data available |
| Carcinogenicity                   | : No data available |
| Reproductive effects              | : No data available |
| Germ cell mutagenicity            | : No data available |
| Teratogenicity                    | : No data available |
| STOT-single exposure              | : No data available |
| STOT-repeated exposure            | : No data available |
| Aspiration toxicity               | : No data available |

### SECTION 12. ECOLOGICAL INFORMATION

#### Ecotoxicity

|                       |                            |
|-----------------------|----------------------------|
| Environmental Effects | : Harmful to aquatic life. |
|-----------------------|----------------------------|

#### Product

|                                                     |                     |
|-----------------------------------------------------|---------------------|
| Toxicity to fish                                    | : No data available |
| Toxicity to daphnia and other aquatic invertebrates | : No data available |
| Toxicity to algae                                   | : No data available |

#### Components

|                  |                                                |
|------------------|------------------------------------------------|
| Toxicity to fish | : Tetrasodium EDTA<br>96 h LC50 Fish: 121 mg/l |
|------------------|------------------------------------------------|

#### Components

|                                                     |                                                                      |
|-----------------------------------------------------|----------------------------------------------------------------------|
| Toxicity to daphnia and other aquatic invertebrates | : Tetrasodium EDTA<br>48 h EC50 Daphnia magna (Water flea): 140 mg/l |
|-----------------------------------------------------|----------------------------------------------------------------------|

#### Persistence and degradability

Poorly biodegradable

#### Bioaccumulative potential

No data available

#### Mobility in soil

No data available

#### Other adverse effects

No data available

### SECTION 13. DISPOSAL CONSIDERATIONS

|                  |                                                                                                                                                                                                                                                                               |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Disposal methods | : Do not contaminate ponds, waterways or ditches with chemical or used container. Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## SAFETY DATA SHEET

### EXPERIMENTAL CREME CLEANSER

disposal facility.

Disposal considerations : Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers. Dispose of in accordance with local, state, and federal regulations.

#### SECTION 14. TRANSPORT INFORMATION

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

##### Land transport (DOT)

Not dangerous goods

##### Sea transport (IMDG/IMO)

Not dangerous goods

#### SECTION 15. REGULATORY INFORMATION

##### EPCRA - Emergency Planning and Community Right-to-Know

###### CERCLA Reportable Quantity

This material does not contain any components with a CERCLA RQ.

###### SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

**SARA 311/312 Hazards** : No SARA Hazards

**SARA 302** : This material does not contain any components with a section 302 EHS TPQ.

**SARA 313** : This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

##### California Prop. 65

This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.

##### California Cleaning Product Right to Know Act of 2017 (SB 258)

This regulation applies to this product.

| Chemical Name   | CAS-No.   | Function       | List(s)        |
|-----------------|-----------|----------------|----------------|
| water           | 7732-18-5 | Diluent        | Not Applicable |
| Sodium silicate | 1332-09-8 | Abrasive       | Not Applicable |
| Glycol ether    | Withheld  | Cleaning Agent | Not Applicable |
| Organic acid    | Withheld  | Stabilizer     | Not Applicable |
| Gum             | Withheld  | Processing Aid | Not Applicable |
| Linalool        | 78-70-6   | Fragrance      | FRA            |
| Geraniol        | 106-24-1  | Fragrance      | FRA            |
| Limonene        | 5989-27-5 | Fragrance      | FRA            |
| Peroxides       | Withheld  | Stabilizer     | Not Applicable |
| Nitrates        | Withheld  | Biocide        | Not Applicable |

## SAFETY DATA SHEET

### EXPERIMENTAL CREME CLEANSER

|                        |          |         |                |
|------------------------|----------|---------|----------------|
| Halogenated thiazole   | Withheld | Biocide | Not Applicable |
| Inorganic salt         | Withheld | Biocide | Not Applicable |
| Isothiazolinones       | Withheld | Biocide | Not Applicable |
| Copper-containing salt | Withheld | Biocide | Not Applicable |
