

**Section: 1. PRODUCT AND COMPANY IDENTIFICATION**

Product name : FIRST IMPRESSION JUNIPER SPLASH MICRO AEROSOL

Other means of identification : Not applicable.

Recommended use : Air Freshener

Restrictions on use : Reserved for industrial and professional use.

Product dilution information : Product is sold ready to use.

Issuing date : 07.08.2019

**Section: 2. HAZARDS IDENTIFICATION**
**GHS Classification**

Flammable aerosols : Category 2  
Eye irritation : Category 2A  
Specific target organ toxicity - single exposure : Category 3 (Central Nervous System)

**GHS Label element**

Hazard pictograms :

Signal Word : Warning

## SAFETY DATA SHEET

### FIRST IMPRESSION JUNIPER SPLASH MICRO AEROSOL

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| Hazard Statements        | : Flammable aerosol.<br>Causes serious eye irritation.<br>May cause drowsiness or dizziness.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Precautionary Statements | : <b>Prevention:</b><br>Keep away from heat/sparks/open flames/hot surfaces. - No smoking.<br>Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray. Wash skin thoroughly after handling.<br>Use only outdoors or in a well-ventilated area. Wear eye protection/face protection. Intentional misuse by deliberate inhalation may be harmful or fatal.<br><b>Response:</b><br>IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/ physician if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/ attention.<br><b>Storage:</b><br>Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/ 122 °F.<br><b>Disposal:</b><br>Dispose of contents/ container to an approved waste disposal plant. |
| Other hazards            | : None known.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

### Section: 3. COMPOSITION/INFORMATION ON INGREDIENTS

Pure substance/mixture : Mixture

| Chemical Name            | CAS-No.                | Concentration: (%) |
|--------------------------|------------------------|--------------------|
| Butane                   | 106-97-8               | 10 - 30            |
| ethanol                  | 64-17-5                | 10 - 30            |
| propane                  | 74-98-6                | 10 - 30            |
| 2-methylpentane-2,4-diol | 107-41-5               | 10 - 30            |
| Fragrance                | Proprietary Ingredient | 10 - 30            |

### Section: 4. FIRST AID MEASURES

|                                                     |                                                                                                                                                                                               |
|-----------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| In case of eye contact                              | : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/ attention. |
| In case of skin contact                             | : Rinse with plenty of water.                                                                                                                                                                 |
| If swallowed                                        | : Rinse mouth. Get medical attention if symptoms occur.                                                                                                                                       |
| If inhaled                                          | : Remove to fresh air. Treat symptomatically. Get medical attention if symptoms occur.                                                                                                        |
| Protection of first-aiders                          | : If potential for exposure exists refer to Section 8 for specific personal protective equipment.                                                                                             |
| Notes to physician                                  | : Treat symptomatically.                                                                                                                                                                      |
| Most important symptoms and effects, both acute and | : See Section 11 for more detailed information on health effects and symptoms.                                                                                                                |

# SAFETY DATA SHEET

## FIRST IMPRESSION JUNIPER SPLASH MICRO AEROSOL

delayed

### Section: 5. FIREFIGHTING MEASURES

- Suitable extinguishing media : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
- Unsuitable extinguishing media : High volume water jet
- Specific hazards during firefighting : Pressurized container: May burst if heated.  
Flammable aerosols
- Hazardous combustion products : Decomposition products may include the following materials:  
Carbon oxides
- Special protective equipment for firefighters : Use personal protective equipment.
- Specific extinguishing methods : Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes.

### Section: 6. ACCIDENTAL RELEASE MEASURES

- Personal precautions, protective equipment and emergency procedures : Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in sections 7 and 8.
- Environmental precautions : Do not allow contact with soil, surface or ground water.
- Methods and materials for containment and cleaning up : Stop leak if safe to do so.

### Section: 7. HANDLING AND STORAGE

- Advice on safe handling : Avoid contact with skin and eyes. Do not breathe dust/fume/gas/mist/vapours/spray. Use only with adequate ventilation. Contents under pressure. Do not puncture. Wash hands thoroughly after handling.
- Conditions for safe storage : Keep in a cool, well-ventilated place. Keep out of reach of children. Keep container tightly closed. Store in suitable labeled containers.
- Storage temperature : 5 °C to 45 °C

### Section: 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Components with workplace control parameters

| Components | CAS-No.  | Form of exposure | Permissible concentration          | Basis  |
|------------|----------|------------------|------------------------------------|--------|
| Butane     | 106-97-8 | TWA OEL-RL       | 600 ppm<br>1,430 mg/m <sup>3</sup> | ZA OEL |
|            |          | STEL OEL-RL      | 750 ppm<br>1,780 mg/m <sup>3</sup> | ZA OEL |

| 2-methylpentane-2,4-diol | 107-41-5 | Ceiling limit | 25 ppm<br>121 mg/m <sup>3</sup>      | ARE OEL |

Engineering measures : Effective exhaust ventilation system. Maintain air concentrations below occupational exposure standards.

#### Personal protective equipment

Eye protection : Safety glasses with side-shields

Hand protection : No special protective equipment required.

Skin protection : No special protective equipment required.

Respiratory protection : When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. Wash face, hands and any exposed skin thoroughly after handling.

#### Section: 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : Aerosol.

Colour : clear, amber

Odour : Perfumes, fragrances

pH : Not applicable.

Flash point : Not applicable., Sustains combustion

Odour Threshold : no data available

Melting point/freezing point : no data available

Initial boiling point and boiling range : no data available

Evaporation rate : no data available

Flammability (solid, gas) : no data available

Upper explosion limit : no data available

Lower explosion limit : no data available

Vapour pressure : no data available

## SAFETY DATA SHEET

### FIRST IMPRESSION JUNIPER SPLASH MICRO AEROSOL

|                                        |                     |
|----------------------------------------|---------------------|
| Relative vapour density                | : no data available |
| Relative density                       | : 0.6 - 0.8         |
| Water solubility                       | : no data available |
| Solubility in other solvents           | : no data available |
| Partition coefficient: n-octanol/water | : no data available |
| Auto-ignition temperature              | : no data available |
| Thermal decomposition                  | : no data available |
| Viscosity, kinematic                   | : no data available |
| Explosive properties                   | : no data available |
| Oxidizing properties                   | : no data available |
| Molecular weight                       | : no data available |
| VOC                                    | : no data available |
| Heat of combustion                     | : 33.94 kJ/g        |

#### Section: 10. STABILITY AND REACTIVITY

|                                    |                                                                                |
|------------------------------------|--------------------------------------------------------------------------------|
| Reactivity                         | : No dangerous reaction known under conditions of normal use.                  |
| Chemical stability                 | : Stable under normal conditions.                                              |
| Possibility of hazardous reactions | : No dangerous reaction known under conditions of normal use.                  |
| Conditions to avoid                | : None known.                                                                  |
| Incompatible materials             | : None known.                                                                  |
| Hazardous decomposition products   | : Decomposition products may include the following materials:<br>Carbon oxides |

#### Section: 11. TOXICOLOGICAL INFORMATION

|                                          |                               |
|------------------------------------------|-------------------------------|
| Information on likely routes of exposure | : Eye contact<br>Skin contact |
|------------------------------------------|-------------------------------|

##### Potential Health Effects

|                  |                                                                                                                                |
|------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Eyes             | : Causes serious eye irritation.                                                                                               |
| Skin             | : Health injuries are not known or expected under normal use.                                                                  |
| Ingestion        | : Health injuries are not known or expected under normal use.                                                                  |
| Inhalation       | : Inhalation may cause central nervous system effects.<br>Intentional misuse by deliberate inhalation may be harmful or fatal. |
| Chronic Exposure | : Health injuries are not known or expected under normal use.                                                                  |

##### Experience with human exposure

## SAFETY DATA SHEET

### FIRST IMPRESSION JUNIPER SPLASH MICRO AEROSOL

Eye contact : Redness, Pain, Irritation  
Skin contact : No symptoms known or expected.  
Ingestion : No symptoms known or expected.  
Inhalation : Dizziness, Drowsiness

#### Toxicity

##### Product

Acute oral toxicity : Acute toxicity estimate : > 5,000 mg/kg  
Acute inhalation toxicity : no data available  
Acute dermal toxicity : no data available  
Skin corrosion/irritation : no data available  
Serious eye damage/eye irritation : no data available  
Respiratory or skin sensitization : no data available  
Carcinogenicity : no data available  
Reproductive effects : no data available  
Germ cell mutagenicity : no data available  
Teratogenicity : no data available  
STOT - single exposure : no data available  
STOT - repeated exposure : no data available  
Aspiration toxicity : no data available

#### Components

Acute inhalation toxicity : Butane  
4 h LC50 rat: 280000 ppm  
Test atmosphere: gas  
  
ethanol  
4 h LC50 rat: 117 mg/l  
Test atmosphere: vapour  
  
2-methylpentane-2,4-diol  
4 h LC50 rat: > 1.1 mg/l  
Test atmosphere: dust/mist

#### Components

Acute dermal toxicity : ethanol  
LD50 rabbit: > 15,800 mg/kg  
  
2-methylpentane-2,4-diol  
LD50 rat: > 2,000 mg/kg

### Section: 12. ECOLOGICAL INFORMATION

#### Ecotoxicity

## SAFETY DATA SHEET

### FIRST IMPRESSION JUNIPER SPLASH MICRO AEROSOL

Environmental Effects : This product has no known ecotoxicological effects.

#### Product

Toxicity to fish : no data available

Toxicity to daphnia and other aquatic invertebrates : no data available

Toxicity to algae : no data available

#### Components

Toxicity to fish : Butane  
96 h LC50 Fish: 22.03 mg/l

ethanol  
96 h LC50 Pimephales promelas (fathead minnow): > 100 mg/l

#### Components

Toxicity to daphnia and other aquatic invertebrates : 2-methylpentane-2,4-diol  
48 h EC50 Daphnia: 2,800 mg/l

#### Persistence and degradability

no data available

#### Bioaccumulative potential

no data available

#### Mobility in soil

no data available

#### Other adverse effects

no data available

### Section: 13. DISPOSAL CONSIDERATIONS

Disposal methods : Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility.

Disposal considerations : Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers. Dispose of in accordance with local, state, and federal regulations.

### Section: 14. TRANSPORT INFORMATION

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

#### Land transport (ADR/ADN/RID)

UN number : 1950

UN proper shipping name : AEROSOLS

Transport hazard class(es) : 2

Environmental hazards : No

Special precautions for user : None

## SAFETY DATA SHEET

### FIRST IMPRESSION JUNIPER SPLASH MICRO AEROSOL

#### Air transport (IATA)

UN number : 1950  
Description of the goods : Aerosols, flammable  
Class : 2.1  
Environmentally hazardous : No

#### Sea transport (IMDG/IMO)

UN number : 1950  
Description of the goods : AEROSOLS  
Class : 2.1  
Marine pollutant : No

### Section: 15. REGULATORY INFORMATION

For Regulatory information please contact your Ecolab sales representative.

### Section: 16. OTHER INFORMATION

#### NFPA:

#### HMIS III:

|                 |   |
|-----------------|---|
| HEALTH          | 2 |
| FLAMMABILITY    | 3 |
| PHYSICAL HAZARD | 0 |

0 = not significant, 1 = Slight,  
2 = Moderate, 3 = High  
4 = Extreme, \* = Chronic

Issuing date : 07.08.2019  
Version : 1.5  
Prepared by : Regulatory Affairs

REVISED INFORMATION: Significant changes to regulatory or health information for this revision is indicated by a bar in the left-hand margin of the SDS.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
