

FAST KNOCKDOWN FOR CRAWLING & FLYING INSECTS

Oa2ki® is a novel polymer formulation combined in a water based delivery system that gives rapid knockdown of ants, fleas, bed bugs, flies and small insects.

DIRECTIONS FOR USE

Spray the product directly onto the insect pest to obtain complete coverage. Oa2ki® can be used both indoors and outdoors.

Ants

Spray directly onto ants and where trailing ants are visible.

Fleas

Oa2ki® can be sprayed directly onto pet bedding, do not apply directly onto animals.

Bed bugs

Product can be applied directly to the insects and to cracks and crevices where insects may hide.

APPLICATION

Dilute concentrate by adding 1 part concentrate to 7.5 parts water. Shake well. 500 ml concentrate makes 4.25 litres of ready to use product. Avoid spraying near highly polished wax surfaces. Do not spray directly onto animals, plants or foodstuff. Product may mark or darken absorbent surfaces. These marks should disappear within a few days but if in doubt, spray a small test area first.

Note: Once the product is diluted to manufacturer recommendations it is not classed as flammable.

Oa2ki® is a non biocidal product due to its physical mode of action and is exempt from EU Reg. 528/2012

HEALTH & SAFETY INFORMATION

Warning

- Flammable liquid and vapour.
- Causes serious eye irritation.
- Keep out of reach of children.
- Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- Keep container tightly closed.
- Wash hands thoroughly after handling.
- Wear eye protection, face protection, protective clothing, protective gloves.
- IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- Dispose of contents/container in accordance with local, regional, national and/or international regulation.
