

Safety Data Sheet

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II (453/2010) - Europe

Issue 1
Issue 13 June 2016

Adamatic TW Automatic Tray Washer Detergent

1 Identification of the substance/mixture and of the company undertaking

1.1 Product Identifier

Product Name	Adamatic (TW)
Product Codes	717215

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified Uses of the substance/mixture	Automatic Tray Washer Detergent. Professional Use.
Uses advised against	Uses other than those identified are not recommended

1.3 Details of the supplier of the safety data sheet

Manufacturer/Distributor	Ecolab Gulf FZE P.O. Box 17063 Jebel Ali Free Zone Area, Near Container Terminal 3 - North Zone, Dubai, UAE	Customer Services 00971 4 8014444 Reception phone numbers 00971 48146800 00971 4 8014000
--------------------------	---	--

1.4 Emergency Telephone Number

+32-(0)3-575-5555

2 Hazards Identification

2.1 Classification of Substance or mixture

Product Definition	Mixture
--------------------	---------

Classification according to Regulation (EC) No. 1272/2008

Physical Hazards	Met Corr 1 – H290
Human Health Hazards	Skin Corr 1 – H314
Environmental Hazards	None

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label Elements

Label Elements (Label In Accordance With (EC) No. 1272/2008)

Pictogram(s)

Signal Word

Danger

Hazard Statements

H290	May be corrosive to metals
H314	Causes severe skin burns and eye damage.

Precautionary statements

Prevention

P280	Wear protective gloves, protective clothing, eye protection and face protection
------	---

P303 + P361 + P353	IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water.
--------------------	--

Response

P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
--------------------	--

Disposal

P310	Immediately call a POISON CENTRE or doctor
P390	Absorb spillage to avoid material damage

2.3 Other hazards

Safety Data Sheet

Page 2 of 6

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II (453/2010) - Europe

Adamatic (TW)

Other hazards which do not result in classification		Not applicable		
3 Composition/Information on Ingredients				
3.2 Mixtures				
Product/Ingredient Name	Identifiers Index No/CAS No/EC No	%	Classification Regulation (EC) No. 1272/2008 [CLP]	Type
Disodium Metasilicate	014-010-00-8/ 6834-92-0/ 229-912-9	3-10	Met. Corr. 1 (H290) Skin Corr. 1B (H314)	1
TetrapotassiumEthylenediaminetetraacetate	N/A 5964-35-2 227-743-5	1-10	Acute Tox 4 (H302) Eye Dam 1 (H318)	1
Tetrapotassium Pyrophosphate	N/A 7320-34-5 230-785-7	1-10	Eye Irrit. 2 (H319)	1
There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section Type 1 Substance classified with a health or environmental hazard 2 Substance with a workplace exposure limit 3 Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII 4 Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII Occupational exposure limits, if available, are listed in Section 8.				
4 First aid measures				
4.1 Description of first aid measures				
Eye Contact	Rinse immediately with copious amounts of water for at least 10 minutes, holding the eyelids open. If irritation occurs obtain medical advice.			
Inhalation	Remove from source of exposure. Seek medical advice if symptoms persist. Exposure by inhalation is unlikely in normal use.			
Skin Contact	Flush contaminated area with running water for 10 minutes, remove any contaminated clothing and launder before re-use. If irritation persists or there is any sign of skin damage seek medical advice.			
Ingestion	If conscious, remove product from mouth, give casualty a small quantity of water or milk to drink and seek medical advice. Do not induce vomiting			
Protection of First Aider	Wear PPE if appropriate (Refer to section 8.2)			
4.2 Most important symptoms and effects, both acute and delayed				
Symptoms The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11. Severe burns and irritation are most likely symptoms when there is exposure to skin, eyes and respiratory system. Not considered to cause sensitization. Further important symptoms and effects are so far not known.				
4.3 Indication of any immediate medical attention and special treatment needed				
Treatment Treat according to symptoms (decontamination, vital functions). Toxicological information on components, where available, is given in section 11.				
5 Fire fighting measures				
5.1 Extinguishing media				
Extinguishing media	Extinguish with foam, carbon dioxide, dry powder or water fog			
Unsuitable extinguishing media	None known			
5.2 Special hazards arising from the substance or mixture				
Hazards from the substance or mixture	In a fire or if heated, a pressure increase will occur and the container may burst.			
Hazardous combustion products	During fire toxic gases, CO and CO ₂ are formed			

Safety Data Sheet

Adamatic (TW)

5.3 Advice for fire-fighters

Special precautions for fire-fighters

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters

Fire-fighters should wear self-contained breathing apparatus and suitable personal protective equipment as appropriate to the surrounding fire.

6 Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Do not breathe vapour/spray/mist. Avoid contact with the skin, eyes and clothing. Use personal protective clothing. Information regarding personal protective measures see, section 8.

6.2 Environmental precautions

Do not discharge into drains/surface waters/groundwater. Contain contaminated water/fire fighting water.

6.3 Methods and material for containment and cleaning up

Small spill:

Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container.

Large spill

Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. dry sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13).

6.4 Reference to other sections

See Section 1 for emergency contact information.

See Section 8 for information on appropriate personal protective equipment.

See Section 13 for additional waste treatment information.

7 Handling and storage

7.1 Precautions for safe handling

Keep container tightly closed. Provide good ventilation of working area (local exhaust ventilation if necessary). Avoid contact with the skin, eyes and clothing. Contaminated surfaces may be extremely slippery. Clean up spillages. Do not allow to dry. Do not eat, drink or smoke in area where material is used or stored.

7.2 Conditions for safe storage, including any incompatibilities

Protect against heat. Store in original labelled containers. Keep container tightly closed, upright and in a cool place. Keep away from acids. Protect from freezing.

7.3 Specific end use(s)

Recommendations

Not specific advice available.

Industrial sector specific solutions

Not applicable.

8 Exposure controls/personal protection

8.1 Control parameters

Occupational exposure limits

Product/ingredient name

Exposure limit values

Contains no ingredients with set exposure limits

Derived effect levels

No DNELs available for the mixture

Predicted effect concentrations

No PNECs available for the mixture.

8.2 Exposure controls

Process conditions

Provide eye-wash stations

Engineering Measures

The concentrated product is intended to be used via a dosing system to avoid splashes and contact with the skin. Wear appropriate PPE if contact is possible when connecting to dosing system. If airborne vapours or mists are generated provide adequate general and local exhaust ventilation to keep exposure below any statutory

Safety Data Sheet

Page 4 of 6

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II (453/2010) - Europe

Issue 1

Adamatic (TW)

limits.

Personal Protective Equipment

Respiratory protection:

Not needed in normal use. If vapour/aerosol is created use particle filter with medium efficiency for solid and liquid particles (e.g. EN 143 or 14387)

Hand protection

Wear chemical resistant protective gloves (EN 374)

Review condition of gloves when in use, especially for wear, cuts and breakthrough after prolonged contact.

Consult with a supplier of protective gloves for further information or for other tasks.

Eye protection

Not needed in normal use. Wear tightly fitting safety goggles (splash goggles) (e.g. EN 166) if splashing is likely to occur

Body protection:

Wear chemical resistant clothing and boots if exposure/splashing may occur. Other body protection may be suitable depending on activity and possible exposure, e.g. apron, chemical-protection suit (meeting EN 14605).

General safety and hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing.

9 Physical & chemical properties

9.1 Information on basic physical and chemical properties

Physical state	Liquid.
Colour	Clear, Straw.
Odour	Product specific.
Odour threshold	Not determined for the mixture.
pH value 20 Deg C	11-11.6
Melting point/Freezing point	Not determined for the mixture.
Initial boiling point and boiling range	Not determined for the mixture.
Flash point	>100 deg C
Evaporation rate	Not determined for the mixture.
Flammability (solid, gas)	Not flammable.
Burning time	Not determined for the mixture.
Burning rate	Not determined for the mixture.
Upper/lower flammability or explosive limits	Not determined for the mixture.
Vapour pressure	Not determined for the mixture.
Relative density	1.175-1.195
Solubility(ies)	Readily soluble in cold and hot water
Partition coefficient: n-octanol/water	Not determined for the mixture.
Auto ignition temperature	Not determined for the mixture.
Decomposition temperature	Not determined for the mixture.
Viscosity	Not determined for the mixture.
Explosive properties	Not explosive
Oxidising properties	None

9.2 Other Information

No further relevant information available

10 Stability and Reactivity

10.1 Reactivity	No specific test data related to reactivity available for this product or its ingredients.
10.2 Chemical Stability	Stable mixture under normal conditions or storage and use.
10.3 Possibility of hazardous reactions	Hazardous reactions will not occur in normal storage conditions.
10.4 Conditions to avoid	None known in normal storage conditions.
10.5 Incompatible materials	Will react with acids.
10.6 Hazardous decomposition products	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11 Toxicology

11.1 Information on toxicological effects

Toxicological data for this mixture is not available as animal toxicity studies have not been carried out. Toxicological data for the raw materials is, where provided by the manufacturer, available on request.

Safety Data Sheet

Page 5 of 6

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II (453/2010) - Europe

13 June 2016

Adamatic (TW)

12 Ecological information

12.1 Toxicity

Ecological Toxicity data for this mixture is not available as ecological toxicity studies have not been carried out. Ecological Toxicity data for the raw materials is, where provided by the manufacturer, available on request.

12.2 Persistence and degradability

Conclusion/Summary Any surfactants contained in the product are biodegradable according to the requirements of the detergent regulation 648/2004/EC

12.3 Bioaccumulative potential

Conclusion/Summary Not determined for the mixture.

12.4 Mobility in soil

Soil/water partition coefficient (KOC) Not determined for the mixture.

Mobility Not determined for the mixture.

12.5 Results of PBT and vPvB assessment

PBT Not applicable.

vPvB Not applicable.

12.6 Other adverse effects No known significant effects or critical hazards.

13: Disposal considerations

13.1 Waste treatment methods

Waste from residues / unused products Dispose of in compliance with all Federal, state, provincial, and local laws and regulations.
EWC Code 20 01 29* - detergents containing dangerous substances

Empty packaging recommendation: Dispose of observing national or local regulations. (Can be cleaned with water)
EWC Code 20 01 39

14: Transport information*

	ADR/RID	ADN/ADNR	IMDG	IATA
14.1 UN number			UN 3266	
14.2 UN proper shipping name			Corrosive liquid, basic, inorganic, n.o.s. (Contains Disodium Trioxosilicate)	
14.3 Transport hazard class(es):				
14.4 Packing group			III	
14.5 Environmental hazards			None	
14.6 Special precautions for user			None known	
14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBCCode			Not Applicable	
Other relevant information (ADR)	Tunnel Code E			
	Transport Category 3			

15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Ingredients according to EC Detergents Regulation 648/2004

5-15% Phosphates
<5% EDTA Potassium Salt

15.2 Chemical safety assessment

A chemical safety assessment has not been carried out on the mixture

16: Other information

The information in this document is based on our best present knowledge. However, it does not constitute a guarantee for any specific product features and does not establish a legally binding contract

Reason for revision: Overall design adjusted in accordance with Regulation (EC) No 1907/2006, Annex II
* Indicates section(s) where changes have been made
