

Section 1. Chemical product and company identification

Chinese name : 空氣清新劑
Product name English : Oasis Pro 55 ZephAir Mountain Mist
Supplier : Ecolab Limited
 15/F, Lu Plaza
 2 Wing Yip Street, Kwun Tong, Kowloon, HONG KONG
 +852-2372 7768
Emergency telephone number : +852-2372 7768
Product type : Air Freshener
Date of issue : 2011 . 12 . 14

Section 2. Hazards identification

Hazard classification : Not regulated.
Routes of entry : Skin contact, Eye contact, Inhalation, Ingestion
Human health hazards
Inhalation : No known significant effects or critical hazards.
Ingestion : No known significant effects or critical hazards.
Skin : Slightly irritating to the skin.
Eyes : Slightly irritating to the eyes.
Environmental hazards : No known significant effects or critical hazards.
Fire/explosion hazards : In a fire or if heated, a pressure increase will occur and the container may burst.

Section 3. Composition/information on ingredients

Mixture

Chemical name	Concentration	CAS No.
alcohols, c12-16, ethoxylated	10 - 30	68551-12-2
sodium xylenesulphonate	1 - 10	1300-72-7
Perfume ingredient.	1 - 10	Proprietary
alcohols, c12-15, ethoxylated	1 - 10	68131-39-5

Section 4. First-aid measures

Inhalation : If irritation persists, get medical attention.
Ingestion : Do not induce vomiting. Never give anything by mouth to an unconscious person. If irritation persists, get medical attention.
Skin contact : Flush contaminated skin with plenty of water. Wash clothing before reuse.
Eye contact : In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention if irritation occurs.

Section 5. Fire-fighting measures

Extinguishing media

Suitable	: Use an extinguishing agent suitable for the surrounding fire.
Not suitable	: None known.
Hazardous combustion products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides sulfur oxides metal oxide/oxides
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
Materials to avoid	None identified.

Section 6. Accidental release measures

Personal precautions	: Ventilate area of leak or spill. Do not touch damaged containers or spilled material unless wearing appropriate protective equipment (Section 8). Stop leak if without risk. Do not allow to enter drains or watercourses.
Environmental precautions	: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods for cleaning up	: Use a water rinse for final clean-up.

Section 7. Handling and storage

Handling	: Avoid contact with eyes. Wash thoroughly after handling.
Storage	: Keep out of reach of children. Keep container tightly closed. Keep container in a cool, well-ventilated area. Do not store above the following temperature: 50°C

Section 8. Exposure controls/personal protection

Exposure limit values	: Not available.
Recommended monitoring procedures	: Not applicable.
Occupational exposure controls	: No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
<u>Personal protection</u>	
Respiratory	No protective equipment is needed under normal use conditions.
Hands	: No protective equipment is needed under normal use conditions.
Eyes	: No protective equipment is needed under normal use conditions.
Skin	: No protective equipment is needed under normal use conditions.

Section 9. Physical and chemical properties

Physical state	: Liquid. [Liquid.]
Colour	: Colourless to light yellow
Odour	: Fragrance-like
pH	: 8 to 9.5 [Conc. (% w/w): 100%]
Boiling point	: 100°C (212°F)
Flash point	: > 100°C Product does not support combustion.
Specific gravity	: 1.042 to 1.062
Solubility	: Easily soluble in the following materials: cold water and hot water.

Section 10. Stability and reactivity

Stability and reactivity	: The product is stable.
Conditions to avoid	: No specific data.
Materials to avoid	: None identified.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Acute toxicity

Inhalation	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Skin	: Slightly irritating to the skin.
Eyes	: Slightly irritating to the eyes.

Potential chronic health effects

Chronic effects	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
Developmental effects	: No known significant effects or critical hazards.
Fertility effects	: No known significant effects or critical hazards.

Section 12. Ecological information

Aquatic ecotoxicity

Product/ingredient name	Result	Species	Exposure
alcohols, c12-15, ethoxylated	Acute EC50 1.4 mg/L	Daphnia	48 hours
	Acute EC50 1.3 mg/L	Daphnia	48 hours
	Acute LC50 1.58 mg/L	Fish	96 hours
	Acute LC50 1.4 mg/L	Fish	96 hours
	Acute LC50 1.16 mg/L	Fish	96 hours
	Acute LC50 1.03 mg/L	Fish	96 hours
Other adverse effects	: No known significant effects or critical hazards.		
Environmental effects	: No known significant effects or critical hazards.		

Section 13. Disposal considerations

Waste disposal	: The generation of waste should be avoided or minimised wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This
-----------------------	---

Section 13. Disposal considerations

material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Consult your local or regional authorities.

Section 14. Transport information

UN number : Not regulated
Proper shipping name : -
Package mark : -
Packing group : -
Packaging : -
Matters needing attention : -
for transportation

Section 15. Regulatory information

Authored with regard to:

- "Classification and Mark for commonly used dangerous chemicals" (GB13690-1992)
- "General rules for preparation of a Chemical Safety Data Sheet" (GB16483-2000)
- "The principle of classification of transport packaging groups of dangerous goods" (GB/T15098-94)
- "Classification and code of dangerous goods" (GB6944-2005)

Section 16. Other information

Date of issue : 2011 . 12 . 14
Prepared by : Regulatory Affairs
Date of previous issue : 2011 . 12 . 14
