

## SAFETY DATA SHEET

### GUM REMOVER

#### Section: 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : GUM REMOVER

Other means of identification : Not applicable.

Recommended use : Cleaning product

Restrictions on use : Reserved for industrial and professional use.

Product dilution information : Product is sold ready to use.

Company : Ecolab New Zealand  
2A Pacific Rise  
Mt. Wellington, Auckland New Zealand  
+64 7 958 2319

Emergency telephone number : 0800 243 622 (0800 CHEMCALL)  
+64 7 958 2372 (International)

Issuing date : 02.03.2021

#### Section: 2. HAZARDS IDENTIFICATION

##### HSNO Hazard classification

Flammable Liquids : 3.1 D

Skin irritation : 6.3 B

Eye irritation : 6.4 A

Skin sensitization : 6.5 B

Aquatic toxicity (Acute or Chronic) : 9.1 A

Ecotoxic to soil environment : 9.2 C

##### GHS Label element

Hazard pictograms :

Signal Word : Warning

Hazard Statements : Combustible liquid  
Causes mild skin irritation.  
May cause an allergic skin reaction.  
Causes eye irritation.  
Very toxic to aquatic life.  
Toxic to aquatic life with long lasting effects.  
Harmful to the soil environment.

Precautionary Statements : **Prevention:**  
Keep away from heat/sparks/open flames/hot surfaces. - No smoking.  
Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray. Wash skin thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves.

**Response:**  
IF ON SKIN: Wash with plenty of soap and water. IF IN EYES: Rinse

# SAFETY DATA SHEET

## GUM REMOVER

cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Specific treatment (see supplemental first aid instructions on this label). If skin irritation or rash occurs: Get medical advice/ attention. If eye irritation persists: Get medical advice/ attention. Wash contaminated clothing before reuse. In case of fire: Use dry sand, dry chemical or alcohol-resistant foam for extinction. Collect spillage.

**Storage:**

Store in a well-ventilated place. Keep cool.

**Disposal:**

Dispose of contents/ container to an approved waste disposal plant.

**Other hazards** : None known.

### Section: 3. COMPOSITION/INFORMATION ON INGREDIENTS

Pure substance/mixture : Mixture

| Chemical Name                                                        | CAS-No.    | Concentration: (%) |
|----------------------------------------------------------------------|------------|--------------------|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, <2% aromatics | 64742-47-8 | 60 - 100           |
| Limonene                                                             | 5989-27-5  | 10 - 30            |
| alcohols, c10-14, ethoxylated                                        | 66455-15-0 | 1 - 5              |

### Section: 4. FIRST AID MEASURES

|                                                             |                                                                                                                                                                                                 |
|-------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| In case of eye contact                                      | : Rinse thoroughly with plenty of water, also under the eyelids. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/ attention. |
| In case of skin contact                                     | : Wash off immediately with plenty of water for at least 15 minutes. Use a mild soap if available. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention.      |
| If swallowed                                                | : Rinse mouth. Get medical attention if symptoms occur.                                                                                                                                         |
| If inhaled                                                  | : Get medical attention if symptoms occur.                                                                                                                                                      |
| Protection of first-aiders                                  | : If potential for exposure exists refer to Section 8 for specific personal protective equipment.                                                                                               |
| Notes to physician                                          | : Treat symptomatically.                                                                                                                                                                        |
| Most important symptoms and effects, both acute and delayed | : See Section 11 for more detailed information on health effects and symptoms.                                                                                                                  |

### Section: 5. FIREFIGHTING MEASURES

|                                      |                                                                                                                  |
|--------------------------------------|------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media         | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.        |
| Unsuitable extinguishing media       | : High volume water jet                                                                                          |
| Specific hazards during firefighting | : Fire Hazard<br>Keep away from heat and sources of ignition.<br>Flash back possible over considerable distance. |

## SAFETY DATA SHEET

### GUM REMOVER

- Hazardous combustion products : Decomposition products may include the following materials:  
Carbon oxides  
nitrogen oxides (NOx)  
Sulphur oxides  
Oxides of phosphorus
- Special protective equipment for firefighters : Use personal protective equipment.
- Specific extinguishing methods : Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes.

#### Section: 6. ACCIDENTAL RELEASE MEASURES

- Personal precautions, protective equipment and emergency procedures : Remove all sources of ignition. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in sections 7 and 8.
- Environmental precautions : Do not allow contact with soil, surface or ground water.
- Methods and materials for containment and cleaning up : Eliminate all ignition sources if safe to do so. Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Flush away traces with water. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway.

#### Section: 7. HANDLING AND STORAGE

- Advice on safe handling : Avoid contact with skin and eyes. Keep away from fire, sparks and heated surfaces. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Wash hands thoroughly after handling. Do not get in eyes, on skin, or on clothing.
- Conditions for safe storage : Keep away from heat and sources of ignition. Keep away from oxidizing agents. Keep out of reach of children. Keep container tightly closed. Store in suitable labeled containers.
- Storage temperature : 0 °C to 50 °C

#### Section: 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

##### Components with workplace control parameters

| Components                                                           | CAS-No.    | Form of exposure | Permissible concentration | Basis  |
|----------------------------------------------------------------------|------------|------------------|---------------------------|--------|
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics, <2% aromatics | 64742-47-8 | WES-TWA (Mist)   | 5 mg/m3                   | NZ OEL |
|                                                                      |            | WES-STEL         | 10 mg/m3                  | NZ OEL |

## SAFETY DATA SHEET

### GUM REMOVER

|  |  |        |  |  |
|--|--|--------|--|--|
|  |  | (Mist) |  |  |
|--|--|--------|--|--|

Engineering measures : Effective exhaust ventilation system. Maintain air concentrations below occupational exposure standards.

#### Personal protective equipment

Eye protection : No special protective equipment required.

Hand protection : Wear the following personal protective equipment:  
Standard glove type.  
Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Skin protection : No special protective equipment required.

Respiratory protection : No personal respiratory protective equipment normally required.

Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. Remove and wash contaminated clothing before re-use.  
Wash face, hands and any exposed skin thoroughly after handling.

#### Section: 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                         |                                         |
|-----------------------------------------|-----------------------------------------|
| Appearance                              | : liquid                                |
| Colour                                  | : clear, colourless                     |
| Odour                                   | : citrus                                |
| pH                                      | : 7, (100 %)                            |
| Flash point                             | : 78 °C closed cup, Sustains combustion |
| Odour Threshold                         | : no data available                     |
| Melting point/freezing point            | : no data available                     |
| Initial boiling point and boiling range | : 100 °C                                |
| Evaporation rate                        | : no data available                     |
| Flammability (solid, gas)               | : Not applicable.                       |
| Upper explosion limit                   | : no data available                     |
| Lower explosion limit                   | : no data available                     |
| Vapour pressure                         | : no data available                     |
| Relative vapour density                 | : no data available                     |
| Relative density                        | : 0.75 - 0.85                           |
| Water solubility                        | : partly soluble                        |
| Solubility in other solvents            | : no data available                     |
| Partition coefficient: n-octanol/water  | : no data available                     |
| Auto-ignition temperature               | : no data available                     |
| Thermal decomposition                   | : no data available                     |
| Viscosity, kinematic                    | : no data available                     |
| Explosive properties                    | : no data available                     |

## SAFETY DATA SHEET

### GUM REMOVER

|                      |                                                            |
|----------------------|------------------------------------------------------------|
| Oxidizing properties | : The substance or mixture is not classified as oxidizing. |
| Molecular weight     | : no data available                                        |
| VOC                  | : no data available                                        |

#### Section: 10. STABILITY AND REACTIVITY

|                                    |                                                                                                                                                   |
|------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | : No dangerous reaction known under conditions of normal use.                                                                                     |
| Chemical stability                 | : Stable under normal conditions.                                                                                                                 |
| Possibility of hazardous reactions | : No dangerous reaction known under conditions of normal use.                                                                                     |
| Conditions to avoid                | : Heat, flames and sparks.                                                                                                                        |
| Incompatible materials             | : None known.                                                                                                                                     |
| Hazardous decomposition products   | : Decomposition products may include the following materials:<br>Carbon oxides<br>nitrogen oxides (NOx)<br>Sulphur oxides<br>Oxides of phosphorus |

#### Section: 11. TOXICOLOGICAL INFORMATION

|                                          |                                         |
|------------------------------------------|-----------------------------------------|
| Information on likely routes of exposure | : Inhalation, Eye contact, Skin contact |
|------------------------------------------|-----------------------------------------|

##### Potential Health Effects

|                  |                                                                  |
|------------------|------------------------------------------------------------------|
| Eyes             | : Causes serious eye irritation.                                 |
| Skin             | : Causes mild skin irritation. May cause allergic skin reaction. |
| Ingestion        | : Health injuries are not known or expected under normal use.    |
| Inhalation       | : Health injuries are not known or expected under normal use.    |
| Chronic Exposure | : Health injuries are not known or expected under normal use.    |

##### Experience with human exposure

|              |                                                              |
|--------------|--------------------------------------------------------------|
| Eye contact  | : Redness, Irritation                                        |
| Skin contact | : Redness, Irritation, slight irritation, Allergic reactions |
| Ingestion    | : No symptoms known or expected.                             |
| Inhalation   | : No symptoms known or expected.                             |

##### Toxicity

##### Product

|                           |                                           |
|---------------------------|-------------------------------------------|
| Acute oral toxicity       | : Acute toxicity estimate : > 5,000 mg/kg |
| Acute inhalation toxicity | : no data available                       |
| Acute dermal toxicity     | : Acute toxicity estimate : > 5,000 mg/kg |

## SAFETY DATA SHEET

### GUM REMOVER

|                                   |                                         |
|-----------------------------------|-----------------------------------------|
| Skin corrosion/irritation         | : Skin irritation                       |
| Serious eye damage/eye irritation | : Mild eye irritation                   |
| Respiratory or skin sensitization | : May cause an allergic skin reaction.  |
| Carcinogenicity                   | : no data available                     |
| Reproductive effects              | : no data available                     |
| Germ cell mutagenicity            | : no data available                     |
| Teratogenicity                    | : no data available                     |
| STOT - single exposure            | : no data available                     |
| STOT - repeated exposure          | : no data available                     |
| Aspiration toxicity               | : No aspiration toxicity classification |

### Section: 12. ECOLOGICAL INFORMATION

#### Toxicity

|                       |                                                                                   |
|-----------------------|-----------------------------------------------------------------------------------|
| Environmental Effects | : Toxic to aquatic life with long lasting effects.<br>Very toxic to aquatic life. |
|-----------------------|-----------------------------------------------------------------------------------|

#### Product

|                                                     |                     |
|-----------------------------------------------------|---------------------|
| Toxicity to fish                                    | : no data available |
| Toxicity to daphnia and other aquatic invertebrates | : no data available |
| Toxicity to algae                                   | : no data available |

#### Components

|                  |                                                                                                                                                                                                          |

#### Persistence and degradability

Readily biodegradable.

#### Bioaccumulative potential

no data available

## SAFETY DATA SHEET

### GUM REMOVER

#### Mobility in soil

no data available

#### Other adverse effects

no data available

### Section: 13. DISPOSAL CONSIDERATIONS

- Disposal methods : Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility.
- The product should not be allowed to enter drains, water courses or the soil.
- Disposal considerations : Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers. Dispose of in accordance with local, state, and federal regulations.

### Section: 14. TRANSPORT INFORMATION

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

#### Land transport (NZ\_DG)

- UN number : 3082
- Description of the goods : ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Limonene)
- Class : 9
- Packing group : III
- Hazchem Code :

#### Sea transport (IMDG/IMO)

- UN number : 3082
- Description of the goods : ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Limonene)
- Class : 9
- Packing group : III
- Marine pollutant : Yes

- Special precautions for user : None

### Section: 15. REGULATORY INFORMATION

The components of this product are reported in the following inventories:

#### United States TSCA Inventory :

All substances listed as active on the TSCA inventory

#### Canadian Domestic Substances List (DSL) :

All components of this product are on the Canadian DSL.

## SAFETY DATA SHEET

### GUM REMOVER

**Australia. Australian Industrial Chemicals Introduction Scheme (AICIS) :**

On the inventory, or in compliance with the inventory

**New Zealand. Inventory of Chemicals (NZIoC), as published by ERMA New Zealand :**

On the inventory, or in compliance with the inventory

**Japan. ENCS - Existing and New Chemical Substances Inventory :**

On the inventory, or in compliance with the inventory

**Korea. Korean Existing Chemicals Inventory (KECI) :**

On the inventory, or in compliance with the inventory

**Philippines Inventory of Chemicals and Chemical Substances (PICCS) :**

On the inventory, or in compliance with the inventory

**China Inventory of Existing Chemical Substances :**

On the inventory, or in compliance with the inventory

**Taiwan Chemical Substance Inventory :**

On the inventory, or in compliance with the inventory

### Section: 16. OTHER INFORMATION

Issuing date : 02.03.2021  
Version : 1.1  
Prepared by : Regulatory Affairs

REVISED INFORMATION: Significant changes to regulatory or health information for this revision is indicated by a bar in the left-hand margin of the SDS.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
