

**Section: 1. PRODUCT AND COMPANY IDENTIFICATION**

Product name : AIM URINAL RING ENCOUNTER

Other means of identification : Not applicable.

Recommended use : Air Freshener

Restrictions on use : Reserved for industrial and professional use.

Product dilution information : Product is sold ready to use.

Company : ECOLAB PTE LTD  
21 Gul Lane  
Singapore 629416  
65-6505-6868

Emergency telephone number : +(65)-31581349

Issuing date : 01.08.2020

**Section: 2. HAZARDS IDENTIFICATION**
**GHS Classification**

Serious eye damage/eye irritation : Category 2

**GHS Label element**

Hazard pictograms :

Signal Word : Warning

Hazard Statements : Causes serious eye irritation.

Precautionary Statements : **Prevention:**  
Wash skin thoroughly after handling. Wear eye protection/face protection.  
**Response:**  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/ attention.  
**Disposal:**  
Dispose of contents/ container to an approved waste disposal plant.

Other hazards : None known.

**Section: 3. COMPOSITION/INFORMATION ON INGREDIENTS**

Pure substance/mixture : Mixture

| Chemical Name                  | CAS-No.    | Concentration: (%) |
|--------------------------------|------------|--------------------|
| Sodium Carbonate               | 497-19-8   | >= 10 - < 30       |
| amides, coco, n-(hydroxyethyl) | 68140-00-1 | >= 5 - < 10        |

## SAFETY DATA SHEET

### AIM URINAL RING ENCOUNTER

|                                   |            |             |
|-----------------------------------|------------|-------------|
| Organic sulfonic acid salt        | 25155-30-0 | >= 5 - < 10 |
| Fatty acids, coco, sodium salts   | 61789-31-9 | >= 5 - < 10 |
| sodium tetraborate - pentahydrate | 12179-04-3 | >= 5 - < 10 |

#### Section: 4. FIRST AID MEASURES

|                                                             |                                                                                                                                                                                                   |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| In case of eye contact                                      | : Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately. |
| In case of skin contact                                     | : Rinse with plenty of water.                                                                                                                                                                     |
| If swallowed                                                | : Rinse mouth. Get medical attention if symptoms occur.                                                                                                                                           |
| If inhaled                                                  | : Remove to fresh air. Treat symptomatically. Get medical attention.                                                                                                                              |
| Protection of first-aiders                                  | : If potential for exposure exists refer to Section 8 for specific personal protective equipment.                                                                                                 |
| Notes to physician                                          | : Treat symptomatically.                                                                                                                                                                          |
| Most important symptoms and effects, both acute and delayed | : See Section 11 for more detailed information on health effects and symptoms.                                                                                                                    |

#### Section: 5. FIREFIGHTING MEASURES

|                                               |                                                                                                                                                                                                                                                                                    |
|-----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                  | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.                                                                                                                                                                          |
| Unsuitable extinguishing media                | : None known.                                                                                                                                                                                                                                                                      |
| Specific hazards during firefighting          | : Not flammable or combustible.                                                                                                                                                                                                                                                    |
| Hazardous combustion products                 | : Decomposition products may include the following materials:<br>Carbon oxides<br>nitrogen oxides (NOx)<br>Sulphur oxides                                                                                                                                                          |
| Special protective equipment for firefighters | : Use personal protective equipment.                                                                                                                                                                                                                                               |
| Specific extinguishing methods                | : Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes. |

#### Section: 6. ACCIDENTAL RELEASE MEASURES

|                                                                     |                                                                                                                                                                                                                                                                                                                                                                              |
|---------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in sections 7 and 8. |
|---------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## SAFETY DATA SHEET

### AIM URINAL RING ENCOUNTER

- Environmental precautions : Do not allow contact with soil, surface or ground water.
- Methods and materials for containment and cleaning up : Sweep up and shovel into suitable containers for disposal.

#### Section: 7. HANDLING AND STORAGE

- Advice on safe handling : Do not ingest. Avoid contact with skin and eyes. Do not breathe dust/fume/gas/mist/vapours/spray. Use only with adequate ventilation. Wash hands thoroughly after handling. Do not get in eyes, on skin, or on clothing.
- Conditions for safe storage : Keep out of reach of children. Keep container tightly closed. Store in suitable labeled containers.
- Storage temperature : 0 °C to 45 °C

#### Section: 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

##### Components with workplace control parameters

| Components                        | CAS-No.    | Form of exposure | Permissible concentration | Basis  |
|-----------------------------------|------------|------------------|---------------------------|--------|
| sodium tetraborate - pentahydrate | 12179-04-3 | PEL (long term)  | 1 mg/m <sup>3</sup>       | SG PEL |

- Engineering measures : Effective exhaust ventilation system. Maintain air concentrations below occupational exposure standards.

##### Personal protective equipment

- Eye protection : Safety goggles  
Face-shield
- Hand protection : Wear the following personal protective equipment:  
Neoprene gloves  
Nitrile  
Natural rubber  
PVC  
Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
- Skin protection : Personal protective equipment comprising: suitable protective gloves, safety goggles and protective clothing
- Respiratory protection : When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.
- Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. Remove and wash contaminated clothing before re-use. Wash face, hands and any exposed skin thoroughly after handling. Provide suitable facilities for quick drenching or flushing of the eyes and body in case of contact or splash hazard.

#### Section: 9. PHYSICAL AND CHEMICAL PROPERTIES

## SAFETY DATA SHEET

### AIM URINAL RING ENCOUNTER

|                                         |                     |
|-----------------------------------------|---------------------|
| Appearance                              | : solid             |
| Colour                                  | : blue              |
| Odour                                   | : Floral            |
| pH                                      | : 8.0, (1 %)        |
| Flash point                             | : Not applicable.   |
| Odour Threshold                         | : no data available |
| Melting point/freezing point            | : no data available |
| Initial boiling point and boiling range | : no data available |
| Evaporation rate                        | : no data available |
| Flammability (solid, gas)               | : no data available |
| Upper explosion limit                   | : no data available |
| Lower explosion limit                   | : no data available |
| Vapour pressure                         | : no data available |
| Relative vapour density                 | : no data available |
| Relative density                        | : no data available |
| Water solubility                        | : no data available |
| Solubility in other solvents            | : no data available |
| Partition coefficient: n-octanol/water  | : no data available |
| Auto-ignition temperature               | : no data available |
| Thermal decomposition                   | : no data available |
| Viscosity, kinematic                    | : no data available |
| Explosive properties                    | : no data available |
| Oxidizing properties                    | : no data available |

| VOC                                     | : no data available |

### Section: 10. STABILITY AND REACTIVITY

|                                    |                                                                                                                                         |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                         | : No dangerous reaction known under conditions of normal use.                                                                           |
| Chemical stability                 | : Stable under normal conditions.                                                                                                       |
| Possibility of hazardous reactions | : No dangerous reaction known under conditions of normal use.                                                                           |
| Conditions to avoid                | : None known.                                                                                                                           |
| Incompatible materials             | : None known.                                                                                                                           |
| Hazardous decomposition products   | : In case of fire hazardous decomposition products may be produced such as:<br>Carbon oxides<br>nitrogen oxides (NOx)<br>Sulphur oxides |

## SAFETY DATA SHEET

### AIM URINAL RING ENCOUNTER

#### Section: 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure : Eye contact, Skin contact

##### Potential Health Effects

Eyes : Causes serious eye irritation.

Skin : Health injuries are not known or expected under normal use.

Ingestion : Health injuries are not known or expected under normal use.

Inhalation : Health injuries are not known or expected under normal use.

Chronic Exposure : Health injuries are not known or expected under normal use.

##### Experience with human exposure

Eye contact : Redness, Pain, Irritation

Skin contact : No symptoms known or expected.

Ingestion : No symptoms known or expected.

Inhalation : No symptoms known or expected.

##### Toxicity

###### Product

Acute oral toxicity : Acute toxicity estimate : > 2,000 mg/kg

Acute inhalation toxicity : no data available

Acute dermal toxicity : no data available

Skin corrosion/irritation : no data available

Serious eye damage/eye irritation : no data available

Respiratory or skin sensitization : no data available

Carcinogenicity : no data available

Reproductive effects : no data available

Germ cell mutagenicity : no data available

Teratogenicity : no data available

STOT - single exposure : no data available

STOT - repeated exposure : no data available

Aspiration toxicity : no data available

##### Components

Acute inhalation toxicity : sodium tetraborate - pentahydrate  
4 h LC50 rat: > 2 mg/l  
Test atmosphere: dust/mist

##### Components

Acute dermal toxicity : sodium tetraborate - pentahydrate

## SAFETY DATA SHEET

### AIM URINAL RING ENCOUNTER

LD50 rabbit: > 2,000 mg/kg

#### Section: 12. ECOLOGICAL INFORMATION

##### Ecotoxicity

Environmental Effects : Harmful to aquatic life.

##### Product

Toxicity to fish : no data available

Toxicity to daphnia and other aquatic invertebrates : no data available

Toxicity to algae : no data available

##### Components

Toxicity to fish : Sodium Carbonate  
96 h LC50 *Lepomis macrochirus* (Bluegill sunfish): 300 mg/l

Organic sulfonic acid salt  
96 h LC50 Fish: 3.2 mg/l

sodium tetraborate - pentahydrate  
96 h LC50 Fish: > 100 mg/l

##### Components

Toxicity to daphnia and other aquatic invertebrates : Sodium Carbonate  
48 h EC50 *Ceriodaphnia* (water flea): 213.5 mg/l

##### Components

Toxicity to algae : amides, coco, n-(hydroxyethyl)  
72 h EC50: 1.07 mg/l

##### Persistence and degradability

no data available

##### Bioaccumulative potential

no data available

##### Mobility in soil

no data available

##### Other adverse effects

no data available

#### Section: 13. DISPOSAL CONSIDERATIONS

Disposal methods : Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility.

The product should not be allowed to enter drains, water courses or the soil.

Disposal considerations : Dispose of as unused product. Empty containers should be taken to

## SAFETY DATA SHEET

### AIM URINAL RING ENCOUNTER

an approved waste handling site for recycling or disposal. Do not re-use empty containers. Dispose of in accordance with local, state, and federal regulations.

#### Section: 14. TRANSPORT INFORMATION

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

##### Land transport

Not dangerous goods

##### Sea transport (IMDG/IMO)

Not dangerous goods

Special precautions for user : None

#### Section: 15. REGULATORY INFORMATION

##### National Regulations

##### Fire Safety (Petroleum and Flammable Materials) Regulations

Not applicable.

The components of this product are reported in the following inventories:

**Switzerland. New notified substances and declared preparations :**  
not determined

**United States TSCA Inventory :**  
All substances listed as active on the TSCA inventory

**Canadian Domestic Substances List (DSL) :**  
All components of this product are on the Canadian DSL.

**Australia. Industrial Chemical (Notification and Assessment) Act :**  
not determined

**New Zealand. Inventory of Chemicals (NZIoC), as published by ERMA New Zealand :**  
not determined

**Japan. ENCS - Existing and New Chemical Substances Inventory :**  
not determined

**Korea. Korean Existing Chemicals Inventory (KECI) :**  
not determined

**Philippines Inventory of Chemicals and Chemical Substances (PICCS) :**  
On the inventory, or in compliance with the inventory

**China Inventory of Existing Chemical Substances :**  
On the inventory, or in compliance with the inventory

**Taiwan Chemical Substance Inventory :**  
not determined
