

**Vendetta
PLUS**

DIRECTIONS FOR USE:

SITUATION: Residential, commercial or Industrial Indoor areas

PEST: German and American Cockroach

RATE: Apply as a 3-6mm (pea size) bait spot. For light infestations apply 4-6 bait spots per 10m². Larger spot can be applied for American cockroaches.

For large infestations apply 12-24 spots per 10m². Each spot is about 0.25 to 0.5g of bait.

GENERAL DIRECTIONS:

Best results are achieved if the cockroach harbourages are located prior to application. Vendetta Plus should be applied on or near areas of cockroach activity, such as cracks and crevices, corners of warm moist places. Do not allow gel to contact food or food preparation surfaces. Do not place gel on surfaces which are regularly washed or accessible to children or pets.

Maintain good overall hygiene to avoid infestations.

Inspect the bait at monthly intervals.

Re-apply the bait if necessary or the bait is no longer visibly present.

APPLICATION: Attach the plunger into syringe body. Remove the cap and attach the nozzle provided in the pack. Touch the top of the surface and push the plunger to apply the bait.

After use, remove the nozzle and replace the cap on the syringe to retain bait freshness.

BATCH NO:

DOM:

**Vendetta
PLUS**
