

**Section: 1. PRODUCT AND COMPANY IDENTIFICATION**

Product name : MIP LIQUID

Other means of identification : Not applicable.

Recommended use : Cleaning product

Restrictions on use : Reserved for industrial and professional use.

Product dilution information : No dilution information provided.

Company : Ecolab (PTY) LTD  
1 Ampere Street  
Chloorkop, Johannesburg South Africa 1620  
+2711578 5000

Nalco Angola Limitada  
Rua Tipografia Mama Tita, 22B Predio Soliel  
Luanda, Angola  
Tel: 244-222-395120  
Fax: 244-222-394855

Ecolab Kenya  
Tulip House, Mombasa Road  
Next to Sameer Business Park  
PO Box 63497-00619  
Nairobi, Kenya

kenya.info@ecolab.com

Emergency telephone number : +32-(0)3-575-5555 Trans-European

Issuing date : 20.05.2021

**Section: 2. HAZARDS IDENTIFICATION****GHS Classification**

Corrosive to metals : Category 1  
Skin corrosion : Category 1A  
Serious eye damage : Category 1  
Acute aquatic toxicity : Category 3

**GHS Label element**

Hazard pictograms :

Signal Word : Danger

Hazard Statements : May be corrosive to metals.  
Causes severe skin burns and eye damage.  
Harmful to aquatic life.

# SAFETY DATA SHEET

## MIP LIQUID

Precautionary Statements : **Prevention:**  
Keep only in original container. Wash skin thoroughly after handling. Avoid release to the environment. Wear protective gloves/ protective clothing/ eye protection/ face protection.  
**Response:**  
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER/doctor. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/ physician. Wash contaminated clothing before reuse. Absorb spillage to prevent material damage.

Other hazards : None known.

### Section: 3. COMPOSITION/INFORMATION ON INGREDIENTS

Pure substance/mixture : Mixture

| Chemical Name    | CAS-No.   | Concentration: (%) |
|------------------|-----------|--------------------|
| sodium hydroxide | 1310-73-2 | 30 - 60            |

### Section: 4. FIRST AID MEASURES

In case of eye contact : Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

In case of skin contact : Wash off immediately with plenty of water for at least 15 minutes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately.

If swallowed : Rinse mouth with water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention immediately.

If inhaled : Remove to fresh air. Treat symptomatically. Get medical attention if symptoms occur.

Protection of first-aiders : If potential for exposure exists refer to Section 8 for specific personal protective equipment.

Notes to physician : Treat symptomatically.

Most important symptoms and effects, both acute and delayed : See Section 11 for more detailed information on health effects and symptoms.

### Section: 5. FIREFIGHTING MEASURES

Suitable extinguishing media : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media : None known.

## SAFETY DATA SHEET

### MIP LIQUID

- Specific hazards during firefighting : Not flammable or combustible.
- Hazardous combustion products : Decomposition products may include the following materials:  
Not applicable.
- Special protective equipment for firefighters : Use personal protective equipment.
- Specific extinguishing methods : Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes.

#### Section: 6. ACCIDENTAL RELEASE MEASURES

- Personal precautions, protective equipment and emergency procedures : Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed.
- Environmental precautions : Do not allow contact with soil, surface or ground water.
- Methods and materials for containment and cleaning up : Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Flush away traces with water. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway.

#### Section: 7. HANDLING AND STORAGE

- Advice on safe handling : Do not ingest. Do not get in eyes, on skin, or on clothing. Do not breathe dust/fume/gas/mist/vapours/spray. Use only with adequate ventilation. Wash hands thoroughly after handling. In case of mechanical malfunction, or if in contact with unknown dilution of product, wear full Personal Protective Equipment (PPE).
- Conditions for safe storage : Keep out of reach of children. Keep container tightly closed. Store in suitable labeled containers.  
  
Absorb spillage to prevent material damage. Keep only in original packaging.
- Storage temperature : -5 °C to 40 °C
- Packaging material : Suitable material: Plastic material  
Unsuitable material: Aluminium, Mild steel

#### Section: 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

##### Components with workplace control parameters

| Components | CAS-No. | Form of exposure | Permissible concentration | Basis |
|------------|---------|------------------|---------------------------|-------|
|            |         |                  |                           |       |

## SAFETY DATA SHEET

### MIP LIQUID

|                  |           |             |         |           |
|------------------|-----------|-------------|---------|-----------|
| sodium hydroxide | 1310-73-2 | STEL OEL-RL | 2 mg/m3 | ZA OEL    |
| sodium hydroxide | 1310-73-2 | STEL        | 2 mg/m3 | KE OEL    |
| sodium hydroxide | 1310-73-2 | Ceiling     | 2 mg/m3 | ACGIH     |
|                  |           | Ceiling     | 2 mg/m3 | NIOSH REL |
|                  |           | TWA         | 2 mg/m3 | OSHA Z1   |

Engineering measures : Effective exhaust ventilation system. Maintain air concentrations below occupational exposure standards.

#### Personal protective equipment

Eye protection : Safety goggles  
Face-shield

Hand protection : Recommended preventive skin protection  
Gloves  
Nitrile rubber  
butyl-rubber  
Breakthrough time: 1 – 4 hours  
Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Skin protection : Personal protective equipment comprising: suitable protective gloves, safety goggles and protective clothing

Respiratory protection : None required if airborne concentrations are maintained below the exposure limit listed in Exposure Limit Information. Use certified respiratory protection equipment meeting EU requirements(89/656/EEC, (EU) 2016/425), or equivalent, when respiratory risks cannot be avoided or sufficiently limited by technical means of collective protection or by measures, methods or procedures of work organization.

Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. Remove and wash contaminated clothing before re-use. Wash face, hands and any exposed skin thoroughly after handling. Provide suitable facilities for quick drenching or flushing of the eyes and body in case of contact or splash hazard.

#### Section: 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : liquid  
Colour : clear, light brown  
Odour : no data available  
pH : 11,5 - 12,5, (1 %)  
Flash point : Not applicable.  
Odour Threshold : no data available  
Melting point/freezing point : no data available  
Initial boiling point and boiling range : no data available  
Evaporation rate : no data available  
Flammability (solid, gas) : Not applicable.  
Upper explosion limit : no data available

## SAFETY DATA SHEET

### MIP LIQUID

|                                        |                     |
|----------------------------------------|---------------------|
| Lower explosion limit                  | : no data available |
| Vapour pressure                        | : no data available |
| Relative vapour density                | : no data available |
| Relative density                       | : 1,47 - 1,51       |
| Water solubility                       | : soluble           |
| Solubility in other solvents           | : no data available |
| Partition coefficient: n-octanol/water | : no data available |
| Auto-ignition temperature              | : no data available |
| Thermal decomposition                  | : no data available |
| Viscosity, kinematic                   | : no data available |
| Explosive properties                   | : no data available |
| Oxidizing properties                   | : no data available |
| Molecular weight                       | : no data available |
| VOC                                    | : no data available |

#### Section: 10. STABILITY AND REACTIVITY

|                                    |                                                                                                |
|------------------------------------|------------------------------------------------------------------------------------------------|
| Reactivity                         | : No dangerous reaction known under conditions of normal use.                                  |
| Chemical stability                 | : Stable under normal conditions.                                                              |
| Possibility of hazardous reactions | : No dangerous reaction known under conditions of normal use.                                  |
| Conditions to avoid                | : None known.                                                                                  |
| Incompatible materials             | : Acids<br>Aluminium<br>Mild steel                                                             |
| Hazardous decomposition products   | : In case of fire hazardous decomposition products may be produced such as:<br>Not applicable. |

#### Section: 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure : Inhalation, Eye contact, Skin contact

##### Potential Health Effects

|                  |                                                               |
|------------------|---------------------------------------------------------------|
| Eyes             | : Causes serious eye damage.                                  |
| Skin             | : Causes severe skin burns.                                   |
| Ingestion        | : Causes digestive tract burns.                               |
| Inhalation       | : May cause nose, throat, and lung irritation.                |
| Chronic Exposure | : Health injuries are not known or expected under normal use. |

## SAFETY DATA SHEET

### MIP LIQUID

#### Experience with human exposure

|              |                                 |
|--------------|---------------------------------|
| Eye contact  | : Redness, Pain, Corrosion      |
| Skin contact | : Redness, Pain, Corrosion      |
| Ingestion    | : Corrosion, Abdominal pain     |
| Inhalation   | : Respiratory irritation, Cough |

#### Toxicity

##### Product

|                                   |                     |
|-----------------------------------|---------------------|
| Acute oral toxicity               | : no data available |
| Acute inhalation toxicity         | : no data available |
| Acute dermal toxicity             | : no data available |
| Skin corrosion/irritation         | : no data available |
| Serious eye damage/eye irritation | : no data available |
| Respiratory or skin sensitization | : no data available |
| Carcinogenicity                   | : no data available |
| Reproductive effects              | : no data available |
| Germ cell mutagenicity            | : no data available |
| Teratogenicity                    | : no data available |
| STOT - single exposure            | : no data available |
| STOT - repeated exposure          | : no data available |
| Aspiration toxicity               | : no data available |

## Section: 12. ECOLOGICAL INFORMATION

#### Toxicity

|                       |                            |
|-----------------------|----------------------------|
| Environmental Effects | : Harmful to aquatic life. |
|-----------------------|----------------------------|

##### Product

|                                                     |                     |
|-----------------------------------------------------|---------------------|
| Toxicity to fish                                    | : no data available |
| Toxicity to daphnia and other aquatic invertebrates | : no data available |
| Toxicity to algae                                   | : no data available |

##### Components

|                                                     |                                          |
|-----------------------------------------------------|------------------------------------------|
| Toxicity to daphnia and other aquatic invertebrates | : sodium hydroxide<br>48 h EC50: 40 mg/l |
|-----------------------------------------------------|------------------------------------------|

#### Persistence and degradability

Not applicable - inorganic

#### Bioaccumulative potential

## SAFETY DATA SHEET

### MIP LIQUID

no data available

#### Mobility in soil

no data available

#### Other adverse effects

no data available

### Section: 13. DISPOSAL CONSIDERATIONS

- Disposal methods : The product should not be allowed to enter drains, water courses or the soil. Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility.
- Disposal considerations : Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers. Dispose of in accordance with local, state, and federal regulations.

### Section: 14. TRANSPORT INFORMATION

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

#### Land transport (ZA DG)

- UN number : 1824  
Description of the goods : SODIUM HYDROXIDE SOLUTION  
Class : 8  
Packing group : II  
Environmentally hazardous : No

#### Air transport (IATA)

- UN number : 1824  
Description of the goods : Sodium hydroxide solution  
Class : 8  
Packing group : II  
Environmentally hazardous : No

#### Sea transport (IMDG/IMO)

- UN number : 1824  
Description of the goods : SODIUM HYDROXIDE SOLUTION  
Class : 8  
Packing group : II  
Marine pollutant : No

### Section: 15. REGULATORY INFORMATION

The components of this product are reported in the following inventories:

#### United States TSCA Inventory :

All substances listed as active on the TSCA inventory

#### Canadian Domestic Substances List (DSL) :

All components of this product are on the Canadian DSL.

## SAFETY DATA SHEET

### MIP LIQUID

**Australia. Australian Industrial Chemicals Introduction Scheme (AICIS) :**

On the inventory, or in compliance with the inventory

**New Zealand. Inventory of Chemicals (NZIoC), as published by ERMA New Zealand :**

not determined

**Japan. ENCS - Existing and New Chemical Substances Inventory :**

On the inventory, or in compliance with the inventory

**Korea. Korean Existing Chemicals Inventory (KECI) :**

On the inventory, or in compliance with the inventory

**Philippines Inventory of Chemicals and Chemical Substances (PICCS) :**

On the inventory, or in compliance with the inventory

**China Inventory of Existing Chemical Substances :**

On the inventory, or in compliance with the inventory

**Taiwan Chemical Substance Inventory :**

On the inventory, or in compliance with the inventory

#### Section: 16. OTHER INFORMATION

Issuing date : 20.05.2021  
Version : 1.1  
Prepared by : Regulatory Affairs

REVISED INFORMATION: Significant changes to regulatory or health information for this revision is indicated by a bar in the left-hand margin of the SDS.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
