

Technical Data Sheet

Product: Very Large Glue Boards for Rats

Code: 091-RAT-XL

Product Function: Monitoring

Description: The boards are designed as an effective trapping system, only to be used as a last resort. The dry touch glue is suitable for even the most testing environments and can be used in conjunction with Russell IPM's Rat and Mouse lure and Snap'Em gels and tabs

Dimensions: 385 x 600mm

Release Paper: None, ready to use once opened

Glue: Coated with dry glue

Packaging: Box of 500

Trap Application:

Open the board at a right angle to wall and floor like book style and place alongside the wall at a 90 degree opening where rodent activity has been seen. Place in the centre of the infected area.

Trap Density:

Place 1 board in every 10 square meter.

When to Use:

All year round.

Replacement:

Replace after catch, the board must be removed and disposed of immediately.

Storage

Store this product at room temperature for effective storage.

Keep out of direct sunlight.

Precautions

- Handle carefully, avoid extensive contact by hand and wear gloves when handling.
- Do not eat or drink while handling this product.
