

960 Vector[®] SPECIMEN

Fruit Fly Trap

960 Vector Fruit Fly Trap Activation Instructions:

- 1) Activate the **960 Vector Fruit Fly Trap** by pulling the foil wrapper off the top of the trap, exposing the food-grade liquid. Be careful not to spill the liquid.

- 2) Snap the 10-hole venting cap onto the top and place trap as described below, in **Trap Placement and Use**.

General Information:

The **960 Vector Fruit Fly Trap** is scientifically designed to trap *Drosophila* (fruit fly). By counting and mapping infestation levels, you can pinpoint specific sources of infestation. *Drosophila* require very little debris for successful breeding sites. They will gravitate toward decaying food odors, so it is important to cleanup and discard all food materials to minimize fruit fly activity in production areas.

Common use areas are behind or under bars, beverage centers, dishwashers, food displays, food service islands, sinks, ovens, supply racks, vending machines, food preparation tables, etc.

This product does not require a hazard warning in accordance with GHS criteria.

NVA 2017-05-512-0048
Product of Costa Rica.

Trap Placement and Use:

- 1) Place the traps in areas where *Drosophila* have been seen. Place the traps where they will not be disturbed or tipped.
- 2) Avoid placing traps over food preparation areas or exposed food to minimize fruit fly activity in these areas. Human activity in these areas increases the probability of tipping or knocking traps out of position.
- 3) Use supplied glue dots to secure the trap in place.
- 4) Remove the cap to count the number of adults in the trap. If there are a large number of captured flies in a single trap, you may want to strain the liquid for ease of counting.
- 5) Record trap counts on a site map.
- 6) Discard traps after 30 days of use and replace with new traps.

To Apply Adhesive Dots:

- 1) Adhesive dots are positioned between two pieces of paper.
- 2) Peel back one of the wax coated release papers to expose the adhesive dots, leaving the adhesive dots on the other piece of paper.
- 3) Gently press an adhesive dot onto the outer edge of the bottom of a trap. You may wish to apply more than one adhesive dot per trap. If an adhesive dot is placed in the center of the trap, it may be necessary to place additional adhesive dots on the outer edge to ensure long term placement.
- 4) Adhesive dots adhere to a wide variety of materials. Some examples include paper, plastic, foil, glass, aluminum, cinderblock, styrofoam, wood, and stainless steel.

Always make sure that surfaces are clean and dry in order for the adhesive dots to adhere properly. Some substances, such as moisture, oil, dust, hand lotion, and silicone-coated products, may interfere with the bonding quality of adhesive dots.

Conditions of Sale and Warranty

The **Trap Placement and Use** of this product reflect the opinion of experts based on use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, placement, presence of other materials, or use of the product in a manner inconsistent with its directions, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. All such risks shall be assumed by the Buyer. BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Trap Placement and Use**, subject to the inherent risks, referred to above. **BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. BUYER'S EXCLUSIVE REMEDY AND BASF'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT. BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.** BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
