

**SAFETY DATA SHEET** according to "Regulation on Safety Data Sheets regarding the Hazardous Substances and Mixtures" (13.12.2014 - No: 29204)

**PRACTICEPROTECT SURFACE DISINFECTION ALCOHOL (60 PERCENT) SPRAY**

**Section: 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING**

**1.1 Product identifier**

Product name : PRACTICEPROTECT SURFACE DISINFECTION ALCOHOL (60 PERCENT) SPRAY

Product code : 117975E

Use of the Substance/Mixture : Surface Disinfectant

Substance type: : Mixture

**For professional users only.**

Product dilution information : No dilution information provided.

**1.2 Relevant identified uses of the substance or mixture and uses advised against**

Identified uses : Medical devices ; Spray and wipe process

Recommended restrictions on use : Reserved for industrial and professional use.

**1.3 Details of the supplier of the safety data sheet**

Company : Ecolab Temizleme Sistemleri Ltd. Şti  
Esentepe Mahallesi, Cevizli - Esentepe E-5 Yanyol Caddesi  
Vizyon Bulvarı No: 13, Kat 1 No: 65 Turkey TR 34870 KARTAL / İSTANBUL  
+90 (216) 458 69 00, Fax: +90 (216) 458 69 07

**1.4 Emergency telephone number**

Emergency telephone number : +32-(0)3-575-5555 Trans- European

Poison Information Centre telephone number : 114 Ulusal Zehir Danışma Merkezi (UZEM)

Date of Compilation/Revision : 26.11.2020  
Version : 1.0

**Section: 2. HAZARDS IDENTIFICATION**

**2.1 Classification of the substance or mixture**

**Classification (T.R. SEA No 28848)**

Flammable liquids, Category 3 H226  
Eye irritation, Category 2 H319

**PRACTICEPROTECT SURFACE DISINFECTION ALCOHOL (60 PERCENT) SPRAY**

Specific target organ toxicity - single exposure, Category 3, H336  
Central Nervous System

The classification of this product is based on toxicological assessment.

**2.2 Label elements**

**Labelling (T.R. SEA No 28848)**

Hazard pictograms :

Signal Word : Warning

Hazard Statements : H226 Flammable liquid and vapour.  
H319 Causes serious eye irritation.  
H336 May cause drowsiness or dizziness.

Precautionary Statements : **Prevention:**  
P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.  
P261 Avoid breathing spray.  
P280e Wear eye protection/face protection.

**2.3 Other hazards**

None known.

**Section: 3. COMPOSITION/INFORMATION ON INGREDIENTS**

**3.2 Mixtures**

**Hazardous components**

| Chemical Name     | CAS-No.<br>EC-No.    | Classification<br>(T.R. SEA No 28848)                                                                                                          | Concentration<br>: [%] |
|-------------------|----------------------|------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|

For the full text of the H-Statements mentioned in this Section, see Section 16.

**Section: 4. FIRST AID MEASURES**

**PRACTICEPROTECT SURFACE DISINFECTION ALCOHOL (60 PERCENT) SPRAY**

**4.1 Description of first aid measures**

- |                         |                                                                                                                                                                                       |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| In case of eye contact  | : Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention. |
| In case of skin contact | : Rinse with plenty of water.                                                                                                                                                         |
| If swallowed            | : Rinse mouth. Get medical attention if symptoms occur.                                                                                                                               |
| If inhaled              | : Remove to fresh air. Treat symptomatically. Get medical attention if symptoms occur.                                                                                                |

**4.2 Most important symptoms and effects, both acute and delayed**

See Section 11 for more detailed information on health effects and symptoms.

**4.3 Indication of immediate medical attention and special treatment needed**

- |           |                          |
|-----------|--------------------------|
| Treatment | : Treat symptomatically. |
|-----------|--------------------------|

**Section: 5. FIREFIGHTING MEASURES**

**5.1 Extinguishing media**

- |                                |                                                                                                           |
|--------------------------------|-----------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media   | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Unsuitable extinguishing media | : High volume water jet                                                                                   |

**5.2 Special hazards arising from the substance or mixture**

- |                                      |                                                                                                                                                                                                                              |
|--------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specific hazards during firefighting | : Fire Hazard<br>Keep away from heat and sources of ignition.<br>Flash back possible over considerable distance.<br>Beware of vapours accumulating to form explosive concentrations.<br>Vapours can accumulate in low areas. |
| Hazardous combustion products        | : Depending on combustion properties, decomposition products may include following materials:<br>Carbon oxides                                                                                                               |

**5.3 Advice for firefighters**

- |                                               |                                                                                                                                                                                                                              |
|-----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Special protective equipment for firefighters | : Use personal protective equipment.                                                                                                                                                                                         |
| Further information                           | : Use water spray to cool unopened containers. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes. |

**Section: 6. ACCIDENTAL RELEASE MEASURES**

**PRACTICEPROTECT SURFACE DISINFECTION ALCOHOL (60 PERCENT) SPRAY**

**6.1 Personal precautions, protective equipment and emergency procedures**

- Advice for non-emergency personnel : Remove all sources of ignition. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in sections 7 and 8.
- Advice for emergency responders : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials.

**6.2 Environmental precautions**

- Environmental precautions : Do not allow contact with soil, surface or ground water.

**6.3 Methods and materials for containment and cleaning up**

- Methods for cleaning up : Eliminate all ignition sources if safe to do so. Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Flush away traces with water. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway.

**6.4 Reference to other sections**

- See Section 1 for emergency contact information.  
For personal protection see section 8.  
See Section 13 for additional waste treatment information.

**Section: 7. HANDLING AND STORAGE**

**7.1 Precautions for safe handling**

- Advice on safe handling : Avoid contact with skin and eyes. Use only with adequate ventilation. Keep away from fire, sparks and heated surfaces. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Wash hands thoroughly after handling. Open drum carefully as content may be under pressure. Do not breathe spray, vapour. In case of mechanical malfunction, or if in contact with unknown dilution of product, wear full Personal Protective Equipment (PPE).
- Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. Remove and wash contaminated clothing before re-use. Wash face, hands and any exposed skin thoroughly after handling.

**7.2 Conditions for safe storage, including any incompatibilities**

- Requirements for storage areas and containers : Keep away from heat and sources of ignition. Keep in a cool, well-ventilated place. Keep away from oxidizing agents. Keep out of reach of children. Keep container tightly closed. Store in suitable labeled containers.

**PRACTICEPROTECT SURFACE DISINFECTION ALCOHOL (60 PERCENT) SPRAY**

Storage temperature : 0 °C to 25 °C

**7.3 Specific end uses**

Specific use(s) : Medical devices ; Spray and wipe process

**Section: 8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

**8.1 Control parameters**

Contains no substances with occupational exposure limit values.

**DNEL**

|                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## 8.2 Exposure controls

### Appropriate engineering controls

Engineering measures : Effective exhaust ventilation system. Maintain air concentrations below occupational exposure standards.

### Individual protection measures

Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. Remove and wash contaminated clothing before re-use. Wash face, hands and any exposed skin thoroughly after handling.

Eye/face protection (EN 166) : Safety glasses with side-shields

Hand protection (EN 374) : No special protective equipment required.

Skin and body protection (EN 14605) : No special protective equipment required.

Respiratory protection (EN 143, 14387) : When respiratory risks cannot be avoided or sufficiently limited by technical means of collective protection or by measures, methods or procedures of work organization, consider the use of certified respiratory protection equipment meeting EU requirements (89/656/EEC, (EU) 2016/425), or equivalent, with filter type:A

### Environmental exposure controls

General advice : Consider the provision of containment around storage vessels.

## Section: 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

Appearance : liquid  
Colour : light yellow  
Odour : alcohol-like  
pH : 8.0, 100 %  
Flash point : 25 °C closed cup  
Odour Threshold : Not applicable and/or not determined for the mixture

**PRACTICEPROTECT SURFACE DISINFECTION ALCOHOL (60 PERCENT) SPRAY**

|                                         |                                                            |
|-----------------------------------------|------------------------------------------------------------|
| Melting point/freezing point            | : Not applicable and/or not determined for the mixture     |
| Initial boiling point and boiling range | : Not applicable and/or not determined for the mixture     |
| Evaporation rate                        | : Not applicable and/or not determined for the mixture     |
| Flammability (solid, gas)               | : Not applicable and/or not determined for the mixture     |
| Upper explosion limit                   | : Not applicable and/or not determined for the mixture     |
| Lower explosion limit                   | : Not applicable and/or not determined for the mixture     |
| Vapour pressure                         | : Not applicable and/or not determined for the mixture     |
| Relative vapour density                 | : Not applicable and/or not determined for the mixture     |
| Relative density                        | : 0.89                                                     |
| Water solubility                        | : soluble                                                  |
| Solubility in other solvents            | : Not applicable and/or not determined for the mixture     |
| Partition coefficient: n-octanol/water  | : Not applicable and/or not determined for the mixture     |
| Auto-ignition temperature               | : Not applicable and/or not determined for the mixture     |
| Thermal decomposition                   | : Not applicable and/or not determined for the mixture     |
| Viscosity, kinematic                    | : Not applicable and/or not determined for the mixture     |
| Explosive properties                    | : Not applicable and/or not determined for the mixture     |
| Oxidizing properties                    | : The substance or mixture is not classified as oxidizing. |

**9.2 Other information**

Not applicable and/or not determined for the mixture

**Section: 10. STABILITY AND REACTIVITY**

**10.1 Reactivity**

No dangerous reaction known under conditions of normal use.

**10.2 Chemical stability**

Stable under normal conditions.

**10.3 Possibility of hazardous reactions**

No dangerous reaction known under conditions of normal use.

**10.4 Conditions to avoid**

Heat, flames and sparks.

**10.5 Incompatible materials**

None known.

**10.6 Hazardous decomposition products**

**PRACTICEPROTECT SURFACE DISINFECTION ALCOHOL (60 PERCENT) SPRAY**

Depending on combustion properties, decomposition products may include following materials:  
Carbon oxides

**Section: 11. TOXICOLOGICAL INFORMATION**

**11.1 Information on toxicological effects**

Information on likely routes of exposure : Inhalation, Eye contact, Skin contact

**Product**

Acute oral toxicity : There is no data available for this product.

Acute inhalation toxicity : There is no data available for this product.

Acute dermal toxicity : There is no data available for this product.

Skin corrosion/irritation : No skin irritation  
Method: OECD Test Guideline 404  
Test substance: Similar Product

Serious eye damage/eye irritation : Irritating to eyes.  
Method: OECD Test Guideline 405  
Test substance: Similar Product

Respiratory or skin sensitization : There is no data available for this product.

Carcinogenicity : There is no data available for this product.

Reproductive effects : There is no data available for this product.

Germ cell mutagenicity : There is no data available for this product.

Teratogenicity : There is no data available for this product.

STOT - single exposure : There is no data available for this product.

STOT - repeated exposure : There is no data available for this product.

Aspiration toxicity : There is no data available for this product.

**Components**

Acute oral toxicity : Isopropyl Alcohol LD50 rat: 5,840 mg/kg  
propan-1-ol LD50 : 1,870 mg/kg

**Components**

Acute inhalation toxicity : Isopropyl Alcohol 4 h LC50 rat: > 30 mg/l  
Test atmosphere: vapour

**PRACTICEPROTECT SURFACE DISINFECTION ALCOHOL (60 PERCENT) SPRAY**

propan-1-ol 4 h LC50 : 26.76 mg/l  
Test atmosphere: dust/mist

**Components**

Acute dermal toxicity : Isopropyl Alcohol LD50 rabbit: 12,870 mg/kg  
propan-1-ol LD50 : 4,032 mg/kg

**Potential Health Effects**

Eyes : Causes serious eye irritation.  
Causes serious eye irritation.

Skin : Health injuries are not known or expected under normal use.

Ingestion : Health injuries are not known or expected under normal use.

Inhalation : Inhalation may cause central nervous system effects.

Chronic Exposure : Health injuries are not known or expected under normal use.

**Experience with human exposure**

Eye contact : Redness, Pain, Irritation

Skin contact : No symptoms known or expected.

Ingestion : No symptoms known or expected.

Inhalation : Dizziness, Drowsiness

**Section: 12. ECOLOGICAL INFORMATION**

**12.1 Ecotoxicity**

Environmental Effects : This product has no known ecotoxicological effects.

**Product**

Toxicity to fish : no data available

Toxicity to daphnia and other aquatic invertebrates : no data available

Toxicity to algae : no data available

**Components**

Toxicity to fish : Isopropyl Alcohol 96 h LC50 Pimephales promelas (fathead minnow): 9,640 mg/l  
propan-1-ol 96 h EC50: 3,800 mg/l

**Components**

Toxicity to daphnia and other : Isopropyl Alcohol LC50 Daphnia magna (Water flea): > 10,000

**PRACTICEPROTECT SURFACE DISINFECTION ALCOHOL (60 PERCENT) SPRAY**

aquatic invertebrates

mg/l

propan-1-ol48 h LC50: 1,000 mg/l

**Components**

Toxicity to algae

: propan-1-ol48 h EC50: 9,170 mg/l

**12.2 Persistence and degradability**

**Product**

no data available

**Components**

Biodegradability

: Isopropyl AlcoholResult: Readily biodegradable.

propan-1-olResult: Readily biodegradable.

**12.3 Bioaccumulative potential**

no data available

**12.4 Mobility in soil**

no data available

**12.5 Results of PBT and vPvB assessment**

**Product**

Assessment

: This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

**12.6 Other adverse effects**

no data available

**Section: 13. DISPOSAL CONSIDERATIONS**

Dispose of in accordance with the European Directives on waste and hazardous waste. Waste codes should be assigned by the user, preferably in discussion with the waste disposal authorities.

**13.1 Waste treatment methods**

Product

: Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility.

Contaminated packaging

: Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers. Dispose of in accordance with local,

**PRACTICEPROTECT SURFACE DISINFECTION ALCOHOL (60 PERCENT) SPRAY**

state, and federal regulations.

Guidance for Waste Code selection : Organic wastes containing dangerous substances. If this product is used in any further processes, the final user must redefine and assign the most appropriate European Waste Catalogue Code. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable European (EU Directive 2008/98/EC) and local regulations.

**Section: 14. TRANSPORT INFORMATION**

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

**Land transport (ADR/ADN/RID)**

14.1 UN number : 1987  
14.2 UN proper shipping name : ALCOHOLS, N.O.S.  
(Isopropanol, Propanol)  
14.3 Transport hazard class(es) : 3  
14.4 Packing group : III  
14.5 Environmental hazards : No  
14.6 Special precautions for user : None

**Air transport (IATA)**

14.1 UN number : 1987  
14.2 UN proper shipping name : Alcohols, n.o.s.  
(Isopropanol, Propanol)  
14.3 Transport hazard class(es) : 3  
14.4 Packing group : III  
14.5 Environmental hazards : No  
14.6 Special precautions for user : None

**Sea transport (IMDG/IMO)**

14.1 UN number : 1987  
14.2 UN proper shipping name : ALCOHOLS, N.O.S.  
(Isopropanol, Propanol)  
14.3 Transport hazard class(es) : 3  
14.4 Packing group : III  
14.5 Environmental hazards : No  
14.6 Special precautions for user : None  
14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC : Not applicable.

**PRACTICEPROTECT SURFACE DISINFECTION ALCOHOL (60 PERCENT) SPRAY**

Code

**Section: 15. REGULATORY INFORMATION**

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture  
Seveso III: Directive : FLAMMABLE LIQUIDS P5c  
2012/18/EU of the European Lower tier : 5,000 t  
Parliament and of the Council Upper tier : 50,000 t  
on the control of major-  
accident hazards involving  
dangerous substances.

**National Regulations**

**Take note of Dir 94/33/EC on the protection of young people at work.**

Other regulations : According to 11 December 2013, Numbered 28848 (Bis), "Ministry of Environment and Forestry"; Regulation on Classification, Labelling and Packaging of Substances and Mixtures.  
According to 13 Dec 2014, Numbered 29204, "Ministry of Environment and Urbanization"; Regulation on Safety Data Sheets regarding Dangerous Substances and Mixtures.

**15.2 Chemical Safety Assessment**

No Chemical Safety Assessment has been carried out on the product.

**Section: 16. OTHER INFORMATION**

**Procedure used to derive the classification according to REGULATION (EC) No 1272/2008 and Regulation T.R. SEA No 28848**

| Classification                                              | Justification                       |
|-------------------------------------------------------------|-------------------------------------|
| Flammable liquids 3, H226                                   | Based on product data or assessment |
| Eye irritation 2, H319                                      | Based on product data or assessment |
| Specific target organ toxicity - single exposure<br>3, H336 | Calculation method                  |

**Full text of H-Statements**

H225 Highly flammable liquid and vapour.  
H318 Causes serious eye damage.  
H319 Causes serious eye irritation.  
H336 May cause drowsiness or dizziness.
