

SAFETY DATA SHEET

Conforms to EU regulation EC 1907/2006 and amendments

SANI-CLOTH 2%

Code : 113426E

Version : 2

Date of revision : 17 November 2009

1. Identification of the substance/preparation and company/undertaking

Identification of the substance or preparation

Product name : SANI-CLOTH 2%
Product use : Surface Disinfectant
Product is for professional use only

Company/undertaking identification

Manufacturer/ : Ecolab Ltd.
Distributor/ La Vallee House
Importer Upper Dargle Road
Bray
Co. Wicklow
Ireland
Tel +353 (0)1 276 3500
Fax + 353 (0)1 2761900
infoireland@ecolab.com
Emergency phone: 01 8727322 Ref: DC2-909

anti-poison centre : 01 8379964

2. Hazards identification

The product is classified as dangerous according to Directive 1999/45/EC and its amendments.

Classification : F; R11
Xi; R36
R67
N; R50

Physical/chemical hazards : Highly flammable.

Human health hazards : Irritating to eyes. Vapours may cause drowsiness and dizziness.

Environmental hazards : Very toxic to aquatic organisms.

See section 11 for more detailed information on health effects and symptoms.

3. Composition/information on ingredients

Substance/preparation : Preparation

Ingredient name	EINECS	CAS	%	Classification
propan-2-ol	200-661-7	67-63-0	50 - 100	F; R11 [1] Xi; R36 [2] R67
D-gluconic acid, compound with N,N"-bis(4-chlorophenyl)-3,12-diimino-2,4,11,13-tetraazatetradecanediamidine (2:1)	242-354-0	18472-51-0	2 - 5	Xi; R41 [1] N; R50
See section 16 for the full text of the R-phrases declared above				

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Date of issue : 17 November 2009

Page: 1/5

[3] PBT-substance

[4] vPvB-substance

Occupational exposure limits, if available, are listed in section 8.

4. First aid measures

First-aid measures

- | | |
|----------------------------|---|
| Inhalation | : Move exposed person to fresh air. Get medical attention. |
| Ingestion | : Wash out mouth with water. Move exposed person to fresh air. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if adverse health effects persist or are severe. |
| Skin contact | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. |
| Eye contact | : Get medical attention. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. |
| Specific treatments | : Not available. |

See section 11 for more detailed information on health effects and symptoms.

5. Fire-fighting measures

- | | |
|---|---|
| Extinguishing media - Suitable | : In case of fire, use water spray (fog), foam, dry chemical or CO ₂ . This material is very toxic to aquatic organisms. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| Extinguishing media - Not suitable | : Do not use water jet. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

6. Accidental release measures

- | | |
|----------------------------------|--|
| Personal precautions | : Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Shut off all ignition sources. Avoid breathing vapour or mist. Provide adequate ventilation. |
| Environmental precautions | : Water polluting material. May be harmful to the environment if released in large quantities. |
| Small spill | : Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container. Use spark-proof tools and explosion-proof equipment. |
| Large spill | : Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Use spark-proof tools and explosion-proof equipment. |

Note: see section 8 for personal protective equipment and section 13 for waste disposal.

7. Handling and storage

- | | |
|----------------------------|--|
| Handling | : Do not ingest. Avoid contact with eyes, skin and clothing. Avoid release to the environment. Wear appropriate respirator when ventilation is inadequate. Store and use away from heat, sparks, open flame or any other ignition source. After handling, always wash hands thoroughly with soap and water. |
| Storage | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use.
 Store between the following temperatures: 0 and 25°C |
| Packaging materials | |
| Recommended | : Use original container. |
| Specific uses | : Not available. |

8. Exposure controls/personal protection

Ingredient name

propan-2-ol

Occupational exposure limits**NAOSH (Ireland, 8/2007). Absorbed through skin.**

STEL: 400 ppm 15 minute(s).

TWA: 200 ppm 8 hour(s).

Exposure controls**Occupational exposure controls**

: If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators.

Respiratory protection (EN 143, 14387)

: A respirator is not needed under normal and intended conditions of product use.

Hand protection (EN 374)

: 1 - 4 hours : butyl rubber , nitrile rubber

Eye protection (EN 166)

: Safety glasses.

Skin protection (EN 14605)

: No special recommendations.

9. Physical and chemical properties

General information**Appearance****Physical state**

: Liquid.

Colour

: Colourless to light yellow.

Odour

: Alcohol-like.

Important health, safety and environmental information**pH**

: 6 to 7 (100%)

Boiling point

: Not available.

Melting point

: Not available.

Flash point

: 11 °C (Closed cup)

Flammability (solid, gas)

: Not applicable.

Explosive properties

: Not applicable.

Explosion limits

: Lower: 2 Vol. %

Oxidising properties

: Not available.

Vapour pressure

: Not applicable.

Relative density: 0.85 g/cm³ (20 °C)**Solubility**

: Easily soluble in cold water.

Octanol/water partition coefficient

: Not applicable.

Viscosity

: Not available.

Vapour density

: Not available.

Evaporation rate (butyl acetate = 1)

: Not applicable.

10. Stability and reactivity

Stability

: Stable under normal conditions.

Do not mix with other products.

11. Toxicological information

Potential acute health effects**Inhalation**

: Vapours may cause drowsiness and dizziness. Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

Ingestion

: No known significant effects or critical hazards.

Skin contact

: No known significant effects or critical hazards.

SANI-CLOTH 2%

Eye contact	: Irritating to eyes.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Reproductive toxicity	: No known significant effects or critical hazards.

12. Ecological information

Ecotoxicity

R50- Very toxic to aquatic organisms.

Persistence and degradability

The ecological evaluation of the product is based on data from the raw material and/or comparable substances. The total of the organic components contained in the product achieve > 60% BOD/COD or CO₂ liberation, or > 70% DOC reduction in tests for ease of degradability - threshold values for 'readily degradable' (e.g. to OECD method 301).

13. Disposal considerations

Methods of disposal	: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Can be added to general waste collection after completely emptying. Use packages for recycling only when totally empty.
European waste catalogue (EWC)	: 200113*

14. Transport information

International transport regulations

Regulatory information	UN number	Proper shipping name	Class	Packing group	Label
ADR/RID Class	UN3175	SOLIDS CONTAINING FLAMMABLE LIQUID, N.O.S. (Isopropanol, Chlorhexidine digluconate)	4.1	II	4.1
IMDG Class	UN3175	SOLIDS CONTAINING FLAMMABLE LIQUID, N.O.S. (Isopropanol, Chlorhexidine digluconate). Marine pollutant	4.1	II	4.1

Follow special pack instructions for air transport.

15. Regulatory information

EU regulations

Hazard symbol/symbols

Highly flammable, Irritant, Dangerous for the environment

Risk phrases

- : R11- Highly flammable.
R36- Irritating to eyes.
R67- Vapours may cause drowsiness and dizziness.
R50- Very toxic to aquatic organisms.

SANI-CLOTH 2%

Safety phrases : S2- Keep out of the reach of children.
S16- Keep away from sources of ignition - No smoking.
S23- Do not breathe vapour.
S26- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S51- Use only in well-ventilated areas.

National regulations

Safety, Health and Welfare at Work Act, 2005

European Communities (Classification, Packaging, Labelling and Notification of Dangerous Preparations) Regulations 1995. (S.I. 272 of 1995) as amended

16. Other information

Full text of R-phrases referred to in sections 2 and 3 - Ireland : R11- Highly flammable.
R41- Risk of serious damage to eyes.
R36- Irritating to eyes.
R67- Vapours may cause drowsiness and dizziness.
R50- Very toxic to aquatic organisms.

History

Date of printing : 17 November 2009
Date of revision : 17 November 2009
Version : 2
Prepared by : Ecolab Regulatory Department Europe

Notice to reader

The above information is believed to be correct with respect to the formula used to manufacture the product in the country of origin. As data, standards, and regulations change, and conditions of use and handling are beyond our control, NO WARRANTY, EXPRESS OR IMPLIED, IS MADE AS TO THE COMPLETENESS OR CONTINUING ACCURACY OF THIS INFORMATION.
