

## SAFETY DATA SHEET

### QSR HI-TEMP GRILL CLEANER

#### Section: 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : QSR HI-TEMP GRILL CLEANER

Other means of identification : Not applicable.

Recommended use : Grill Cleaner

Restrictions on use : Reserved for industrial and professional use.

Product dilution information : Product is sold ready to use.

Company : Ecolab New Zealand  
2A Pacific Rise  
Mt. Wellington, Auckland New Zealand  
+64 7 958 2319

Emergency telephone number : 0800 243 622 (0800 CHEMCALL)  
+64 7 958 2372 (International)

Issuing date : 06.12.2021

#### Section: 2. HAZARDS IDENTIFICATION

##### HSNO Hazard classification

Skin irritation : 6.3 B  
Eye irritation : 6.4 A  
Ecotoxic to terrestrial vertebrates : 9.3 C

##### GHS Label element

Signal Word : Warning

Hazard Statements : Causes mild skin irritation.  
Causes eye irritation.  
Harmful to terrestrial vertebrates.

Precautionary Statements : **Prevention:**  
Wash skin thoroughly after handling. Avoid release to the environment.  
**Response:**  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/ attention.  
**Disposal:**  
Dispose of contents/ container to an approved waste disposal plant.

Other hazards : None known.

#### Section: 3. COMPOSITION/INFORMATION ON INGREDIENTS

Pure substance/mixture : Mixture

| Chemical Name       | CAS-No.  | Concentration: (%) |
|---------------------|----------|--------------------|
| glycerin            | 56-81-5  | 30 - 60            |
| potassium carbonate | 584-08-7 | 10 - 30            |

## SAFETY DATA SHEET

### QSR HI-TEMP GRILL CLEANER

#### Section: 4. FIRST AID MEASURES

|                                                             |                                                                                                   |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------|
| In case of eye contact                                      | : Rinse with plenty of water.                                                                     |
| In case of skin contact                                     | : Rinse with plenty of water.                                                                     |
| If swallowed                                                | : Rinse mouth. Get medical attention if symptoms occur.                                           |
| If inhaled                                                  | : Get medical attention if symptoms occur.                                                        |
| Protection of first-aiders                                  | : If potential for exposure exists refer to Section 8 for specific personal protective equipment. |
| Notes to physician                                          | : Treat symptomatically.                                                                          |
| Most important symptoms and effects, both acute and delayed | : See Section 11 for more detailed information on health effects and symptoms.                    |

#### Section: 5. FIREFIGHTING MEASURES

|                                               |                                                                                                                                                                                 |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                  | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.                                                                       |
| Unsuitable extinguishing media                | : None known.                                                                                                                                                                   |
| Specific hazards during firefighting          | : Not flammable or combustible.                                                                                                                                                 |
| Hazardous combustion products                 | : Decomposition products may include the following materials:<br>Carbon oxides                                                                                                  |
| Special protective equipment for firefighters | : Use personal protective equipment.                                                                                                                                            |
| Specific extinguishing methods                | : Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes. |

#### Section: 6. ACCIDENTAL RELEASE MEASURES

|                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in sections 7 and 8.                                                                                                                                                                                                                                                                                            |
| Environmental precautions                                           | : Do not allow contact with soil, surface or ground water.                                                                                                                                                                                                                                                                                                                                                    |
| Methods and materials for containment and cleaning up               | : Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Flush away traces with water. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. |

## SAFETY DATA SHEET

### QSR HI-TEMP GRILL CLEANER

#### Section: 7. HANDLING AND STORAGE

- Advice on safe handling : Avoid contact with skin and eyes. Wash hands thoroughly after handling. In case of mechanical malfunction, or if in contact with unknown dilution of product, wear full Personal Protective Equipment (PPE).
- Conditions for safe storage : Do not store near acids. Keep out of reach of children. Keep container tightly closed. Store in suitable labeled containers.
- Storage temperature : 0 °C to 50 °C

#### Section: 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

##### Components with workplace control parameters

| Components | CAS-No. | Form of exposure | Permissible concentration | Basis  |
|------------|---------|------------------|---------------------------|--------|
| glycerin   | 56-81-5 | WES-TWA (Mist)   | 10 mg/m <sup>3</sup>      | NZ OEL |

- Engineering measures : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

##### Personal protective equipment

- Eye protection : No special protective equipment required.
- Hand protection : No special protective equipment required.
- Skin protection : No special protective equipment required.
- Respiratory protection : Refer to AS/NZS 1715 and AS/NZS 1716 for selection, use and maintenance of respiratory protective equipment as applicable.
- Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. Wash face, hands and any exposed skin thoroughly after handling.

#### Section: 9. PHYSICAL AND CHEMICAL PROPERTIES

- Appearance : liquid
- Colour : clear, light yellow
- Odour : slight
- pH : 12.2, (100 %)
- Flash point : Not applicable., Does not sustain combustion.
- Odour Threshold : no data available
- Melting point/freezing point : no data available
- Initial boiling point and boiling range : > 100 °C
- Evaporation rate : no data available

## SAFETY DATA SHEET

### QSR HI-TEMP GRILL CLEANER

|                                        |                                                            |
|----------------------------------------|------------------------------------------------------------|
| Flammability (solid, gas)              | : Not applicable.                                          |
| Upper explosion limit                  | : no data available                                        |
| Lower explosion limit                  | : no data available                                        |
| Vapour pressure                        | : no data available                                        |
| Relative vapour density                | : no data available                                        |
| Relative density                       | : 1.268 - 1.298                                            |
| Water solubility                       | : soluble                                                  |
| Solubility in other solvents           | : no data available                                        |
| Partition coefficient: n-octanol/water | : no data available                                        |
| Auto-ignition temperature              | : no data available                                        |
| Thermal decomposition                  | : no data available                                        |
| Viscosity, kinematic                   | : no data available                                        |
| Explosive properties                   | : no data available                                        |
| Oxidizing properties                   | : The substance or mixture is not classified as oxidizing. |
| Molecular weight                       | : no data available                                        |
| VOC                                    | : no data available                                        |

#### Section: 10. STABILITY AND REACTIVITY

|                                    |                                                                                              |
|------------------------------------|----------------------------------------------------------------------------------------------|
| Reactivity                         | : No dangerous reaction known under conditions of normal use.                                |
| Chemical stability                 | : Stable under normal conditions.                                                            |
| Possibility of hazardous reactions | : No dangerous reaction known under conditions of normal use.                                |
| Conditions to avoid                | : None known.                                                                                |
| Incompatible materials             | : Acids                                                                                      |
| Hazardous decomposition products   | : In case of fire hazardous decomposition products may be produced such as:<br>Carbon oxides |

#### Section: 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure : Inhalation, Eye contact, Skin contact

##### Potential Health Effects

|                  |                                                               |
|------------------|---------------------------------------------------------------|
| Eyes             | : Causes eye irritation.                                      |
| Skin             | : Health injuries are not known or expected under normal use. |
| Ingestion        | : Health injuries are not known or expected under normal use. |
| Inhalation       | : Health injuries are not known or expected under normal use. |
| Chronic Exposure | : Health injuries are not known or expected under normal use. |

## SAFETY DATA SHEET

### QSR HI-TEMP GRILL CLEANER

#### Experience with human exposure

|              |                                  |
|--------------|----------------------------------|
| Eye contact  | : Redness, Irritation            |
| Skin contact | : slight irritation              |
| Ingestion    | : No symptoms known or expected. |
| Inhalation   | : No symptoms known or expected. |

#### Toxicity

##### Product

|                                   |                                                                      |
|-----------------------------------|----------------------------------------------------------------------|
| Acute oral toxicity               | : Acute toxicity estimate : > 5,000 mg/kg                            |
| Acute inhalation toxicity         | : 4 h Acute toxicity estimate : > 40 mg/l<br>Test atmosphere: vapour |
| Acute dermal toxicity             | : Acute toxicity estimate : > 5,000 mg/kg                            |
| Skin corrosion/irritation         | : no data available                                                  |
| Serious eye damage/eye irritation | : no data available                                                  |
| Respiratory or skin sensitization | : no data available                                                  |
| Carcinogenicity                   | : no data available                                                  |
| Reproductive effects              | : no data available                                                  |
| Germ cell mutagenicity            | : no data available                                                  |
| Teratogenicity                    | : no data available                                                  |
| STOT - single exposure            | : no data available                                                  |
| STOT - repeated exposure          | : no data available                                                  |
| Aspiration toxicity               | : no data available                                                  |

### Section: 12. ECOLOGICAL INFORMATION

#### Toxicity

|                       |                                                       |
|-----------------------|-------------------------------------------------------|
| Environmental Effects | : This product has no known ecotoxicological effects. |
|-----------------------|-------------------------------------------------------|

#### Product

|                                                     |                     |
|-----------------------------------------------------|---------------------|
| Toxicity to fish                                    | : no data available |
| Toxicity to daphnia and other aquatic invertebrates | : no data available |
| Toxicity to algae                                   | : no data available |

#### Components

|                  |                                                   |
|------------------|---------------------------------------------------|
| Toxicity to fish | : glycerin<br>96 h LC50 Fish: 855 mg/l            |
|                  | : potassium carbonate<br>96 h LC50 Fish: 230 mg/l |

#### Persistence and degradability

## SAFETY DATA SHEET

### QSR HI-TEMP GRILL CLEANER

Readily biodegradable.
