

## SAFETY DATA SHEET

### QSR HAND SANITIZER

#### SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : QSR HAND SANITIZER

Other means of identification : Not applicable

Recommended use : Skin antiseptic

Restrictions on use : Reserved for industrial and professional use.

Product dilution information : Product is sold ready to use.

Company : Kay Chemical Company  
8300 Capital Drive  
Greensboro, North Carolina USA 27409  
1-800-529-5458

Emergency telephone : 1-800-328-0026 (US/Canada), 1-651-222-5352 (outside US)

Issuing date : 15.10.2014

#### SECTION 2. HAZARDS IDENTIFICATION

Physical and chemical hazards : Flammable liquid and vapor.

##### Potential Health Effects

Eyes : Causes eye irritation.

Skin : Health injuries are not known or expected under normal use.

Ingestion : Health injuries are not known or expected under normal use.

Inhalation : Health injuries are not known or expected under normal use.

Chronic Exposure : Health injuries are not known or expected under normal use.

#### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Pure substance/mixture : Mixture

| Chemical Name     | CAS-No. | Concentration (%) |
|-------------------|---------|-------------------|
| ethanol           | 64-17-5 | 30 - 60           |
| Isopropyl Alcohol | 67-63-0 | 1 - 5             |

#### SECTION 4. FIRST AID MEASURES

In case of eye contact : Rinse with water.

In case of skin contact : Rinse with water.

If swallowed : Rinse mouth. Get medical attention if symptoms occur.

If inhaled : Get medical attention if symptoms occur.

Protection of first-aiders : No special precautions are necessary for first aid responders.

## SAFETY DATA SHEET

### QSR HAND SANITIZER

Notes to physician : Treat symptomatically.

See toxicological information (Section 11)

#### SECTION 5. FIRE-FIGHTING MEASURES

- Suitable extinguishing media : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
- Unsuitable extinguishing media : High volume water jet
- Specific hazards during fire fighting : Fire Hazard  
Keep away from heat and sources of ignition.  
Flash back possible over considerable distance.  
Beware of vapors accumulating to form explosive concentrations.  
Vapors can accumulate in low areas.
- Hazardous combustion products : Decomposition products may include the following materials:  
Carbon oxides  
Nitrogen oxides (NOx)  
Sulfur oxides  
Oxides of phosphorus
- Special protective equipment for fire-fighters : Use personal protective equipment.
- Specific extinguishing methods : Use water spray to cool unopened containers. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

#### SECTION 6. ACCIDENTAL RELEASE MEASURES

- Personal precautions, protective equipment and emergency procedures : Remove all sources of ignition. Refer to protective measures listed in sections 7 and 8.
- Environmental precautions : Do not allow contact with soil, surface or ground water.
- Methods and materials for containment and cleaning up : Eliminate all ignition sources if safe to do so. Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Flush away traces with water. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway.

#### SECTION 7. HANDLING AND STORAGE

- Advice on safe handling : Keep away from fire, sparks and heated surfaces. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors).
- Conditions for safe storage : Keep away from heat and sources of ignition. Keep in a cool, well-ventilated place. Keep away from oxidizing agents. Keep out of reach of children. Keep container tightly closed. Store in suitable labeled containers.
- Storage temperature : 0 °C to 25 °C

|                   |         | STEL             | 500 ppm<br>1,225 mg/m3    | NIOSH REL |
|                   |         | TWA              | 400 ppm<br>980 mg/m3      | OSHA Z1   |

Engineering measures : Good general ventilation should be sufficient to control worker

## SAFETY DATA SHEET

### QSR HAND SANITIZER

exposure to airborne contaminants.

#### Personal protective equipment

|                        |                                                                   |
|------------------------|-------------------------------------------------------------------|
| Eye protection         | : No special protective equipment required.                       |
| Hand protection        | : No special protective equipment required.                       |
| Skin protection        | : No special protective equipment required.                       |
| Respiratory protection | : No personal respiratory protective equipment normally required. |
| Hygiene measures       | : No specific measures identified.                                |

### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                         |                                                            |
|-----------------------------------------|------------------------------------------------------------|
| Appearance                              | : gel                                                      |
| Color                                   | : clear, colorless                                         |
| Odor                                    | : alcoholic                                                |
| pH                                      | : 7.0, 100 %                                               |
| Flash point                             | : 27 °C closed cup, Sustains combustion                    |
| Odor Threshold                          | : No data available                                        |
| Melting point/freezing point            | : No data available                                        |
| Initial boiling point and boiling range | : No data available                                        |
| Evaporation rate                        | : No data available                                        |
| Flammability (solid, gas)               | : No data available                                        |
| Upper explosion limit                   | : No data available                                        |
| Lower explosion limit                   | : No data available                                        |
| Vapor pressure                          | : No data available                                        |
| Relative vapor density                  | : No data available                                        |
| Relative density                        | : 0.84 - 0.94                                              |
| Water solubility                        | : No data available                                        |
| Solubility in other solvents            | : No data available                                        |
| Partition coefficient: n-octanol/water  | : No data available                                        |
| Autoignition temperature                | : No data available                                        |
| Thermal decomposition                   | : No data available                                        |
| Viscosity, kinematic                    | : 3,658.259 mm <sup>2</sup> /s (40 °C)                     |
| Explosive properties                    | : No data available                                        |
| Oxidizing properties                    | : The substance or mixture is not classified as oxidizing. |
| Molecular weight                        | : No data available                                        |
| VOC                                     | : No data available                                        |

### SECTION 10. STABILITY AND REACTIVITY

## SAFETY DATA SHEET

### QSR HAND SANITIZER

|                                    |                                                                                                                                                               |
|------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Chemical stability                 | : Stable under normal conditions.                                                                                                                             |
| Possibility of hazardous reactions | : No dangerous reaction known under conditions of normal use.                                                                                                 |
| Conditions to avoid                | : Heat, flames and sparks.                                                                                                                                    |
| Incompatible materials             | : None known.                                                                                                                                                 |
| Hazardous decomposition products   | : Decomposition products may include the following materials:<br>Carbon oxides<br>Nitrogen oxides (NO <sub>x</sub> )<br>Sulfur oxides<br>Oxides of phosphorus |

### SECTION 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure : Inhalation, Eye contact, Skin contact

#### Potential Health Effects

|                  |                                                               |
|------------------|---------------------------------------------------------------|
| Eyes             | : Causes eye irritation.                                      |
| Skin             | : Health injuries are not known or expected under normal use. |
| Ingestion        | : Health injuries are not known or expected under normal use. |
| Inhalation       | : Health injuries are not known or expected under normal use. |
| Chronic Exposure | : Health injuries are not known or expected under normal use. |

#### Experience with human exposure

|              |                                  |
|--------------|----------------------------------|
| Eye contact  | : Redness, Irritation            |
| Skin contact | : No symptoms known or expected. |
| Ingestion    | : No symptoms known or expected. |
| Inhalation   | : No symptoms known or expected. |

#### Toxicity

|                                   |                     |
|-----------------------------------|---------------------|
| Acute oral toxicity               | : No data available |
| Acute inhalation toxicity         | : No data available |
| Acute dermal toxicity             | : No data available |
| Skin corrosion/irritation         | : No data available |
| Serious eye damage/eye irritation | : No data available |
| Respiratory or skin sensitization | : No data available |
| Carcinogenicity                   |                     |

IARC  
No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

## SAFETY DATA SHEET

### QSR HAND SANITIZER

OSHA No ingredient of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

NTP No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Reproductive effects : No data available

Germ cell mutagenicity : No data available

Teratogenicity : No data available

STOT-single exposure : No data available

STOT-repeated exposure : No data available

Aspiration toxicity : No data available

#### Ingredients

Acute oral toxicity : ethanol  
LD50 Rat: 10,470 mg/kg

Isopropyl Alcohol  
LD50 Rat: 4,710 mg/kg

#### Ingredients

Acute inhalation toxicity : ethanol  
4 h LC50 Rat: 117 mg/l

Isopropyl Alcohol  
4 h LC50 Rat: 30 mg/l

#### Ingredients

Acute dermal toxicity : ethanol  
LD50 Rabbit: 15,800 mg/kg

Isopropyl Alcohol  
LD50 Rabbit: 12,870 mg/kg

## SECTION 12. ECOLOGICAL INFORMATION

#### Ecotoxicity

Environmental Effects : This product has no known ecotoxicological effects.

#### Product

Toxicity to fish : No data available

Toxicity to daphnia and other aquatic invertebrates : No data available

Toxicity to algae : No data available

#### Ingredients

Toxicity to fish : ethanol  
96 h LC50 Fish : 11,000 mg/l

Isopropyl Alcohol  
96 h LC50 Fish : 9,640 mg/l

## SAFETY DATA SHEET

### QSR HAND SANITIZER

#### Persistence and degradability

No data available

#### Bioaccumulative potential

No data available

#### Mobility in soil

No data available

#### Other adverse effects

No data available

### SECTION 13. DISPOSAL CONSIDERATIONS

- Disposal methods : Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility.
- Disposal considerations : Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.

### SECTION 14. TRANSPORT INFORMATION

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

#### Land transport (ANTT 420)

UN number : 1170  
Description of the goods : ETHANOL SOLUTION  
Class : 3  
Packing group : III  
Environmentally hazardous : no

#### Sea transport (IMDG/IMO)

UN number : 1170  
Description of the goods : ETHANOL SOLUTION  
Class : 3  
Packing group : III  
Marine pollutant : no

### SECTION 15. REGULATORY INFORMATION

For Regulatory information please contact your Ecolab sales representative.
